## Jacqueline Felida says

Incredible Dreams by S.E Felida is an awesome book, I absolutely fell in love with it, loved the characters and Felida writhing style, it was all around and amazing read.

This book is funny, heartwrenching and Hot as hell. Absolutely loved the chemistry between Leona and Nathaniel.

And the ending OMG , need book 2 like right now.

I won't go into the story because it would be easy to let spoiler slip.

Do your self a favor and read this book, plus there will be more to the story, can't wait for book 2

"I was torn, my body was aching for him, but i didn't want to rush" (Leona)

"Undress Me" (Nathaniel)

## Nicole Huffman ~ Author Groupies says

I was given an ARC in return for an honest review

WARNING THIS BOOK DOES CONTAIN A CLIFFHANGER.

It took me a few chapters to really get into the book, but once I did I could not stop reading. This book is so much more than just a love story. It's about friendship and how important those relationships are in life. I love that the story does not just focus on the main characters romance, but we also get to know the supporting characters very well also. There is action and suspense throughout the book. So many twists and turns in the story. I found myself thinking "wow that did just happen" many times. I was on the edge of my seat trying to figure out who was connected to who and who was responsible for what.

Leona has a great group of girlfriends and a great career, but has never been in love. She has a hard time trusting and letting men in because she had a poor example growing up of how a man behaves. Her father was an alcoholic that treated her mother with disrespect and always put her down. That is until the man of her dreams, literally, shows up.

Oh Nate, he's HOT, a man in uniform, and he has a dirty, dirty mouth in more ways than one.

He comes to Leona's rescue many times. He is her knight in shining armor and sweeps her off her feet. Both Nate and Leona fall fast and hard for each other. However, they are both keeping secrets from each other, that have the potential to ruin what they have. I cannot wait to see how these secrets will play out in the next book as they are revealed.

Leona has two really good friend Alex and Alyssa, who happen to get involved with Nate's friends Joshua and Anthony ( I'm really hoping that these couples get their own books or at least a HEA). I loved Leona's friendship with Alex and Alyssa. They were extremely close and knew how to have a good time with each other. Then there was Naomi, I wanted to slap some sense into her, and yet I also felt bad for her being involved with a creep like Marcus. I'm hoping she comes to her senses and realizes what kind of man Marcus really is.

There is so much that goes on in this story and so many questions that need to be answered . I think that is my only complaint, that so much was left open and unresolved. I have so many speculations and ideas going through my head. Oh and that ending ahhh I don't even know what to think . I need book 2 NOW!!! Apparently if you couldn't tell I will definitely be reading the next part of Leona and Nate's story. This was a quick read that keeps you involved throughout and I would definitely recommend it .

---

## **L.T. Getty says**

I don't normally read contemporary chick-lit or thrillers, but I found *Incredible Dreams* to be a likeable, easy read novel, with some dark twists.

Told in the first-person, the story centers on Leona, a young professional in her late-twenties who resides in San Francisco. She sees the man of her dreams while she's out with her friends, and though she's too shy to approach him directly, falls hard. Thinking she'll never see him again, when putting off the advances of an unwelcome suitor while partying with her friends later that night, he comes to her rescue. Leona learns he's a cop named Nathaniel (Nate). The two hit it off almost immediately, however, life isn't all sun and roses – Leona's best friend of her posse, Naomi, is in love with a jerk who can't keep his hands off of Leona when he thinks Naomi isn't watching. Leona comes from a rough childhood and has some significant daddy issues, and Nate has trouble from his past coming back to haunt him as well.

What I enjoyed about this book was the chemistry between the characters. Even though the focus of the novel centered Leona and Nate's relationship, there was still a good sense of her friendships with her different friends, and you could get a solid feel early on with the difference in Leona's relationships with different characters. I'd say there was more focus on Leona and Nathaniel's relationship than the thriller part of the story. The latter half of the novel was when the action picked up, where the girls try to get Naomi away from her boyfriend. I'll try to keep spoilers to a minimum, but let's just say that Leona's not a sit-on-her-hands damsel sort to let the menfolk take all the action.

In general, the dialogue sounded good, and the story progressed in a way that felt natural. I wasn't sure where the plot was going, but it was entertaining.

My main complaint in the writing is that the author liked to name drop – I wouldn't have noticed if it was only a few times, or it was something like saying Nickelback was on the radio, but it was very specific to what song was playing at the club, the types of shoes Leona was wearing, the booze they were drinking - I don't know why that struck me as odd, but it distracted me from the story.

What held back this book for me was the ending. I was wondering how the author was going to wrap everything up in the last few pages, and while the revelation is definitely a jaw-dropper, it's still a cliffhanger

that to me feels more like a “to be continued” . Perhaps if I were to read the next volume and I’d be able to read the story as a whole, this would change my rating but, I love a solid ending – this one left me with quite a few questions. To be very fair to the author though, it was an ending I didn’t see coming.

In general, I think the book is aimed at readers who like novels that focus on the heroine’s relationships, and want a little more thrill and danger than their typical romantic fare.

---

## **Philomena Callan Cheekypee says**

Amazeballs- yes that's how I felt after reading this.

This had all the ingredients I love in a book- romance, suspense and oh so hot sex.

The author did a great job of keeping me on my toes throughout this book with the twists and turns she threw at me. I just loved the relationship between Leona and Nathaniel.

This is a fantastic story that will keep you on your toes.

As for the ending-wow. I'm looking forward to jumping right into book two.

Received in return for an honest review.

---

## **Di says**

I was given an ARC of this book in exchange for an honest review.

The book had everything I like and more. There was romance, suspense and intrigue, hot sex, good strong lead characters and support characters, Hot Sex, a gorgeous male lead (police officer with a tongue piercing - HELLO!!) and did I mention the HOT SEX?? Throughout the storyline is also laced with some comical moments, which helps relieve some of the heavier parts.

Leona, Alyssa, Alexandra and Naomi are flat mates and best friends. Throughout the difficult times in her past, Naomi has always been there for Leona. I don't want to give anything away with regards to the storyline, as it would be too easy to inadvertently give away a spoiler. What I will say is that Leona and her friends have the kind of friendship that many of us could relate to. S.E. Felida brings the characters to life so expertly, you feel that what they are going through, what they are doing, what they are feeling, they are doing it all in front of you. Every emotion, action, conversation, they all come alive and wrap you up and suck you in, until you can do nothing else but turn the page to see what happens next.

The storyline can flow from funny, to romantic, to hot and steamy, to suspense and to some dark plot lines without any problems. The author maintains a good balance throughout the book without detracting from the seriousness of the plot. The characters are all believable, some are likeable, some are hateful and others are just plain H.O.T! Nathaniel, need I say more? He is like the proverbial onion, peel away one layer and there's another one just waiting to be discovered.

Now anyone who follows my reviews, knows how much I hate reading a book, only to find the ending is a cliffhanger (I am not ashamed to say I have no patience!). Guess what? Yup, this one had a 'Holy Crap, No F\*\*king Way Can This Be The Ending' type of cliffhanger! If I say I was waiting for my Kindle to say 'Ha

only kidding, here is the rest of the story', will you think less of me?? Well I don't care, because that is exactly what I found myself doing! I sat there, with 100% read and unable to turn another page, did that stop me trying though?? Nooooo! Thankfully, my Kindle remains in one piece (probably because I was waiting on someone to tell me they had forgotten to send me the full file and here was the ending!!) so now I am waiting, somewhat impatiently, for book two. However, at this point, I have to hold my hand up and say kudos to S.E. Felida for providing an outstanding ending that never in my wildest dreams had I seen coming. It is one thing having a cliffhanger, it is another thing entirely to have the ending come right out of the blue and blind side you completely. If you have to end on a cliffhanger, then that is how I want them done EVERY time. I was left breathless and speechless. I felt like my heart rate was kicked up into dangerous territory and I loved it!

Would I recommend this book? Absolutely, without any hesitation.

### **A Book Lover's Emporium Book Blog says**

#### **3.5 Stars**

I'm on the fence with this book. On the one hand I enjoyed the twists and turns that the author takes the characters on but on the other hand, the story just doesn't flow right to me. In some places I had to re-read parts a few times before they made sense in my head and some of the word choices didn't sit right with me either.

The concept of the book is great. Leona Martin has extremely vivid dreams about a handsome guy who she has never met before until the Valentine's Ball her best friend Naomi organises at her club. Fate decides to give her a helping hand when her dream guy rescues her from an incident at the club and so a love story ensues.

Nathanial Walker is a cop and is haunted by the fact that he cannot catch his younger brother Isaac's killer. He has been endlessly searching and investigating the matter but to no avail. When he meets Leona he is completely bowled over by her and this need he has to protect her.

Both Leona and Nathanial have secrets that could push them further apart or bring them closer than ever, but are they both willing to risk it for love?

The revelations which are exposed in the book are brilliant ones, some which I didn't see coming at all and you can see why the story is great but I just feel that it could have been written a lot better and with more care given to the descriptions of scenes. I got confused in some scenes as to who was doing what and who was who.

Despite all this it won't stop me reading the next instalment as although the book is wrapped up nicely, it is left on a slight cliffhanger and I still have some questions which I'm hoping will be answered in the sequel.

---

### **Paula Genereau says**

Leona has been dreaming about this hot stranger. When a coincidence happens and she sees him in person she just goes on about her business. But fate happens and they meet. He's trying to find his brother's killer. Can they have a chance

I received an ARC of the book for my honest review

## **Christa says**

I have had books confuse me, upset me, spin me around in circles, leave me wanting more, give me moments of fright, make me say "what the.....", make me happy, make me angry and so much more. I am pretty sure that Incredible Dreams hit every single one of those and maybe more. Leona has a dream of this super hot guy, then while out with friends she is convinced that she sees him. Of course she sees him when her friends aren't around. Then while out later that night Leona sees him again! This story is completely crazy, and I mean that in a good way. You get romance, and mystery. I think you get just about everything but the kitchen sink in this one. Kept me on the edge of my seat. Just when I thought I might have it figured out...Nope I was wrong and then the story took a completely different turn. So if you are looking for something that is completely different that will keep you guessing with just about every page turn, then you have found your story! I am giving Incredible Dreams 3 1/2 stars and since I always round up that means 4 stars. Now, before I upset anyone with my low rating of this one let me explain a little (hopefully without giving too much away) there are just way too many unanswered questions for me to rate this any higher at this time. I am sure when the next book comes out I will be able to rate this higher. But right now I have more questions than answers and since that drives me completely nuts....that is why I am rating it the way that I have. All and all Fabulous book and I am on pins and needles waiting for the next book to come out. Until then, I think I might go crazy coming up with possible scenarios and my own answers.

## **United Indie Book Blog says**

A copy of this book was given to me in exchange for a honest review.

This story was brilliant! I would definitely recommend this book. It had romance, suspense, drama, and hot sex scenes..what more could a girl ask for.

I loved the main characters Leona and Nathaniel. I thought they were such a cute couple.

Leona was funny, a caring friend and someone I could relate to straight away. I loved that she was looking out for everyone and trying hard to help fix things between her and her friend Naomi.

And Nathaniel... Well he is definitely my dream man. A sexy police officer with a tongue piercing and a little bit dominant in the bedroom- I literally couldn't ask for more in a book boyfriend. He was funny and loving and so cute when he was teasing Leona.

I also really liked Leona's friends Alyssa and Alex. They both have been through some awful times and I really hope we get more of their story and their HEA in the next book.

Without giving too much of the story away I'll just state that I obviously hate Marcus, and I hope he gets what he deserves. I really don't know about Leona's friend Naomi. She has been so awful at some points, but then she tries and redeems herself and I think I need more of the story before I come to a conclusion about her.

The plot itself definitely kept me captivated. The romantic side was sweet and sexy and then the suspense

part of the story kept me turning page after page even when I kept saying this was the last chapter for the night. I was dying to know what was going on, who was behind everything and what the story behind Marcus and Vivian was. And that ending!! I just couldn't believe it finished like that. I NEED the next book like right now.

The reasons I can't quite give this book 5 stars is because of very small issues really.

The first being the repetitive use of some words which kept getting my attention and very small editing issues where I felt there was a word missing. There was also a time or two when I had to re-read a small paragraph because the flow of the writing wasn't quite there, and I needed to re-read it to make sure I understood what had been said.

But this is a great story and yes this book does have a cliffhanger ending with some questions being answered and others not. So now I will be sitting here waiting not so patiently for the next book.

4-stars

### **Amazeballs Book Addicts says**

In this story Nathaniel (Nate) and Leona feel an instant connection with each other when they first meet. It's a little different from other books I have read with characters having instant connections. In this story Leona has dreamed about Nate before she even meets him. Nate is literally Leona's dream guy.

The book was interesting. It has a little bit of everything in it. There was romance, mystery, suspense, family issues, and a huge cliffhanger at the end. I never knew what was coming next. S.E. Felida kept surprising me with the twists and turns she wrote for the characters. The ending was an insane cliffhanger, that has me wanting more.

---

### **Marlene W says**

#### **My Short Synopsis -**

This story begins with Leona spotting the man that she has dreamed about while out with her friends. Leona is very guarded when it comes to men. She had a troubled childhood with an alcoholic father that treated her mother horribly. Nate, the dream man, is quickly attracted to Leona after running into her at a club and saving her from an aggressive attacker. While falling for Leona, Nate is focused on avenging his brother's death. One event after another comes into play and tests the growing relationship that these two have begun.

#### **My Thoughts -**

Incredible Dreams is this author's debut. It is obvious that the author put her heart and soul into this book. I found the plot to be multifaceted. Many different stories seemed to be happening at the same time. Just when you think you know the direction of the story, an event occurs and changes the plot's course. For that reason, I was left with more questions than answers as I reached the end of this installment.

Several characters were introduced and sometimes I wasn't sure what their place in the story was meant to be. The two main characters, Nate and Leona, were both likeable enough but I would have liked to see more development between the two of them before they suddenly fell madly in love in the midst of chaos.

Overall, I think this story holds great promise. I have high hopes for future installments in this series. This one certainly ends with a bang of a cliffhanger that has you saying ...What the heck just happened?!?

\*I was given a complimentary copy of this book in exchange for an honest review through We Stole Your Book Boyfriend Blog :)

---

## **Julie says**

I received this book in exchange for an honest review.

Leona, while shopping with her girlfriends, meets the man of her dreams...literally. Leona mysteriously meets, Nathaniel, who has haunted several of her dreams. As their relationship develops and they get to know one another's friends, strange and dangerous encounters plague Leona, but thankfully Nathaniel is on hand to rescue her.

Leona's parents' reunion is not a happy event for her and when she visits her mother in the hospital, her father is present as well as one of his friends from the past. The dark and dangerous mystery man sets off bad memories in Leona.

Incredible Dreams is the first book in a series, and it has a lot going on! There are about four story lines to follow, and I'm looking forward to reading the next part of the series to see how these story lines are woven together.

The book is a good teaser with a big cliff hanger that hooks the reader. The author's descriptive writing style helps with the character development as does the detailed character interactions. The stories of Leona's past, Naomi's mysterious behavior, Nathaniel's police work as well as their family and friendships are kept balanced. It's an interesting story of how relationships, both past and present, impact your life.

A good book for a vacation--a light, easy read with some dark twists.

## **Gloria Lupo says**

A Suspenseful Romance that Captivates the Reader

S.E. Felida's romance, INCREDIBLE DREAMS, intrigues and engages the reader immediately. Felida is an excellent story teller and writer, adept at characterization, setting the scene, starting the action and keeping it moving forward. Her style is energetic and zesty but smooth, flowing from scene to scene quickly and easily.

She introduces her protagonist, Leona Martin, and Leona's friends, Alexandra, Alyssa, and Naomi - all successful young professionals in San Francisco - and takes us through their loves and relationships with such skill that they come alive in the reader's mind, as do her mother, father, and other characters. I felt like I was right there with Leona and her friends on the dance floor amid the sights, sounds, and fragrances of the night club, and in their continuing joys, struggles, and friendship. It was as vivid as a movie. Felida has a big

talent for drawing the reader straight into the action.

She builds realistic and believable scenes from Leona's childhood to establish the history that led to her wariness of men. But now Leona meets a stranger, Nathaniel, whom she believes to be the man of her dreams, and soon she is rescued by him from a violent attack by another man. The romance takes her through a kaleidoscope of emotions, which Felida describes expertly.

Of course, the romance does not proceed without problems. There are misunderstandings, interference from a jealous woman, and other obstacles along the way. Also, Nathaniel's police work introduces a subplot with complications and suspense.

I might add that Felida has a great talent for dialog. Words spoken here are full of zingers, the kind of very real remarks people make in the heat of the moment. Some of these comments brought me some good laughs.

Caution for those who like G-Rated stories: This is not a Disney romance. There are several very explicit sex scenes. Not my cup of tea, but they are well written, and I believe they will appeal to many readers of romance, police novels, and suspense books. There also is a little profanity such as use of the "F" word, but it is appropriate for the story and characters.

The ending of *INCREDIBLE DREAMS* is a big shocker and will make readers want to read the second book in the series immediately. Patience. I think it is in the works and scheduled to be out by the end of the year.

Felida's writing doesn't just sit there on paper or a computer screen; it comes alive. It made me feel like I know Leona and her friends and am right there with them. It made me care about them, and that is what fiction is about.

If you like romance, lots of interesting personal interaction, scenes that jump off the page, and some suspense, this novel is for you. In my opinion, Felida is the kind of writer who could develop a large fan base and be hugely successful.

---

## **Kathy Wideman says**

This book was okay and I do want to read the second one. With that being said I did feel that at times it jumped a bit. It was also mentioned several times about some of the girls' pasts and things that happened in them. I felt sometimes I was missing something. That maybe there were other books first that I hadn't read but there aren't. Leona has a dream that seems so real to her. She dreams of a man that she has never meet but feels so close to him in the dream like she has meet him before. Then she does meet him, in fact he saves her from being attacked. Nathaniel is a police officer. He has been looking for the person(s) who killed his brother for more than a year now. Things start off a little rocky between Nate and Leona at first. Leona has had a horrible past and finds it hard to trust especially men. Nate is different though. She feels safe with him. There are things Nate doesn't tell Leona and he does it to protect her and there are some things that Leona doesn't tell him for other reasons. A lot happens in this book. There are lots of secrets and mystery. Nate has

two friends and they are dating two of Leona's friends. The girls have a fourth friend, Naomi and she plays a big part in the book. Naomi's exboyfriend, Marcus is a sneaky, sneaky man. He is up to no good and is just one of the suspenseful things in the book. This book has romance, alpha males, mystery, suspense, and more. While it has all this I do wish it was written a little better in some places of the book. I do look forward to reading the next book.

I was given this book in exchange for an honest review.
