On Deck Kate Sherwood

When Dan and Evan were struggling with their issues, Dan came up with the suggestion that they go on a date. This is that date. This story is set just before the epilogue of Out of the Darkness. This is just - it's just schmoop, really. Sappy and silly and fun. If you miss the boys and want to check in on them, this is your story, but if you haven't read the series, this probably isn't a great place to start.

Eva says

Another little novella from the **Dark Horse** series.

Evan and Dan goes on a date for them to get along better without Jeff... Evan takes Dan sailing ... with a **surprise...**

It was kind of cute and sweet.

Arch Bala says

So the “date” finally happened and Dan’s being his usual self-centered, drama queen self. Ugh. He’s really such a piece of work yeah? I sometimes wish that his personality was replaced by Evan’s since he’s more mature than him despite all the crazy antics. Like seriously, Dan needs to grow up! Ugh.

♥ Rebecca ♥ says

This one was pretty sweet. I liked seeing how much Dan enjoyed sailing. But wish there was sex in this one.
?

It's just me Shelly B says

" I didn't know you were going to go shopping for the occasion." He smiles wickedly. "I'm flattered, really." He steps a little closer and sniffs the air. "Damn, is that cologne?" He reaches a hand out to

Dan's face, laughing when Dan jerks back. "Dude, I don't even need to touch to see that you're fresh-shaved." His smirk is very self-satisfied. "You got all dressed up for me, Dan!"

Dan and Evan finally have their date and they don't fight....well barely;))))) Evan takes Dan to do something completely different, they go sailing one of Evan's favorite hobbies. There is a also a surprise for Dan in this novella...I'm going to tell you what it is though, you need to read the series to find out:))))

This is a novella in the Dark Horse series...this one was short 32 pages....it was good though!!

Finally we get some alone time with Dan and Evan. This story takes place right before the epilogue of *Out of the Darkness*. Evan and Dan found something they both can share together (other than sex) and I hope it continues to bring them closer. This was a start, but I would have liked more intimacy between them. I hope they can reach that level at some point.

Kaje Harper says

I really liked getting this little glimpse of Dan and Evan together doing something other than having sex. If I had any concerns about the three-way relationship of the Dark Horse books it's whether Dan and Evan really have a relationship when Jeff is not there to be the glue in the middle. With this installment, you can see something more developing between these guys, even as they still are feeling out each other's quirks and needs.

Dan and Evan combo rocks my boat.

A Girl Has No Name says

4 stars!

On Deck is a **short story** in the *Dark Horse universe* and offered an insight in **Dan and Evan's date**. When reading about their idea in *Out of the darkness*, I was really looking forward to seeing Dan and Evan going

on a date to work on their relationship and I was so curious about it. No wonder I felt a little disappointed when I found out that it wasn't a part of the book.

But finally this sort story **satisfied my curiosity**. Evan and Dan have a lot of work to do, but I'm positive that they will be able to overcome their problems. The dynamics between Jeff, Dan and Evan are so worth it!

This one gets 4 stars. Evan takes Dan sailing

Christy says

I'm delighted that Kate Sherwood decided to write 'On Deck', since it's the date night that Dan and Evan had to postpone in book two. Dan asked Evan out, as a way for just the two of them to spend some time together. I needed to see this, to see if the two of them could make it through an evening without arguing, or anyone getting hurt feelings. I mean, let's face it people, without Jeff around, Dan and Evan don't always do very well together, despite their best intentions.

The author said it best when she stated that this novella is schmoop. Sappy, silly, and fun. But I really needed to see that between these two guys. There hasn't been much of that in Dan's life, at all, and certainly in the first two books in the series, there's been little to none of it between Dan and Evan. So I needed it, and they really needed it. It was great to watch them tease and joke with each other, and share some private thoughts at the same time. I loved it that Dan was able to enjoy a hobby of Evan's which he learned from his mom. Evan took Dan sailing, which the other people in Evan's life, either get seasick or aren't interested, so it's something for these two to share.

The day concluded with an amazing dinner—it made me hungry reading about it—and a really great surprise. All in all, a sweet, loving date.

Martin says

Dan and Evan's first real date. Their test run to see if they could manage each other without Jeff playing mediator.

Very sweet, very original and ending with a cute surprise.

Loved it!
