## **Never Back Down** William Casey Moreton

John Coburn, a Harvard-trained doctor still reeling from his father's sudden death a few days earlier, wanders into a bar in New York City's Greenwich Village a few minutes before midnight. He encounters an old friend from college, a man named Brian Ripley, whom he hasn't seen in nearly 20 years. Ripley is with a beautiful young woman and is clearly in a hurry to leave. Coburn could have never been prepared for Ripley's reaction to seeing him, and he is even less prepared for what happens next.

The following morning, the young woman with Ripley is found dead in Washington Square Park, the victim of a brutal murder. Coburn goes to the police and tells them of his encounter with Ripley the previous night. What the police tell him shakes him to his core - Brian Ripley has been dead for 15 years.

The story moves at breakneck speed as John Coburn searches for the truth behind the woman's murder and whether or not he really saw his friend, or merely a ghost, that night.

# **From Reader Review Never Back Down for online ebook**

## **Tanya Miller says**

### **Horrendous**

The writing style and storytelling are immature

Factually, it's a train wreck - Haiti is not in Asia and our noses are cartilage, not bone (something a doctor character should know)

The older man and indescribably gorgeous younger woman falling helplessly into bed ... painful

We are meant to care about the young woman who is killed because she too is indescribably gorgeous - had she not been, well the story wouldn't have taken place

Pretty sure the author didn't spring for an editor. Sentences are repeated countless times

I wouldn't bother reading this author even if the books are free

## **Debbie says**

### **Dead Man Walking**

A really good read. Action, suspense and drama. John Coburn, a divorced, roaming doctor, sees an old friend from his college days. When he sees him, he is not alone. He's with a girl, who later ends up murdered. He later goes to the police but they don't believe him about his friend because records say the man died years ago. A very intense story.

---

## **Jarundel says**

LOTS OF ACTION. KEPT MY ATTENTION MOST OF THE TIME. SOME OF THE CHAPTERS WERE SOMEWHAT BORING. TOO MANY CHARACTERS JUMPING BACK AND FORTH MAINLY IRRITATED ME. ENJOYED THE MAIN CHARACTER JOHN AND SABRINA. DID NOT END QUITE THE WAY THAT I HAD ANTICIPATED.

---

## **Kelley says**

This book was fast-paced and enjoyable. Some parts were a little predictable, some unbelievable. The editing could have been better, but the errors were mostly amusing, like the bus "shuttering" to a stop, or keeping the plane in a "hanger." I would recommend this one though.

---

## **Janet Niendorf says**

### **Action Filled**

Loved it. It was hard to put down. It kept me guessing what was to happen next and that's a hard job for any novel. Would recommend to any and all, it has lot's of action and romance. Thank you for sharing your talent.

---

### **Linda Spurza says**

Moreton does a great job. I have decided to read all his books.

---

### **Lynda Kelly says**

The description of this book sounded very interesting indeed. However, I started to read it and it seemed to be all over the place and wasn't as described. It all seemed a bit too deep and complicated for my liking and so I packed it in.

---

### **Andrew says**

Very disjointed. Incredible situations and timeline. Paid \$1 and not worth that. The solution was so incredible, a surgeon out "spying" CIA operatives and Marine Black OPs was so far beyond farcical. The last third of the book was a joke. However, the first two thirds presented good, sympathetic, engaging characters. Look for it on deep discount so you wont be disappointed.

---

### **Laureen says**

Surprisingly, I enjoyed this book. It was as most of the other reviewers described | a quick read. I thought it had an interesting plot. A couple of the characters made no sense or had a relevance to the story, but overall not bad. The end was a let down, though. I expected more and it just poor the end.

---

### **Amber Adamchuk says**

This book was another mystery of who done it? Were the good guy gets blamed for the murder and has to clear his own name with the cops. While fining out someone who he thought was a friend is really not that great of a friend. the ending ends as predicted. I read this on my kindle and I know it's not a big deal but there were quite a lot of grammer errors that did start to irritate me. Overall it was a nice book.

---

### **Ellen says**

This was another Kindle freebie and it was pretty good. A women is murdered shortly after a visitor to NYC sees her with a man he swears is his long-lost college roommate. When the protagonist calls out to the man

pulling the woman through a bar, the other man takes off, dragging the woman out. The police don't believe the witness once they learn the federal databases say the "college roommate" has been dead for years. They learn the hard way that databases can be wrong.

---

### **Renee says**

Really enjoyed the thriller part. The characters were real and very involved but there were a lot of them. I love when a book really makes you concentrate and get lost & I did. The Doctor Coburn character was excellent and the way he got thrown into the turmoil was great

---

### **Kerri says**

I started this multiple times. This book has potential, but I think it was published before reaching it. There are all these espionage-y type things going on, but the narration is too straightforward, too basic. Sentences are choppy, unengaging. There's no suspense, I can guess what's going to happen a few pages before it does. I can't get through it.

---

### **LooKat23 says**

I tracked this book down right after having read 'The stranger beside me' by the same author, which I loved. The same cant be said for this book...

I don't feel I can give a full review here as it would be unfair as I abandoned the book about a third of the way in.

Usually an avid reader, I can get through a book in a couple of days, however after reading snippets of this book over a period of about 2 weeks while feeling it was a bit of a chore to do so, I decided to give up and move on. I think this speaks for itself!

---

### **Margaret says**

I can't! I gave up, terrible writing, couldn't get into it
