Destined To Rule

Banished from her home, Fionna O'Donnel is powerless to intervene when mercenary English knight Raymond DeClare is awarded GleannTaise Castle. An outcast among her clan and her gift of enchantment feared, Fionna cannot stand idly by as her people come to harm at the hands of a man whose life she once saved—a man who holds her kin's destiny beneath his sword while offering dangerous temptation with his searing kisses.

Bewitched By Desire

The cost of DeClare's reward for valiant combat is twofold—he must safeguard GleannTaise, and take an Irish bride. Yet he can do neither with Fionna's bewitching presence haunting him at every turn—and he will not accept her faith in magick to restore the castle to its former glory. But as passion burns like a flame between them, the cloak of Fionna's secrets and shame is torn away, and DeClare must choose between the dictates of pride and the love of a woman who has enchanted his heart.

Julie says

Good book!

I wish that they would have had the first characters in it. His mom and dad. And made amends with them.

Deb says

This was a great book. Although the first book in the series fell a little to the long side, although very good, this book fixed that problem. The faster pace of this book was great. The romance was wonderful, at times bringing tears to my eyes as the hero and heroine (who you met in the first book) helped each other heal and fell in love. It was at times funny, exciting, sweet. Great book.
