From Reader Review The Natural: How to Effortlessly Attract the Women You Want for online ebook

Anna Pulley says

Liked this far more than I thought.

Ahmed Alkadi says

In order to become really good at anything, you only need to master the basics.

This book is a very good start on how to approach and attract hot babes.

It is a bit lacking on the mindsets though, and what you need to do to better understand yourself before attempting to become a modern day Casanova!

Evelyn says

I am a woman and read the advice in here. All I have to say is be yourself.

Indrajeet singh says

Good book but it need some indepth studies

Justin Gayle says

This is a book I can return to with a pen and pad. Insightful story with a few hot cheeky moments. But mostly practical value for self improvement practice through coaching. The Natural is for the guy who wants to be better at seduction and socializing. Wonderful narration, nicely written, this book made me feel like an evolved gentlemen.

Greg says

Probably the best basic book ever written for men about how to approach, attract, date, and keep women. No gimmicks. No flashy "pickup artist stuff". Just good solid advice.

Janeal says

It was better than I expected. I read it out of curiosity, expecting misogyny, but it mostly gives advice on how to truly connect with women, or at least give the appearance of connection. While I didn't agree with some of it (there were too many blanket statements on what "all" women want, and a lot of the pickup lines would certainly only illicit eye rolls from me personally), I can see its value to some people.

Bernadeth says

I am female and I did not like this book. I read this to get some perspective on men's dating books and to tease my loving, yet sometimes sardonic boyfriend (who already knew this book was going to be garbage). I really hope no guy takes this person seriously. I guess if you only want to play the field and not have a long term relationship, then this book is ok. Personally if a guy pulled these pick up lines on me I wouldn't buy it and think he was a creep, regardless of how goodlooking he was.

Neil Connolly says

Interesting peak into a different lifestyle.

Joe Mccail says

Great read! Interesting concepts! All very applicable stutff.

Devin says

There are a lot of interesting, sensible tactics throughout this that I did find enlightening. This book is most relevant to attracting women in clubs and nightly social situations, with a little chunk at the end focusing on daytime interactions. I think the most valuable part for me was just learning about social cues and triggers. There were some sleazy moments (as expected), but a lot of the advice was respectful, relatable and practical. I found it to be enjoyable, passively listening to the audiobook while warming up in the gym and cleaning up.

Rasmus Visgaard says

First time I stopped in the middle of a book. I read this right after reading The Manual, which is far superior to this one.

I do not recommend it, it does not go deep enough psychologically nor biologically. What I mean is, it does not care about what the women feel, it's all me, me, me.

Paul says

Good book with sound advice!

Shea says

I pity any guy who believes this uhm... book.

Neil Strauss any day over Richard La Duckface.

He's nice, I'll give him that but no way he'll get you a decent life partner. He suggested too much talking and being cocky & condescending. Won't fly well with girls with backbones.

Just watch his videos and ask some girlfriends what do they think about him. Their answer is your forecast success meter.

Aletheia says

From a female perspective, it's fascinating to get an insight into the minds of men and their approach to women. A really rich and simple read. Worth buying.
