Gabe had been assigned to investigate a case of timber poaching near Missoula in Montana Territory that could have been handled by a less experienced agent of the railroad, but the case had changed dramatically after the apparent murder of the station manager. What made it difficult for Gabe was that the station manager may have been shot by his wife, a woman he'd proposed to years earlier.

Gabe Owens

Five star ?????? winner. Story featured rape, marital, sexual and physical abuse. Diversity was provided by having the heroine come from a Jewish family. Satisfying read. I have every CJ Petit western i could find.

Always enjoy Petit's books

Good reading. Realistic character. Believable story line. Looking forward to some more of his books. Suggest you read them too. Petit's stories are always excellent.

Have Owens

This was a Cowboy/Lumberjack story that took place in the late 1800's. Gabe, a Northern Pacific agent, provides the excitement while two beautiful women provided the romance. Gabe was the smart, kind conflicted hero of the story.

Ian Denner says

Excellent book

I enjoyed this stout for some reason found reading it just a little more difficult than some of the preobooks. Maybe because the main character wasn't a straight up law man or a cowboy, but the story was just a bit different. Still enjoyable though.

Plot

I have read several of Mr. Petit's stories but enjoyed the plot of this one the most. The intrigue of Gabe determining who "done it" as well as the chase and the characters was well done.

Worst part of this book was finishing it. Darn!

When I see a C. J. Petit book I have not read I can feel my eyes light up and a smile forming. He has never disappointed!

Errors were plenty

There were so many errors in this book. It distracted me quite a bit, but the story was so good that I had to keep reading. The errors consisted of wrong names, he and she mixed up and sentences that didn't make sense.

3 Stars

Charles Castell says

Another outstanding story by an exceptionally talented author, and I can say unequivocally, since I have read all the previously listed novels, this one is definitely a masterpiece. I was impressed immediately with the author's apparent knowledge and research abilities as the story began strong and finished with compassion. Great job!

Definitely worthy of the five stars and more, if they were available. This story began wide open immediately and the storylines created by the author created compassion and

family-friendly activities throughout the entire book. I am expecting a follow up of Gabe and his compadres in the not too distant future. At the least I certainly hope so.

The character selections were effectively initiated by the author and every episode enhanced the excitement of the reader continuously throughout the entire story. Definitely a heartwarming adventure that was definitely impressive representation of our old American .

This is a must read to all readers, regardless of their special reading interests. This story has so much "factual", and informative content that will definitely motivate your undivided attention. It definitely will tug at your heartstrings. Too it is very captivating and compassionate throughout the entire book. To not read the book will definitely be your loss.

Too much sex for me

This author seems to be hung up on sex and sexual inferences. He would lead us to believe that the majority of men have nothing but sex on their minds and many men are sadistic.

Beyond that he wrote a good story but spent far too much time on minor small details that contribute nothing to the story..seemingly to just make it longer. I will probably. Watch for some other authors in the future.

Another good book by C. J. Petit. His westerns are always full of excitement. His gunfights written with details you don't normally read. Looking forward to his next book.

Mary Knopp says

Good story but....

This story about a special agent for the railroad in 1800's. He spends a lot of his time hunting down the bad guys and rescuing ladies in distress. I suspected this was written by a guy and I was right. The main character is rather stuff and one dimensional. The author writes in big detail about the guns he uses, and the injuries they inflict. He makes a point to describe the muscles,bones etc that are destroyed. I did like the rescuing of females though.
