## Silencer Andy McNab

1993: Under deep cover, Nick Stone and a specialist surveillance team have spent weeks in the jungles and city streets of Colombia. Their mission: to locate the boss of the world's most murderous drugs cartel - and terminate him with extreme prejudice.

Now they can strike. But to get close enough to fire the fatal shot, Nick must reveal his face. It's a risk he's willing to take - since only the man who is about to die will see him. Or so he thinks...

2012: Nick is in Moscow; semi-retired; semi-married to Anna; very much the devoted father of their newborn son. But when the boy falls dangerously ill and the doctor who saves him comes under threat, Nick finds himself back in the firing line. To stop his cover being terminally blown, he must follow a trail that begins in Triad-controlled Hong Kong and propels him back into the even more brutal world he thought he'd left behind.

The forces ranged against him have guns, helicopters, private armies and a terrified population in their vice-like grip. Nick Stone has two decades of operational skills that may no longer be deniable - and a fierce desire to protect a woman and a child who now mean more to him than life itself.

## From Reader Review Silencer for online ebook

### Charles says

It's beginning to get old for me because it's getting old for McNab. He needs some way to shake this series up. I recommend Bruen

---

### Jamie Bowen says

This book has been sat in my to read pile for quite some time, I can see why after reading it. To be fair, it's not all that bad, just feels a little bit clunky and whilst the drama and suspense builds up, how these situations are resolved seems too easy. The book travels the world from Russia to Hong Kong to America and Mexico, mixing drugs cartels and organ harvestation. I've read quite a bit of Andy McNab over the years, this is probably not his best.

---

### Russell says

Great read- Stone's character is just too cool for school! So chilled and kicked back with a great attitude to life. McNab writes with style and humour, with lines that are just laugh out loud funny. I much prefer McNab's style to the often compared Chris Ryan, but both are skilled at telling excellent tales backed by real life knowledge that shines through. Highly recommended!

---

### Bev Taylor says

nick stone must confront his past to survive

in 1993 nick is in the jungle in costa rica to take out a drug overlord. he is successful

on to the present day and he is in russia with his life in partner awaiting the birth of their child

as an ex sas troubleshooter he knows the oast will never go away and when a threat comes from an old adversary he has to denounce his personal life and get back into action #

this moves to modovia, hong kong and mexico ..... but will his personal life survive ?

the dialogue more than matches up to the action

bev

### **Katherine says**

Oh how I love Mr McNab ... another wonderful Nick Stone effort - far from running out of ideas so far in to the series (and now that Stone's character is a little long in the tooth!), I actually enjoy every one even more than the last!!

---

### **Chris says**

An excellent suspense thriller.

---

### **Greg Reynolds says**

A Nick Stone novel with all the right ingredients well told. It would be a good introduction to the series as there is not much background knowledge required. Plus plenty of bad guys get given the good news.

---

### **yassie says**

My mum's friend gave this to me to borrow to read before he does. When he gave it to me I felt too bad to say no as it's not really my cup of tea but I decide to read it anyway...and I actually enjoyed it. It was fast-paced and gripping but easy to read. I probably won't pick up any other McNab books unless I'm lent them again or maybe if they take my fancy in a second-hand shop but nonetheless it was good.

---

### **David Roberts says**

I am reviewing the SAS thriller Silencer by Andy McNab which is an excellent novel which I bought from kindle. This is the 15th installment in the Nick Stone series about an ex SAS soldier who is quite poor but makes a living doing covert missions. This book starts with him doing a covert mission in Columbia in 1993 when he was meant to shoot a druglord who was a member of the Columbian parliament and untouchable by legal means. He had to do the job with an old world war 2 gunsight that kept misting over and only had a magnification of 4 and ended up shooting the chaps son. We are then fast forwarded to 2011 when Nick is working on behalf of a arms dealer in Moscow and his employer is due to give birth and he has to get her to hospital. In Russia hospitals aren't like what they are in Britain and potential patients are frequently turned away from the hospitals for not having written consent to be treated. He even witnesses a man having a heart attack being turned away. He is able to get his employer into hospital and she has her baby but both are kidnapped. He initially thinks they have been put to work in the sex industry in Moldova but his search takes him to Hong Kong and the organ donor corruption going on there. They have been kidnapped for their organs. He poses as a wealthy businessman from Russia desperate for a kidney for his wife. Things do work out okey but then it turns out that Katya his boss may have been selling weapons to the drug cartels in Columbia and he realises there is more to it than meets the eye. There is a happy ending and they rip one cartel off of loads of money. Definitely one of McNab's better books. Like his other books it's well researched with lots of interesting bits of information like Costa Rica doesn't have an army and focuses on

tourism to try and keep the economy going strong. I did really enjoy this book.

---

### **Helen says**

I'll always read you, Andy McNab. But *Silencer* isn't quite as strong as the earlier books; it's missing something, a bit of tradecraft, a bit of believability, that the earlier books have so much of. Still--I'm already looking forward to his next one.

---

### **Nicole says**

A friend gave me this book and asked me several times if I liked it. So I always answered that I haven't read it yet because I have so many books on my list, but school is coming and no more running away. So I tried to read it. I really did.

Yet, I struggled to finish it. I skipped pages and pages. It was my first book for Andy McNab and probably the last. It's just not my type. I really wanted to know how he saved Katya, but there were so many unnecessary boring things and dull details. I guess the problem was me and not the book. The writing is fine and Nick character is okay. That's why I gave it 2 stars instead of 1.

---

### **Paul says**

The last great book in a great series.

---

### **Jim Whitefield says**

Another great 'Nick Stone' novel from the ever exciting Andy McNab. As edge of seat and nail-biting as ever. Never fails to please.

---

### **Richard says**

#### **Loved it!**

Another awesome Nick Stone mission! Book number 15 in the series did not disappoint! This is my go to author for pure enjoyment. I have not rated a book in the series less than 4 stars. Please give this author and series a shot, I promise you. Will not be disappointed! A very solid 4.5 Stars! I now patiently await book number 16.....Thank you Andy for a nice vacation from reality!

---

### **Neil says**

Another Nick Stone adventure. They are all great including this one. Globe trotting and a definite thriller. Action and adventure. Most of the book is edge of the seat stuff. Roll on the next one.
