After School Nightmare, Volume 9 Setona Mizushiro

Mashiro has finally come to terms with his feelings, but even though Sou has cast aside his controlling sister, her hold on him goes deeper than he thinks. When Kureha finds her own strength and decides not to graduate, Mashiro throws himself into his relationship with Sou, but was Sou ever really serious about him?

From Reader Review After School Nightmare, Volume 9 for online ebook

Krista Ivy says

finally, the characters are coming to grips with who they are.

Treasure says

OK, this book made the other slow ones in the series totally worth it! Lots of surprises and twists and turns--total fun and drama. The Kurosaki twist caught me completely off guard, and I appreciated the Sou surprises as well. I need to reread the series now to catch the subtle hints that I missed.

Anat says

Wow. Wow. Wow.

Forget everything you have learned in the previous volumes, because Setona Mizushiro is crashing all of it in this volume. (Though, in retrospection, it all makes sense now.)

Jenni says

So confused by the ending of this one.

Elizabeth says

See my review for Vol 1.

Julie says

Giving it 4 stars this time, because the background of a character and what was going on with him was unexpected. And I don't have much more to say about this volume. Except that I'm totally confused by how it ended.

Hopefully the last volume in the series will clear up my confusion.

Timothy says

Interesting deus ex machina finally revealed. ...too bad it didn't come 5 volumes before. Also, wasn't Kurosaki in the dream as himself at the same time as the Knight? The only explanation I could think of was that the Kurosaki was saw earlier was a doppelganger of a person who wanted to be like him. The same person who tried to become the Knight after Kurosaki graduated.

Anyway, by this point I think story and plot was already thrown out the window long long ago and all we have left is just the usual teenage dramatic bishonen angst. I guess that's enough for some....

Jj says

As always After School Nightmare leaves me waiting to read book 10. I truly believe this book is for anyone of any race and life style. It opens up your eyes more on the feelings and life a person who has the same problem as Mirchao. But I definitely love this manga and series. I like how the book takes different twist and turns.

Chibineko says

The true identity of the knight has been discovered, much to the surprise of many. This isn't the only revelation of the book, as we also discover the disturbing truth behind Sou's obsessive sister Ai. Kureha has to not only learn to accept who & what she is, but she also has to compete with someone who isn't playing fair.

The storyline keeps getting better & better in this series. The pacing is very well done & the characters are enthralling even when they're really behaving in ways that aren't that likable. Like another review said, this volume ends on a "what they hey?" type of ending that makes me eager to read the last volume.

Lauren says

As Ichijou Mashiro's hard kept secret is revealed to his classmates, Mashiro's dream world is turned upside down. The after-hours class Mashiro signs up for is not at all what he expects it to be. Passing the class is his only chance of graduation and the horrors he finds there are only the beginnings to the mysteries yet to be revealed.

This dark series is filled with controversial and emotional issues that take the reader on a journey through what the characters are feeling and what they experience. There is always some sort of twists throughout causing the reader to re-think about the issues involved.

Interesting concept to say the least! The story itself invokes a creepy mysterious concept taking place throughout the school. I was impressed with the complexities of the students and situations involved throughout the series. Reading this series the author does an amazing job of making the reader feel the

characters pain and suffering.

Note: This review was completed after reading volumes 1-10.

Susan says

I knew Sou wasn't the Black Knight. And I'm relieved to learn that he isn't really having sex with his sister. But I'm not sure how everything is going to wrap up in just one more volume. I hope the ending isn't disappointing.

Elena says

Gets weirder and weirder with every volume.

Bryn (Plus Others) says

[they are actually previewing the life they are going to have? I will have to reread the last volume, perhaps that is made clear in it, but the way Kurosaki says that he will do what his parents want, but that they can't kill the real person he is and that in time that person will awaken -- it sounds like thinkin

Sarah says

Many of the confusing strange plot threads are coming together now, and this volume was a real page turner. I recommend reading it when you can read 10 right away, because you will be completely enthralled (and a little confused).

Sophia F says

Wow. Just wow.

Lots of stuff happened in this volume, and as shocking as it is, I'm saying that this volume made the whole series actually WORTH IT.

I'm surprising myself by saying [typing] it, but the volume itself shocked me even more.

I cannot believe that Kurosaki, the beloved Sempai was actually the Knight the entire time. That was... That was so shocking I had to read it over again.

I'm kind of irritated too though, because by thinking that the Knight was Sou the whole time, (I knew something was wrong with how open he was!) I now want to re-read the entire series knowing that the Knight was really Kurosaki, (seeing as in certain dreams he harassed Mashiro).

Along with the new identity, (who sadly left us) we find out the truth of Ai's existence. She really was just a figment of Sou's imagination, (creepy enough since she's been around for over 10 years, and they've

intensely made-out before), but oddly enough everyone else can see her in the dreams. Even Kurosaki was saying that he wanted to kill that 'witch'.

It's kind of sad that Sou chose Ai when she had chained both herself and Mashiro on a crumbling bridge, but yet he ended up killing her, (or basically just killing a part of his imagination.)

Did killing his dream-version of his sister, (the black-dressed one) kill off the real one, (I assume the one dressed in white, but her wardrobe may have changed) or was that a complete coincidence? The storyline could really go either way.

The ending left me quite satisfied, (satisfied in a way like "I'm glad I kept reading, and I'm ready to read the next and last volume". If it has ended the series that way, I definitely wouldn't have been satisfied. I would have been PISSED.) [Excuse language]

I have always loved stories with some kind of amnesia, or memory loss, or something that doesn't have a name for it where everyone forgets who you are or you wake up and find yourself as someone totally different, (socially wise.). I think this story has taken a turn for the better. 'Smirk.'

It's not that I didn't like this series, it's just that there wasn't enough action for me. (Obviously I haven't read a non-manga romance in a while).

Just one more volume. One more!

I really hope this turns out as well as I hope it will.
