VERY STEAMY. You've been warned!

Oh, I must add - it's HILARIOUS too ;)

Four men with love and seduction on their minds. Four women who've vowed to stay single and free.

Crazy in love

I loved Blain George the moment he looked at me and tried to get me into his pants. He's smart, funny and the sexiest man I have ever met. So yeah, I love him and I have given him my all. Every single part of me, even my crazy family who are more likely to kill him than not. I did give him my all until he took that love and crushed it beneath his thousand dollar boot heel. He wants me back? He'll have to prove to me he'll do anything to get me, even if he has to be crazy for this love.

Madly in love

Grayson George is a spoilt little rich boy with delusions of grandeur and a backend that makes my knees weak with longing. I resisted. I fought. Heck, I even told my mama I'd move back home just to stop myself from wanting more than I should. But I should have known better than to taunt a man like Gray. Waking up married, with no recollection of how I got that way isn't what frightens me. It's the fact that when he touches me and makes me his, I am madly in love too.

Wildly in love

I have cheated, lied and done everything in my power for Tyson Fox to see me and know that we belong together. I want him so much and yet when his ex comes back into the picture and has him rethinking a relationship, I know, sometimes even cheating won't get me the win. Sometimes, you have to leave the field and be the prize instead.

Recklessly in love

I finally stopped running and gave all of myself to Russell Mark. He's my ideal. My heart. The only man I even look at anymore. And he's left me all alone because as he's proven over and over again, I'm poor second to his priorities. I love him. But I won't long for a man who can't see me for all I am.

Mimi Guzman says

Awesomely funny...

This was one of the funniest set of books I have ever read. I was literally lol. I would and have recommended this to anyone who likes romance and wants a good laugh.

Deanna says

Amazingly funny and sexy!

This book should come with a warning..."do NOT drink while reading. You will end up with that drink coming out of your nose!!" I had personal experience with that! Also I loved it when my family thought I was having a seizure because I just couldn't stop laughing while reading this book! I have also read and loved "Naughty Ones". Please please Kristina write more books like these!! Sometimes you really need a good laugh! But seriously I am so addicted to this brand of humor and was so sad when it was over!

Carol says

Hilariously Funny and Sexy!

This romantic love story is hilariously funny, sexy and have over the top antics. Four women have personalities that are unusual to put it might mildly. They are strong, independent, passionate and take revenge to a new level. They meet four men that are sexy, billionaires, and each man starts to pursue their woman and the games begin. Their stories will keep you crying with laughter, at times even feeling sorry for the men and rooting for the men to win them over. Each couple finds their HEA after many antics and turmoil ?

Jeanie says

I want to be best friends with these bitches, er, I mean ladies. They are all bad asses, and each has her own personality. I cried, I laughed and I got mad right along with them. Such a fun read.

Lisa books says

Jackie Snyder says

Laugh out loud funny!

This book is outrageously funny, stars four familys and the ties that bind them. Pranks so real, im sure most of them were played in the 50's. It laugh so hard it'll make you cry. Highly recommended reading!

Margaret says

Laugh Fest

This was supposed to be a Romance but I never laughed so hard in my life! Kristina Weaver has a knack for comedy. I just added another author to my favorites list! Really looking forward to more of her books!

Kim Hammork says

Best box set to date!!

I love all of Kristina Weavers books, but this is my favorite. I haven't laughed this hard from a book, let alone a box set ever. Then the next second i was in tears. I hope she does another box set like this. I thought the Naughty Ones was hilarious, this one beats it 10 times over. This was a welcome change from the romance books I've been reading. Job well done.

Amy says

This has four stories in all, one for each couple. Definitely worth reading a second time just for the laughs alone! Full of hysterical one liners and jokes. I have never had so much fun reading a book, EVER! HEA, no cliff hangers.

Cynthia Houser says

Grooms

I enjoyed this book, but sometimes it was too trashy. It was very funny, at times I was laughing out loud. It is not typically something I would read, because of the course language. I friend recommended it. The characters were interesting and entertaining.

Dawn Tyler says**So friggin hilarious**

I really enjoyed the story lines, but holy hell, I laughed so hard I peed myself. I think this is my favorite by Kristina.

Sally Coleman says**This book is the best read**

I love this book and the characters . I have laughed so much throughout these book. I recommend everyone pick up a copy and enjoy the ride . You won't be disappointed .

Dina says**Fun**

If you are looking for a serious rom-com (is that an oxymoron?), or atleast a somewhat true to life variation, it's not this collection. These interconnected stories are hilarious, but completely over the top. If your looking for screw-ball comedy, with romance mixed in, this one's for you. I enjoyed every minute of it.

Connie Greenwood says

This book is hysterical. The characters are crazy funny.
I loved it funny and romantic. I laughed so hard I woke my husband up. It was hard to put down.

sheila says**Oh my**

I thought this would be another erotic romance. It's not.
It's rude. Crude. Sexy. And fall down funny. I laughed hard. But it does have a few sad moments. But the moms. Have mercy. I do like good Irish families. And some not so good.
