Great Bear Inn

Ursula Maya

Great Bear Inn Ursula Maya

How can Hannah manage so much ménage?

Big, beautiful Hannah is innocent and alone in the mountains. Alone except for the uncommonly big men at Great Bear Inn. The men share a secret, and they are hungry to share Hannah.

Hannah hasn't had the kind of appreciation the big men of the mountains have to give her.

They are the last of their line and Hannah is their only hope. But will she, *can* she take the heat of their rough and rising needs?

WARNING: *This story bursts with red-hot sex. Not advised to be read in public.*

Yvonne says

Pretty...

Neat stories that keep the brain and imagination active. I like the variety and escape from the every day humdrum. The shifters are always portrayed so "hot"!

Crazy for Books (Stephanie) says

I love shifter romances, but this was terrible. Thank goodness it was free.

denise moody says

Great Bear Inn

This story lacked reality and substance! The woman in the story is so desperate that she has sex with first man who asks her. Then is in a menage without even bit of romance or even questions. She mates with the three bear shifters just like that. Not even that erotic just sex and then nothing! I'm glad this was free. I would have been very unhappy if I wasted money on this book

Kimberly says

I was very disappointed. Practically no plot, just enough to make it sound plausible, but most of the book was these men telling her they want to have sex with her and get her pregnant and she readily agrees. The rest is sex scene and little attention is given to any actual plot.

Eunice Fuller says

Loved the story but wanted more romance but it was good

Sanet says

its a bear shifter story... well not that there is much to it.

the writing oh boy... it goes a little bit like this and then this happened and then this and then this.... and so on.

It's porn on a page. Sigh... it would have made a nice story if more thought was put into it that SEX SEX AND SEX that partly did not make sense.

Becki says

This book was written by someone who really didn't care much about correct grammar, which drove me so nuts that I couldn't even finish it. All of the books of this type have some very close relationships, but this was so badly written that it was crude and I just couldn't finish it without an antacid.

Elisa says

This was even more slam-bam-thankyou-ma'am than usual. I thought the premise really sounded interesting so I was disappointed that the end of the book was so rushed. It just ends rather abruptly in what feels like the middle of the book. Also the sex scenes left me feeling a bit squicky. Yes, I know that isn't a real word, but it is accurately descriptive here. I just didn't like it. *sigh*

Kat says

This is the 1st in a series of 2 (so far I hope!). I actually read it 2nd, but it didn't matter, as these are HEA stand-alone. As was stated in the synopsis of this book, it is definitely an adult read.

If you are looking for a hot, short, well-written, hot, shifter, ménage, BBW, alpha (did I say HOT?) light BDSM read this is definitely it!

If that is not what you like, skip it. But, if this is your thing, it is a definite 5+ stars!

At A Glance

Thank goodness it was free.

The Good

It's hard not to like some of a book about three bearshifters nailing a voluptuous woman. It's hot, what can I say.

The Bad

Almost no plot, though there was an attempt at one. And the writing was pretty bad.

The men were described as super hairy, all over, not very sexy.

Spoiler (if you can call it that): The heroine agrees to be the mate to all three bears and to have their babies in about an hour after meeting them. Come on!

The Snuggly

The sex was rough and hot, except for all the hair! So much hair on all of them!

Final Thoughts

I only read this because it was free and I wanted a dose of erotica. Unfortunately, it didn't itch my scratch. I need a little something more than sex. Not recommended.

Quotes

Her voice shook, "What if somebody comes?"

His voice was a soft growl, "Nobody will. Only you." He raised his head and looked into her rolling eyes. "A few times, at least. Then me."

Suzie Parker says

Hannah runs to the mountains to get away from the city for awhile. What she finds there will change her world. While out taking photographs she find herself face to face with a huge bear. When one of the Inn keepers come to her rescue, she finds it strange that he talks to the bear like he would another man. Will Hannah find out what the secret is? Will she believe what she is being told? Or will she pack up and run back to the safety of the city?

Lynde Shaw says

Thought there was potential. There wasn't.

Mybookshame says

This one made us laugh if nothing else, who doesn't enjoy sassy BBW's and shifters

<http://bit.ly/1BoZTgy>

Patricia Wilcoxon says

Great detail amazing format simply one of the ones you just can't put down

Sheila Kennedy says

Ok, Gotta love a hot bunch of men

Three hot men bear shifter hunks! This book is not for the kiddos. This is the first time I have read anything by this author. I may have to find more yummy stuff she has written. Great book
