### **Maggie says**

I learned that it's really important to be nice. Where I learned this from was when Princess Emily wished on the wishing star that Diamonde would be as happy as Emily, even though Diamonde was really mean. What a good example.

### **Beetasha Caussy says**

It is a book for children of age 8 and above. It is a story which will be mostly enjoyed and read by girls since it talks lives of princesses, tiara and dresses. The book conveys quite a lot of moral values for children to grasp. The story evolves around a generous princess who cares about the welfare of her friends and would do anything for them to be happy. It also shows the importance of friendship.
