BloodCast, Season 1 Scott Sigler

Was a semi-weekly podcast of short stories, (is now titled BLOOD IS READ,) by author Scott Sigler containing the following:

NUMBER ONE WITH A BULLET-Lawrence Cutter investigates potential NFL draft picks for the team owners. He lets them know who's a good pick, and who may be a personality time bomb just waiting for a catalyst to set it off.

WOLF- For one traveler, the last thing in the world he wants to hear is the howl of a wolf on the prowl.

SPLASHING CONTEST-A master bully is introduced to true, total revenge by two of his victims.

SACRED COW-Gordo Gordon is an idiot savant who makes an astounding discovery with the help of his guardian.

THE GREAT SNIPE HUNT- Nature abhors a vacuum. Evolution will inevitably fill it, if it hasn't already.....

IOWA TYPHOON-The lightning makes you do things, but that's okay, you'll soon forget your sins ...

RED MAN-"No man suffers injustice without learning, vaguely but surely, what justice is." - Isaac Rosenfeldr

EARTHCORE II: MT. FITZROY INTRODUCTION-Scott gives an advance preview of Earthcore II from the Podcast Media Expo.

I have been a big fan of Sigler since hearing his free audiobook of Infected. This book contains many of his short stories which all have an interesting concept or twist. You can listen to the audiobook on itunes for free.

Great stuff!
