## Palindrome E.Z. Rinsky

Private Eye Frank Lamb's business is simple: He finds things. Be it the world's hottest pepper seed in a South American dictator's safe or a pair of Italian art forgers sipping Prosecco in a Miami hotel room, he delivers the goods and collects his check, never with a smile. Work is work, and he doesn't let it get in the way of the life he's made for himself and his ten-year-old daughter, Sadie.

But when a staggeringly beautiful woman offers him a small fortune to find a cassette tape, curiosity gets the better of him. It contains, she explains, a recording her sister's kidnapper made of her last three minutes on Earth. She conveniently fails to mention the unsettling effects the tape is rumored to have on listeners.

Frank takes the case, and enlists the help of reclusive tracker Courtney Lavagnino to pick up a trail that's been cold for five years. As their search leads them through a horrifying labyrinth of murder and madness, it becomes clear they're chasing much more than a memento.

## Palindrome Details

## From Reader Review Palindrome for online ebook

### **Sarah says**

I've wanted to read this book for a while, but my library didn't own a copy, and I'm trying not to buy any books until I read more of the books I already own... But, I found an ebook through the digital library, so it's all good now...

This was a mystery/suspense/thriller/(kinda)horror book. I thoroughly enjoyed it, and I just saw that the next book in the series would be published in the spring, which I will definitely read.

That's my endorsement, so now; let's get down to the nitty- gritty.

Nitty- Gritty:

A single father/ P.I.: Frank Lamb. He's the normal PI archetype- tough with a soft side. The soft side is his daughter Sadie, whom he adores. They make ends meet, but raising a kid in The Big Apple is expensive, so when a mysterious woman shows up at Frank's door and offers to pay him \$350,000 to find a cassette tape of a murder, he's enthusiastic, but wary. The woman's not quite right. And her beauty is a bit much. And why does she wear gloves? But, money's money, so Frank agrees to take the job. He knows he'll need help so he hires an old partner, Courtney, to be the so-called "brains" of the operation. Courtney is tall, incredibly skinny, a Vegan, and a Yogi. Oh yeah, and Courtney's a man. (Breaking the tough- guy stereotype, I like it!)

These two make a great team, and Courtney softens Frank's hard edges a bit. I like the pair a lot, which is good because I wasn't a huge fan of Frank at first.

Things get weird fast, and the tape becomes its own preternatural force driving a lot of people to do a lot of bad things.

At times the story becomes gruesome, but Frank and Courtney's chemistry lighten the mood, so it's never too heavy to handle.

I'll stop there, because it's best to not know anything going in to this novel.

Here's the biggest problems for me: the plot, suspense, characters... the whole gamut was a great set- up, but the end was a bit of a let down. I feel like everything we'd been building toward got explained and solved way too quickly. My one great hope is since the next book is coming out soon, these books will be more like one long story rather than individual stories within a series.

## **Douglas R Ball says**

### **Best of books, worst of books**

I rarely have a book that consumes me like this one did. And i mean consumes as literally as a book can. It took several days of productivity out of my life, yet was worth the time. I will look at this author's other work carefully and probably will succumb to try to read him again. I congratulate him on the skill, or magic perhaps that he possesses to write at this level. I would recommend this book to anyone who gets engaged in their reading beyond the norm and is looking for depth of thought.

---

## **J.L. Delozier says**

Elmore Leonard-ish main characters with plenty of language, violence, and some sex - not for the faint of heart. Intriguing plot.

---

## **Robin says**

Palindrome isn't the genre of book I usually go for, but I'd heard such good things about it that I figured I'd give it a shot and I'm glad I did. Rinsky's got a real gift for imagery and putting you in the scene without being too flowery or obvious about it. His characters and scenes come to life in a way that may want you to reconsider reading this before going to bed at night.

The story was so engaging that I ended up staying up many hours past my bedtime in order to finish it; now I'm pumped to give The Binding a go.

---

## **RONALD EVANS says**

I didn't find it as convincing as others apparently did, and clearly didn't finish the story.

---

## **alicia pedreira says**

### **Gumshoe retro**

It kept me interested, good twists, but very male centric. Not thought provoking. I would recommend it as a fun read.

---

### **Chloe Moffett says**

Smart, creepy, and the twists and turns blew my mind. I cannot recommend this book highly enough!

---

### **Katie says**

This is an entertaining thriller with likable characters. The plot is bold and original. This was a pretty quick read for me. The whole idea of a tape recording what someone said after they were murdered really intrigued me. Not to mention that anyone who had listened to this tape were now strange things afterward. Instantly got me hooked.

---

### **Deb says**

This is the first of two books by the brother of one of Brendan's best friends in high school. Fun!

---

### **Joseph Van Remmen says**

#### **This author has it**

Read his 2 books in 2 weeks and I was trying to read slow to savor them.  
Really good stuff!

---

### **Michael Lawrie says**

Great read. Kept me engaged despite first person present tense which is usually a non-starter for me. There was the perfect mix of fiction noir, humor and creepiness. I found myself in turns laughing out loud and staring at the dark corners of the room with hair on end.

I would recommend this for a fun read. It's a good book. I certainly will be looking at the author's other works.

---

### **Pam says**

Not my usual creepy far but I LIKED IT!!

---

**Kelsea says**

Beginning to end, I simply loved it.

---

**Randy says**

**Crazy good!**

I've had this book for sometime now, and finally got around to reading it. Man, what a creepy book! ( And I mean in a good way). This was actually one of the most truly scary books I've ever read. Talk about tense! I barreled through this thing while I kept looking over my shoulder the whole time. Who the hell is this E.Z. Rinsky? and how does he top this one? I don't know , but I plan on reading anything I can find by this author.I love it when I get blindsided by some new author like this! I loved it! It's easy to recommend this one! And I do!
