**This novella is now called *Fire*, and has been revised and expanded with new content. It was originally published as *Fiery Nights* in 2012. Don't miss this fiery continuation of the hot *Underground Encounters* series!**

He may own a Goth nightclub, but Tristan Stone avoids people — the darkness that surrounds them drains him. When he sees Maya for the first time, alone on the dance floor, a light surrounds her. He must discover who she is and what gives her power. He wants her, must have her.

Maya sees a man with haunting eyes watching her from the back of the club. She feels their connection, but thinks it's merely physical attraction. Their passion ignites, overpowering them, and they must work together to understand their connection. The heat of their passion could send their world up in flames.

## From Reader Review Fiery Nights for online ebook

### Sheila says

This is the second book in the Underground Encounters series. This book is rightly named FIRE! It is a good book that holds your attention from the first page. I liked Maya a lot from the first book in the series. Maya has not been back to her favorite Club, Vamps, since the devastating fire that closed the Club. Now Vamps is fully renovated and has a new owner. Maya works long stressful hours as a firefighter. She likes to dance and listen to alternative music. This is her way of de-stressing. She is alone but goes to the club after hearing that they are going to have live bands.

Tristan Stone is the new owner of Vamps. He is a bit of a recluse. He sees shadows in and around others, this makes him uncomfortable around people. He is looking for a cure to his 'curse'. He sees Maya at his club and sees a light surrounding her, effectively chasing the shadows away. He is intrigued and must meet her. These are two compelling people that have great chemistry and are perfect for each other. They each have secrets that could bring them together or tear them apart.

I really liked this book and I could not put it down once I started it. I look forward to MORE in this series.

Maya Winters is a Firefighter with a secret. She has a pretty stressful job as a Firefighter and likes to unwind by going to her favorite club, Vamps. She hasn't been back since the fire a year ago, but a new owner took it over and now it has reopened. She likes what she sees. When she notices a super-hot guy watching her, she is curious, but not sure what to make of him when he suddenly disappears. Another encounter reveals him to be the new owner of Vamps. As Maya gets to know him more, secrets are revealed and a destiny neither one of them ever dreamed of comes to light. But to fulfill the destiny, they both have to find a way to breach the protective walls that they have built over the years ... and after hurting each other, it might not be possible to go back and start anew.

Tristan Stone is dark, broody, and gorgeous. He is immediately attracted to the light he sees in Maya. It is something he has never before experienced and he isn't entirely sure what it means. He allows himself to get closer and indulge a bit, but after realizing his darkness is not what she deserves - she deserves someone so much better - he tries to distance himself, which may have cost himself the best thing in his life. Her light and his darkness- could they actually help one another, or just end up destroying themselves trying to make something work that never should have been?

A couple of days ago, I reviewed the prequel novella to this series. I really didn't care for it much. I think everything just happened so fast, that I had a hard time believing any of it. While we read for fantasy and to indulge in said fantasies, I like to have a bit a believability within a story. Fire ended up featured at the end of the novella, Smolder, and I was quite intrigued with it. I received an ARC of this book and decided to give it a try. I have to say I am glad I did. While it was still fast-paced like the other, it moved at a much more believable rate. Both characters also had hurdles to overcome in an effort to find out the truth of their abilities and their purpose. Each character had more time on the pages and so were given a bit more depth that was lacking in the prequel. I ended up enjoying my time spent with this story. Interestingly enough, when the characters Nike and Michele (from Smolder) were introduced into this book, I wasn't annoyed with

them as I had been when reading Smolder. One issue that stuck, was my difficulty in visualizing the characters. I can put my finger on precisely what it was, but I kept seeing “young” and I didn’t picture Maya as someone who would have been ripped as a Firefighter.

I know I probably sound like a roller coaster – I liked this one, I don’t like that one - but I had made a suggestion with the review of Smolder that I think would still apply now that I have read Fire. Read Fire first. Go to Smolder after Fire. I believe that, had I read in that order, my irritation at the prequel novella would have been lessened. As far as Maya and Tristan, I enjoyed watching their secrets unfold and would be interested in reading more about Tristan’s family history – as well as what Maya’s heritage may have been given her being adopted as an infant. I sort of wish these things had been addressed in the book. Maya and Tristan were likeable characters if a little bull-headed in their own stubborn ways – leading to a couple of idiotic decisions that never should have been made but ultimately worked out. I think people who enjoy underground clubs might like several of the references made to bands and songs that were completely lost on me. I only recognized a couple of them, but that might be a nice bit of familiarity for those who can identify them. This book was longer than the first, but I still breezed through it. There is quite a bit of sexual content, so it isn’t for the reader sensitive toward description. However, I’d say it’s worth giving this series a shot. I’m now getting the vibe that somehow these characters will come together for some huge threat later in the series. They all ring in some different kind of skill set. The club and the main players within remind me of a paranormal version of the Island of Misfit Toys with great ability and potential. Viewed this way, and if I am correct in my completely unproven assumptions, the series has quite a lot of potential itself. I’ll be keeping an eye on it to see what develops as the books progress.

This is the 2nd book in this new series by Ms. Carlisle. After the attack and fire at the underground goth club Vamps, the owner Michel decides to sell the club and travel with Nike. Now a year later Nike's bestie Maya decides to pay a visit to her and Nike's old haunt Vamps.

Maya is welcomed with open arms by the bouncer of Vamps and her friend Byron. Only one thing captures her attention the moment she looks across the room though, the tall, dark and mysterious hunk staring straight at her. Looks like her night at Vamps just got interesting, but the minute she blinks, he is gone.

Tristan has always thought of his gift as a curse, all he sees are peoples dark auras the hurt and sadness, but when he sees the lovely girl at the door he is surprised by what he sees for the first time in his life....Could the lovely Maya be the light that balances his dark?

Good/ evil, light/dark there is always one that balances the other, you just have to see it.

### **Merissa (Archaeolibrarian) says**

Fire is the second book in the Underground Encounters series, and is the first full-length book. This is Maya's story, and we start with her returning to Vamps a year after the explosion. We find out that Nike never returned, and is in Europe somewhere with Michel, leaving Maya with a nugget of resentment towards

her friend, and the man who took her away. When she is in Vamps, she catches the eye of the new owner, who appears to have his own gifts that are different to Michel's. The spark quickly turns into flames when these two get together, but they both have secrets that they are hiding.

I think the thing I loved about this book is that Maya still kicks ass, even though she is hurting. Yes, she feels resentment towards her best friend, and yes, I would too. Things burn hot and fast between Tristan and Maya, helping to take her mind off Nike. However, things that burn that hot often burn out, as both Tristan and Maya find out, although in this case, it's because Tristan tries to do Maya's thinking for her, making decisions that affect her without getting her input.

For saying this is a paranormal book, there are many instances that are 'normal' - the lingering resentment (even when Nike turns up), taking the time to get to know someone, opposites attracting, friendship - I could go on. All of the things I have mentioned are completely natural and not covered up in any way.

I would say that you are best to read Nike's story first, as a big part of the storyline involves her and the circumstances around her departure. That is only a short read though, that will leave you wanting more. Fire fulfills that want, giving you more of Nike's story, as well as leaving plenty of Maya. Once again, no editing or grammatical errors that disrupted my reading flow, and with a smooth pace, with plenty of heat. This was a great addition, and I look forward to reading more in this series. Definitely recommended by me.

Maya missed her BFF and fellow fire fighter. She missed sharing the underground club experience. Still, it was time to get out and live again. The first time she returns she met Tristan, the new owner, and recluse. She drew him and he danced with her surprising himself. Could he trust his feeling, what he saw in her? Even with his secret could they have something? What he didn't know was that Maya had her own secret. One she didn't share with anyone.

They have great chemistry. He's been honest with her and why he doesn't come around people. She seems okay with it, however, he doesn't want her to live in the shadows as he does. Can she convince him either he deserves the light or that if he can't share it with her she'll share his place?

Another good underground romance.

I voluntarily reviewed this advanced reader copy and I have not been compensated in any way.

### **Linda Levine says**

Maya and Tristan find themselves captivated by each other. They both have abilities that make them different from others and that they tend to keep secret from all others. When they are together, they feel

balanced and have a control they have never experienced before.

I enjoyed the book. There is a good balance of romance and action. I liked that Maya is a strong female character. She works in a male dominated field and expects to be treated with respect,

She and Tristan make a great couple. They really connect immediately and you can tell they belong together. They have a dangerous situation to face but do it as a team.

You don't have to read the first book to enjoy this one. The author gives you the relevant information you need.

I am voluntarily reviewing a copy I received.

Fire by Lisa Carlisle was originally published as Fiery Nights in 2012. This review is on the revised second installment of the Underground Encounters Series.

Firefighter Maya Winters has not been back to the Underground Club, Vamps, since the fire a year ago. The same night her friend Nike disappeared. But it's Halloween, and Maya has missed the club.

Tristan Stone bought the club at a steal after a fire shut it down, and the previous owner disappeared. With his secrets, he doesn't spend much time in the club proper, but ventured upstairs on Halloween night.

When Maya and Tristan meet, they flame like a house on fire. But both have secrets and doubts. Can they survive to find their own happily ever after?

The story and action moves fast, as does the explosive chemistry between the leads. Another incredible story from Lisa Carlisle, an easy 4-stars.

"Gifts are different for everyone. Maybe she has an affinity with some type of good spirits. Or maybe her gift is a connection with you. The light to your darkness."

In book two of the Underground Encounter series, the heroine, Maya, is the best friend of Nike, the heroine from Smoldering Nights. After hard work as a firefighter, Maya, dressed in a sexy pirate wench costume, celebrates Halloween at Vamps, a hot goth club. There she meets the tall, dark, handsome new owner of the club, Tristan Stone. He is a paranormal being, other than a vampire, but just as sexy and mysterious. Tristan and Maya connect well in more ways than one as she discovers that with her own paranormal gift she may be

the same type of being.

"Lisa Carlisle has loved vampire stories since she was in third grade, when she had a crush on Dracula." Fiery Nights is the second book of her Underground Encounter series. The point of view in the Underground Encounters series is interesting and unique. The author uses first person point of view but switches it from hero to heroine by listing a header per scene or chapter as to which one she's using.

The writing has a smooth, seductive flow. I loved this slick, sizzling paranormal romance and its engaging characters. I highly recommend Fiery Nights.

#### **This one was a surprise...**

Tristan and Maya really are something out of this world. Witches in Salem, Mass? Well in this day and age anything is possible. Why not love and magic? I fell in love with this dark enigmatic man who has power beyond his one imagination but needs a fire to light the fuse. Maya packs a punch in this one. Keep them coming and will keep on reading.

Holy Hot Tamale! Make sure to wear gloves when reading this sizzling, sexy, vamp-a-licious page-turner! ... "FIRE" is the 2nd stand-alone book in the new fantastic series, 'Underground Encounters' by Ms. Carlisle! ... This PNR must read is full of magic & suspense with smoking hot romance :D Another fresh new storyline, with well defined characters & fantastic attention to detail that kept me glued to my seat not wanting to stop! ... I volunteered to read this without any outside influence & I honestly do recommend this to adult 18+ fans of fiction and can't wait for more :)

FIRE (Underground Encounters Book 2) by Lisa Carlisle is HOT!

I am very glad I continued on in this paranormal romance series, even though the first novella in the series had a few problems for me. This story begins a year after the fire at Vamps and follows Maya. It can easily be read as a standalone, even though it does bring characters from the first novella back.

Maya Winters is missing her best friend and decides Halloween is the perfect time to return to Vamps and blow off some steam dancing after a long shift working as a firefighter. As she is dancing away to her favorite tunes, she suddenly feels eyes on her. When she sees the tall, dark and brooding bad boy staring at her she feels an instant attraction.

Tristan Stone is the new, mysterious owner of the rebuilt Vamps. Tristan is from a long line of Salem

witches. He stays away from people due to what he considers his curse, because he has only ever been able to see darkness around people and it drains him. When he comes up from his underground lab beneath the club one day to check on things, he immediately spots a woman dancing because of the brilliant light surrounding her. This has never happened before and he has to find out why she is different.

Maya and Tristan combust when they are together. The two opposites are light to dark and outgoing to cautious. Tristan thinks Maya may be the answer to his curse, but he has never told anyone about it outside of his family. Maya is harboring a secret of her own that she has never shared. The sex is hot, but can a relationship with secrets last?

Maya and Tristan are main characters that are perfect together. Ms. Carlisle has given these characters depth that is as fun and entertaining as it is serious. The sex scenes bring the fire and heat. With the return of Nike and Michel, I cannot wait to see what happens next in this series!

### **Mnix says**

It's been months since firefighter Maya Winters has heard from the woman she considered her best friend. Something happened between Maya's friend Nike and the owner of their favorite club Vamps on the night it was bombed and caught fire. Even though she's alone Maya finally returns to Vamps hoping for an evening of fun. She'd heard that the club was promoting live bands and there's a new owner on board.

Coming from a so called 'gifted' family Tristan Stone is unfortunately burdened with a talent that keeps him apart from everyone, spending endless hours trying to find a way to cure himself. A quick check on the club one night and Tristan is mesmerized by a beautiful woman on the dance floor. There is something special about Maya, something that calls to the lonely man, something that may hold the key to unlocking his gift. Perhaps an end to the darkness surrounding Tristan. For Maya it is only the beginning...

There is no way to turn down the heat in Fiery Nights, the next offering in the Underground Encounters series. A secondary character in the first book Maya now takes center stage. She is given free rein to explore her own passionate nature with a solitary man looking for answers. Fiery Nights is a worthy addition that focuses on Maya and Tristan's relationship while at the same time examining their quirks. Enjoy.

Tristan has a secret he has never share with anyone, only his family knows it... When he sees Maya, at his new club called the vamp, he can't get her out of his mind. Maya is introduced to the new owner of Vamp, and now weeks later? all she can think about is him, in all kinds of ways. Can they keep this fast pace romance from fizzling out?

I loved this book! In my opinion this book was better than book 1... The characters of depth, there are not just one sided... Didn't have that ssdd (same-shit-different-day) feel.

#### **His dark to her light**

Maya has been a bit down ever since last year when a fire took out Vamps and her best friend, Nike took off with the owner, Michel.

Vamps is rebuilt with a new owner named Tristan Stone. But Tristan has his own issues. Everywhere he goes he sees the darkness all around people. Till one day while making a quick rounds in his club, he see Maya and a bright light surrounding her.

Got lots of action and adventure throughout and a love story that almost wasn't.

Well written self-contained story that's very entertaining to read.
