a neat little kids book. gonna buy a copy for my nieces for xmas.

Martin Tiller says

Wonderful illustrations

Great story. As expected from Mr. Howey an original problem for a cloud. And unlike a lot of his work for adults this book has a happy ending! Although I felt it was a little abrupt. The illustrations are wonderful and make the book. Recommended.

Joel says

A cute little kids story with a good message. Very short - obviously, it's a children's book. The illustrations were nice though, and the overall package of the book was quite visually appealing.

Price was a little steep for a 20 page book, but it was a signed hardcover from an author I collect, so I can overlook it a bit.

Bobby says

Excellent kids book with an excellent story. So many kids books are absolutely terrible. With a new little one myself I have been on the lookout for good kids books and this one does not disappoint.

This was sweet.

I enjoyed it.

Definitely would read it to kinder and up.

I like how it brings out it's okay to be yourself, you don't have to do what everyone else does.

Be you because that's something special in its self.

Patrick says

It was cute for a kid's book. I just got it in the "Best Potluck Book Signing" package in the mail today. I intend to keep this one around for my next kiddo.

Michelle says

Adorable picture book for the under 6 set.

Colby says

My kids both loved this book! We read it tonight, and they kept calling out the shapes that the clouds made. At the end of the book they demanded that we read it again tomorrow night. Home run from Howey, and the illustrations were wonderful as well.

Kate Tilton says

So cute! This is a lovely story about how being different can be a good thing.
