### **Kristi Hudecek-Ashwill says**

This is a historical romance that is squeaky clean. There is no improper touching, no innuendos, or anything that goes against the Bible. However, is not a Christian romance. There are a few incidents of cussing but you will not see the four-letter word, any four-letter words.

Patrick is of Irish and Native American descent. He lives in the mountains because the people in the town where he grew up were racist and never gave him a chance. He's educated and speaks with an Irish brogue. It was kind of weird listening to him in my head and knowing he looked Native American but I liked it.

Samantha is from "back East" and has been thrown from the wagon train that was headed west. Her mother had died of sickness and her father had died from being dragged by his horse. She was alone and the other people on the wagon train didn't want her enticing their men. They said she could marry one of the wagon masters but she refused. They gave her some food and a canteen and sent her on her way.

Patrick, now a hunter and a trapper, finds her in the snow and takes her to his cabin. It's cold outside and she's not in the best shape. Soon, he finds a boy, who resembles her, in his hay loft and figures this boy is hers and she has been neglecting him. His opinion of her goes into the dirt.

The story tells of their quest to be together and I wasn't sure it was going to end up that way. Patrick has issues.

The reason I'm giving this four stars is because the book lacked depth. I wasn't drawn into the story like I thought I should have been. Normally, I love books between Native American men and white women but I think if more details had been added to some of the scenes, the book would have been better.

But the writing was good, with just a few punctuation errors and the plot was steady. The character development was okay.

Overall, it wasn't a bad book and it was worth the few hours it took to read it.

#### **Tear jerker**

I really get involved in my stories. I think I cried more with this one than I have ever done. That is a good sign as to how good the book is. The love story of Patrick and Samantha is intense. Plus they rescue a young boy too. It was like a real family only the adults don't sleep together. So it is a clean story too.

Samantha is tossed off the wagon train because her dad died. Lost in the snow without food she is found by a man who is half white and half Indian. He takes her to his cabin and gets her warm again. The problem is they are on a mountaintop and winter has arrived. There is no way to get her back to a town. Patrick is used to being alone. Now he has Samantha and they find a little boy in the barn. Then his tribe shows up with an Indian woman. His house is now full of people and problems. A most enjoyable story.

A woman kicked off a wagon train in winter with insufficient food and water; a half breed mountain man, made a town outcast because of his heritage; a young boy, an escapee from the abusive life at an orphanage, running from the brutal man that snatched him up after his short taste of freedom. This exciting historical western romance features the characters Samantha Foley, Patrick McCrery, and Brian. Three disheartened souls, brought together through circumstance and bonded by love. Thanks to the awesome writing talent of Kathleen Ball, I finished her novel Love So Deep, with a smile on my face and tears in my eyes. Be sure to read and enjoy this remarkable story for yourself!

#### **A Mountain man a young lady in distress, Indians and crooked white men.**

A very good read. The hero is a super guy. The young innocent little lady Samantha is so sweet caring willing to work for any help she gets from Patrick. Falling in love just hurts when you think it's not returned. Or when you fight it from happening.

#### **Such a Good Book**

As far as romance novels go, there are few that actually make me cry. But this one was different. I found the story touching. Sometimes it was painful in its sorrow and I cried along with the heroine. But I loved it still and read most of it in one sitting. The author is someone I just recently discovered, but I know I'll continue to read her books as long as she writes. I think you'll like her book too.

#### **Good book**

This was a very nice romance book. Not a Christian book, there is hardly any mention of God, which I would have liked. So a decent romance good, a Christian romance not good.

### **Lois Buck says**

#### **Love So Deep**

This was a sweet, clean story. The main thing I had trouble with was that the author substituted the word "ya" for the word "you" throughout the entire book. I don't ever remember reading that the Native Americans used the word "ya." It was just a bit irritating after a while, but the story was sweet.

#### **Lies and mountain winter**

Samantha had lost all hope of finding shelter, she was going to die. The wagon train had just left her, the women thinking that she was going to take their men. Now here she was in the mountains going to freeze to death until a mountain man shows up and steals her away to his cabin. Patrick is a half-breed and has been viewed as an outsider for a long time. But he has been alone on his mountain for so long that he might be willing to overlook his parentage if she is.

#### **Good but sometimes confusing**

Good story but sometimes it was confusing who was talking or thinking at the moment. Sometimes you had to reread parts to figure out who was the intended speaker.

#### **Love So Deep By Kathleen Ball**

Five stars, western romance Patrick being a half breed and Sam, unfortunate white woman with and orphaned boy...I wish they could have stayed in the mountains rather than go into town..But that is where the drama took place.. Patrick was on then off towards the end until he made up his mind, which made it a good ending.

#### **A mountain man struggles for a woman and boy he finds in the winter cold.**

Great storyline and fantastic characters. A man who everyone shuns because he's half native find a woman almost dead from cold takes her to his cabin then finds a boy in his barn cold and hungry. He takes care of them and then one gets sick he has to go to town. Read this book to find out what happens, it's a great story. 5 star all the way, a real page turner.

### **Rebecca says**

Okay, but ending felt weak. He changed his mind on kids too easily. And why didn't they move elsewhere? He doesn't seem so obviously Indian.

Needs polish. Wrong word errors, confusion about gun types, inconsistency in horse name spelling. And where did woman at the dr's who was nice disappear to? Suddenly she no longer existed...

Unfortunately Amazon "ate" my notes and highlights on this one, so I can't share them.
