*Five brothers struggle to keep a sexy secret in a world that expects them to be playboys...*

### **Book 1: Cut the Apron Strings**

Jason King is the youngest of five brothers. Twenty-five is too old to be the baby. Skye Kincaid is a hungry journalist looking for the next big story. When the patriarch of the King family dies in a sudden and suspicious hunting accident, Skye is sure she's found her story. But it will take more than digging to pull the skeletons out of the King family closet. The closer Skye gets to the truth, the more she realizes what is at stake. This isn't just a story. It might be the love of her life.

### **Book 2: Mother Tongue**

Edward King has always considered himself willing to help the family business along. After all, family first. But when family first means going out with women that are mother approved, Edward digs in his heels. He's already got his sights set on Diana. Their romance may have fizzled out, but Edward knows just how to heat it up. Then Diana comes to Edward with a job opportunity that seems almost too good to be true. Edward and Diana will have to fight for a chance to love who they want. After all, there's no room for Edward's travel plans in the matriarch's playbook and the mother of all mothers is not above playing dirty to get what she wants.

### **Book 3: Eyes in the Back of Her Head**

Zane King loves everything there is to being a shifter. Unfortunately for Zane, his mother doesn't approve. When Zane rebels, his mother cuts him off. Thankfully for Zane, he has an old school friend who is willing to take him in. Landry is the hardest working woman Zane has ever met. Zane quickly realizes that he's going to have to step up and grow up if he's going to be worthy of a woman like Landry. Lucky for him Landry is a girl who knows that Zane King is one of a kind.

### **Book 4: Mum's the Word**

Devon King has a secret. He's in love with a woman who is just all wrong for him in more ways than he can count. Devon is almost sure he's all wrong for her too. Kami is different. She's the janitor who cleans the building where the King family has their business. With all of the upheaval and drama, Devon and Kami's relationship has remained in the shadows. But the time for that has passed. Devon has to step up and show Kami just how he feels or he runs the risk of losing her for good.

### **Book 5: The Mother of All**

Orion King has turned himself inside out to be the son his mother has always wanted. Unfortunately for all of the Kings, their mother isn't exactly the maternal type. Eleni Ariosa has a similar problem and a similar mother. In fact, Eleni and Orion have mothers who are best frenemies with all the drama that comes with it. Soon enough Orion and Eleni realize that there's more going on with their badly behaving mothers than either of them realized. As the tangled web of greed and lies begins to unravel, Eleni and Orion start spending a lot of time investigating past events and even more time investigating the strange attraction brewing between them. Sometimes common ground is the only thing you can cling to.

## **From Reader Review Billion Dollar Wolves: A Boxset for online ebook**

### **Carmen says**

#### **Intense**

This was a very intense set of stories about wolf shifting brothers. There was so much action and intrigue. The writer weaves a story that is engrossing and page turning. The characters are well developed and flawed. They come to life and make you love them or despise them. I loved it.

---

### **Brenda Woodfork says**

#### **Surprise! Surprise! Surprise!**

I don't normally write reviews but this was one deserving to be written. Not to say others aren't but this book was such a surprise. Ms. Bridgnorth's twist on a paranormal suspense romance was a refreshing change from what I have come to expect in shifter's stories. The way she has each book weaved into the next made it seemed as if it were all just one story. The romance between the couples as they found each other and stay true to themselves while they solve the mystery surrounding their father's death provided a well written plot that was entertaining and attention holding. And to think I almost thought it would be boring because it didn't start out like I expected it too. If you have a chance to read it, don't stop. It is worth the time.

---

### **Tanya says**

#### **Love this book it was sad and loving and funny at same time**

Because it really a good book to read and the all found love and real family not the gold digger mother's love this book

---

### **Karen J Baker says**

#### **Family!!**

In the long run, all that matters is family. Money, social position, and things do not bring happiness or contentment. Greed will always lead to a person's downfall. Thankfully the King brothers were able to find love and strength with the right women for each of them. Only Gemini's life story is yet to be told.

---

### **Patrice Einsel says**

Talk about crazy, I'm certainly happy that the brothers were finally able to get out from underneath their troubles and find their HEA finally. But Dee really kept you guessing and right on the edge of your seat until the very last page. I didn't want to put it down until I read every last book. Hot, steamy, and bizarre twists and turns.

---

### **Kathy says**

#### **What an Awesome Story!!**

These books I read as a boxed set. The story expanded over a period of time and believe you me these 5 men had an awful mother. If it hadn't been for their father I'm not sure how they would have ended up. So much greed from their mom when their father died by an accidental hunting accident. Damn don't want to give too much away... the story plays out and you get bits and pieces along the way but the twists and turns get you... several times I laughed out loud at the common everyday feelings some men lack...you will love it...I did!!

---

### **starla mcmanigal says**

#### **Review**

Wow and I don't mean that in a good way, this book actually made me nervous to read there was not one likeable person in the whole thing, no one character I would want to have a cup of coffee with, so sad. It was a book ( series ) dedicated to the anti-alpha and to the woman who put up with it.

---

### **CHANDRA FIELDS says**

#### **Chandra's Review**

I truly enjoyed reading this series of books ?! It was full of mystery, intrigue, romance, and love ?! I would definitely recommend this series of books to read! ?????

---

### **Sally Rice Seifert says**

#### **Once you start you won't stop**

I wasn't sure how this book was going to go but I absolutely LOVED it! If you're a fan of shifter stories this is a great book for you. It might seem like a long book but I guarantee once you start you won't stop. Great love story, mystery all in one. Enjoy!!

---

### **Karen Proctor says**

### **The Pack**

For the love of money 5 brothers turn into 6 . Divided loyalties intertwine to create a force not to be reckoned with. Love conquers all as brothers find their mates and mother's greed and need comes to a blazing end.

---

### **Coco.V says**

?FREE on Amazon today (10/24/18)!?

---

### **Pino says**

#### **Ridiculous Mess**

I tried to get through this but it's just an absurd amateurish mess. Ridiculous characters. To break it down for you this: 1% "romance" (jammed in like an after thought), 1% anything to do with shifters, 98% ramblings of either a) Someone who didn't take their medication b) someone who took too much medication or c) written by 20 different kindergarteners. Do something better with your time than try to read this, like watch a plant grow.

---

### **Abby G. Amos says**

#### **Awesome Read!**

I really enjoyed reading these 5 books in 1! The mother of the 5 shifter done and the step mother of one son was a real piece I work! It took a while, but the brothers stood firm on who they would marry and who they loved! The ending threw me for a loop, but everyone got what they deserved! This is a paranormal read that needs to be shared! I definitely will recommend it to others!

---

### **Joanne Scarbrough says**

#### **Complicated shifters**

I gave this box set the review that I did because I could not put the books down until the very end. One story led to another very smoothly. One complaint, where's Gemini's story?

---

### **Janice says**

#### **Awesome!**

I could not put this down! This series had everything...murder, intrigue, mystery and hotter than fire wolf shifters! I alternated between actually hating certain characters to laughing my butt off about the antics of others. A wonderfully written series!
