Undying Love Betty Bolte

When architect Meredith Reed inherits her family's plantation after the devastating loss of her own family, she must choose how to move on with her life. Keep the plantation? Not a good idea. Sell it? Better. Turn it into a memorial park? Better yet. But can she go against her family traditions and the hunky but irate lawyer?

Max Chandler needs two things to complete his life plan: become a senior partner and find his soul mate. He's due a promotion once his legislation to protect the county's historic properties is approved. The wife part he finds more challenging, having never met the right woman. If only the talented, attractive, aloof Meredith didn't want to destroy the very property he cherishes.

While Meredith struggles to reconcile her past and future, will she learn a lesson from the spectral Lady in Blue in time to save both her family and home from destruction?

Mary says

This is a dramatic story with a lot of angst. Max is arrogant, pushy and selfish. Meredith is heartbroken, lost and weak. Paulette is a first class b*tch. Meg buts in where she doesn't belong. Meredith discovers a mystery in her family that she wants to solve, then tear down her grandmother's house because it holds too many memories. Max thinks he can tell Meredith what she can and can't do with her house. Paulette thinks she has a say too, even though her grandmother left her completely out of the will. Poor Meredith just wants to be left alone. This is not a romantic love story, Max and Meredith never seem to be in love. And the twist at the end is tragic.

I received a complimentary copy of this book from Goodreads. This is my voluntary and honest opinion of it.

I received this book in exchange for an honest review, my thoughts are my own.

4.5 Stars

When I saw that this book took place in Tennessee, I had to read it. It could've been about something completely silly and I would've went for it anyway. Thankfully, it wasn't a silly book. It's a love story at its core and a really good one. I loved Meredith and all the rest of the characters. They are well fleshed out and well rounded. This is a short read and in this case that works, it moved through the story perfectly, not being dragged out and made to be boring in parts for a bigger page count.

I love the paranormal element also. I've never seen a book like this use that kind of thing and I found it original. I love the setting, duh. It plays a wonderful role in this tale and that's something I have a soft spot for. The writing flows easily. Overall, it's a wonderful read. If you are looking for a sweet love story and want to punch through it quickly, this is for you!

Architect Meredith Reed inherits her family's plantation but she does not know what to do. Each choice has its pros and cons so she faces her dilemma whether to keep it or sell it. She must deal with family traditions

and the handsome but irritating lawyer.

Max Chandler is the lawyer in question who needs the litigation of protecting the historic property in the county in order to become a partner and to find his soul mate. Until he meets Meredith no one has interested him but unfortunately she is determined to ruin his property that he values.

As the two struggles to fight for what they believe in, they will ultimately clash. But is there more than that between them? Will they find a way to save the plantation and the growing feelings between them?

This was a very interesting book and one of a series. Does deal with a ghost a bit and that's all I can say about that. I do not usually read anything about ghosts. I finished the book and enjoyed the story.

I enjoyed Undying Love. It was a quick read and I had no problem having it read in one sitting. I cannot wait to read the second installment from the Secrets of Roseville series. Great read!

4 stars.

I received this book from the author. This review is 100% my own honest opinion.

This is the perfect book club read or book for enjoying in front of a cozy fire.

An inheritance that adds friction to an already contentious sibling relationship.

A handsome lawyer whose physical attraction interferes with a woman's decision to grieve and mourn her life's dreams. A community steeped in history and expectations. Not to mention a ghost or two, with their own relationship issues, and a calico cat with attitude.

No one can bring these elements together quite like Betty Bolte. Characters complete and well rounded who you want as best friends. You roll with their emotions. You are drawn into the story and experience the drama and romance alongside them.

Get comfortable. When you visit Roseville you won't want to go home again.

This is the type of series where you want the next book as soon as possible.

I received Undying Love as part of a Goodreads giveaway.

Meredith Reed, an architect, unexpectedly inherits her ancestral home, a sprawling historic plantation in rural Tennessee, when her grandmother passes away. Still reeling from a tremendous loss, she clashes with estate lawyer Max and her family in her efforts to raze the building and its bittersweet memories. But a series of curious happenings lead Meredith to research her own family history and discover long buried secrets that require a reckoning--and possibly a change of heart.

I was really intrigued by the "mystery" aspect of the story, much more than the romance, and I would have loved to see that thread developed more. It was haunting and horrific and a nice nod to the Southern gothic genre. I think this book could have been made a lot stronger as a general fiction novel focusing on the parallel relationships between the two sets of sisters, one during the Civil War and one in the modern day. There's a ton of possibility there. I also really enjoyed Meredith's character and would have liked to have experienced more of her backstory, particularly her grieving process.

The romance, as it was, fell flat for me. I didn't feel like there was enough development of Max and Meredith's relationship. I felt for Meredith (and agreed with her assessment that people were really pretty awful to her given what she'd gone through) and was really turned off by Max, who seemed intent on overpowering her--both physically and legally--at every opportunity. I would also have liked some development of the relationship between the Reed family members, particularly Meredith and Paulette. The latter was set up as a villain in the first part of the book, only for us to find out it was a simple misunderstanding which they quickly overcame despite a couple decades of estrangement. Additionally, the book seemed to imply there was some sort of horrific family drama that took place in/around the home (Meredith's paralyzing fear of the attic, for instance), but that didn't seem to be the case once her parents made an appearance. The personal relationship development could have been stronger in general I think.

That said, I enjoyed the change of pace (I don't normally read Southern-focused romance), and I very much thank Betty Boyle for signing my copy!
