Capture Death Michael Anderle

Baba Yaga has taken over and no one knows if Bethany Anne will ever come back. Beaten on the crucible, Bethany Anne decided she will bring justice to the Kurtherian's that tortured the Leath and her people, personally.

The problem? She releases Baba Yaga who has now taken control.

Even ADAM and TOM aren't sure they can help their friend.

While Baba Yaga is tracking down the Seven Kurtherians, her friends and family are desperately trying to find her. During this time, General Lance Reynolds must start negotiations with other star nations who wish to create an Etheric Federation.

The problem?

How can you complete an Etheric Federation Treaty, if you can't find the Empress?

Amber Jane says

When I bought this book I was shaking because I couldn't wait to read it. The plot keeps thickening and the story gets better and better. All in all, this is a wonderful book if you are looking for a story to lose yourself in. You have to read each book to continue the story where it left off. The characters will follow you wherever you go even after you have turned that last page. You become so attached to them that you want the story to go on and on...

Natalie Roberts says

Beautiful and brilliant.

Literally killed dead because my heart broke for BA the whole way through reading it. Those message scenes! And now I want to know what happens next with everyone! Something happened that I wanted for ages and the fighting was just -so many tentacles! I really don't want to wait for the next book. It's a good job there's a load more TKG on my reading list because otherwise I'd be really crying.

Jonathan Wilson says

4.25 Stars

Eric Loflin says

A very different book and with a very different feel. I guess after 20 books in this series there was to be some kind of shake up. I was on the border line through the first 3/4 of the book wondering if the series had finally jumped the shark. The last quarter however really pulled it all back together and showed why Michael Anderle is such an amazing author. One book left in the series. It's bittersweet wondering how this is all going to come to an end.

Suz says

This one felt like filler. I didn't care for the BA has a psychotic break storyline. Most frustrating of all, however, is the rapidly diminishing continuity in the this, the main series. If you haven't read the spin offs by now then at least half the characters you have no clue where they came from nor do you understand the vast majority of the references about their back stories.

I don't think it's a good idea to have your main series become dependent on the storylines in the spin offs. It ends up feeling like a cluster fuck. Even the mostly filler stories.

Consequently, there is only one book in this main series to go and I'm more than ready to finish it. Being confused because I can't get my hands on the spin-offs in the format I started with is frustrating.

Veronica says

Death. Destruction. Revelation.

Another action-packed, awe-inspiring, fast-paced, fascinating story delivered! I have a minor point of confusion, so if you don't want a minor spoiler, then don't read any further.

SPOILER PART:

The timeframe is a bit confusing as this continues from #19, which indicated they seemed to have been there around 40-50yrs, but it now seems they've been there around 150yrs. I'm. It sure if it's because they were previously using Earth years and are now using Yollin years, or if the timeframe changed to fit with the Earth stories from when Bethany Anne and crew left. Either way I found it somewhat disconcerting. I think the runaway success caused this small problem, as Michael has developed this complex series over a couple of years.

Having said that, I love the series and there's no way I can stay away! Thank you, Michael, for such a fascinating series.

Iori says

Well that was different, there was internal conflicts and loss of priorities in that book. What else? It was gripping and sad. That's not the usual that we have in the series, I ask myself how everything is going to mesh together. How Michael and BA are going to reunite, and are those 3 Kutherians on earth now? To bring about the age of madness? We miss some books to make the puzzle fit. Can't wait for the last one!

Frank Bertino says

The Lost Finds The Way

The Empress released Baba Yaga to kill the remaining evil Kurtherians. The problem is that with all the stress of running the Empire, losing friends and seeing innocents hurt, Bethany Anne has become lost within the Baba Yaga avatar. This book answers the questions of how she came to this and whether she will be able to come back to herself and her friends. What a series! I really like the snarky humor and the smooth release of action. The characters are well written and very compelling. I feel that I am in the Shinigami with her. I look forward to the next book.

Velma Hayes says

I've been waiting for this book. I looked forward to BA kicking Kurtherian ass. I looked forward to BA realizing she was on the razor edge of the dark side. I was looking forward to BA doing what BA does best. I got everything, except BA and Michael reuniting (next book). What I didn't look forward to was crying. (you big bully). So much emotion at the end ... everyone taking a part of the blame, making it a big old hug fest and don't worry bro I've got you, fest. (to be honest, I cry a McDonald's Christmas commercials. the ones where the big guy goes and gets the little kid so they can skate? yeah, my cry gene is over hyper.) And, YOU, my favorite author, have abused my cry gene ... beautifully. Thank you, Michael Anderle. I look forward to BA and Michael getting together. I have a brand new box of Puffs with Lotion. Bring it on, I can take it.

Bill Jensen says

See Baba Yaga HR manual

Yes Baba Yaga's HR manual has one rule. "Don't upset Baba Yaga" this tell you its time to lock and load we are in for a ride. Then there is the friends she has left behind and their letters to her to come home all made me choke up you and feel the emotion in their words. Plus we get to fill in lots and lots of missing pieces from the Age of Expansion timeline. Must read again just to check on things I missed the first read.

Laura Duval says

Wow, what more can I say

Of course it's a solid rating. I love BA. It was good to see that even BA can get lost in all that's going on. It shows she's not perfect but can be redeemed. There's lots of action and adventure. The EI and AI's are always amusing to read about and TOM.

I cannot believe we are almost at the end. I'm excited and sad at the same time.

I have read this series over and over so many times I lost count but it is that good!

Charles F Tillman says

It's all coming together

In this next to the last installment of this Arc the Queen Bitch is off the leash in her Baba Yaga persona to bring some good old fashioned justice to a group of Kurthuriens known as the seven. They have been a thorn in her butt for years and have caused the deaths of many of her people and it is time for Saint Payback to make a call.

As she falls deeper into being Baba Yaga Adam and Tom work to keep her alive and try to bring Bethany Anne back to the surface, the Empresses Witch is not cooperating as she continues to relentlessly pursue the Seven across the galaxy.

Heather Henkel says

Good book

I enjoyed reading this story and I loved the shell game maneuver. I can't wait for the next book to read!

Tony Hisgett says

I have just read this book *Capture Death* and the previous one *Ahead Full* together and at times I feel like I could just give up on the whole series.

Both books have the same faults, although this one is by far the worse. They are just so disjointed, the author has spent too much time trying to write clever 'banter' that he seems to have forgotten he is supposed to be telling a coherent story.

Also in *Ahead Full* there were several storylines that weren't resolved and I naively thought that they might be picked up in this book, but they have just disappeared into the ether.

The problem is, I love most of the characters and every now and then the story actually makes sense and becomes interesting again.

I wish the author had just concentrated on writing the 'Kurtherian Gambit' series instead of trying to become 'God' to the whole Kurtherian Universe.

Scott says

Massive battles

Wow no 20 and BA or in this case her dominant alter ego Baba Yaga has went full throttle to her promise to kill the remaining Kutherians leaving behind all those who love her. Will she survive intact physically and mentally is a case in point. No matter what ,she does the book proud and makes for an interesting end as we near the Arc completion. One of my favourite in the series
