**Tainted Love** Lane Hart

Finding love just got a little easier...

What if I told you there's a magic potion that could lead you to the man of your dreams?

Would you drink it?

Josie Carter swore that there was no such thing as a "love potion" and that the crazy lady selling it at the hippie festival was a complete sham.

But a tiny little thread of hope is what made her try a sip.

A sip that caused a series of unfortunate events to unfold, wreaking havoc in her life but leading her to a man who just might be everything she's been missing.

Before time runs out she'll have to figure out if it's true love, or if it's all just too good to be true.

## Jackie Roberts says

Josie is a young paralegal working at a local Law Firm. She and her best friend Reagan happened to go to a Medieval Festival where they meet a psychic who offers to read their palm and tell their future.

Reagan, the friend, gets this normal mumbo jumbo but Josie is told that she will meet the love of her life in 9 years unless she drinks a very special potion right then and there which will enable her to find him in only seven days. The catch is that someone else has to drink from the potion on the 7th Day and pass it on after 7 days as well, kind of like a liquid chain letter.

After Josie drinks it, she gets sick to her stomach has to pull over and throws up, but while she's throwing up someone hits door of her car ripping it off. So the next day she stops at the local car repair shop known as Andrews. She leaves all of her information with the keys. After few days she calls his check on the car and is told that it's not ready yet. Frustrated she decides she's going to stop over after work and speak to the manager.

When she arrives the shop the lights are out but the door is open and she hears music. Going in to the shop Josie spies the sexiest man alive. He's in a pair of coveralls push down around his waist and no shirt. Lawson has been working on a car air conditioner when Josie walks in. Totally Blown Away how beautiful she is he admits he has a girlfriend but he can't remember her name. Since your car is not fixed he offers to take her home.

He's still thinking of her when he walks into his own Apartment that he shares with Katrina, later that night only to be shocked at finding her in bed with his one of his own employees. After punching Todd, and telling Katrina to get out Lawson is at loose ends and has to find somewhere else to spend the evening. He ends up on Josie's doorstep without even thinking. There's a current of enormous chemistry between the two and the sparks starts to fly sending them toward a sizzling HEA!

Lane Hart is one of my favorite one clicks! This story is so much fun. Josie is a perfectly flawed heroine, and Lawson is one sexy book boyfriend. It was a hilarious, sweet, sexy ride with quite a few bumps, and the HEA was completely satisfying. 5 stars plus for this awesome story. If I had a complaint, it is that I didn't want it to end...and that's my favorite kind of story.

Josie winds up with a love potion and has 7 days to find her true love. After throwing up on the side of the road and her car door being taken off puts her on the path to her future. Lawson Andrews owns a car repair shop, has a girlfriend who ignores him so when Josie shows up about her car he is struck by how attracted he is to her. When his personal life goes to crap Josie is the one he turns to. When he finds she loves South Park, drinks his kind of beer and loves 3 meat pizza he doesn't see anyone else. Another great read from Lane Hart! I was given an ARC in exchange for an honest review.

I loved this book, it was short and sweet and very funny. Josie is a paralegal that has had her heart broken by a no good cheater, Lawson is a filthy talking mechanic, when they meet he is struck dumb and even forgets he has a girlfriend, he also forgets her name! There is a physic, a love potion, a cheating girlfriend a cheating ex fiancé some hilarious drama and so much more! Wish I could give it more than five stars! Lane Hart is a great author!

This was a fast yet heart warming read that I enjoyed from start to finish. Josie and Lawson had chemistry that was off the charts in a story that moved so quickly that I was sorry that it ended when it did because I wanted more. I hope there is more to come from this series!

Fun, fast paced, sexy story!

Good characters with great chemistry and a lot of steam. The story is funny and it is a quick and easy read.

The story line was good and the characters were well defined which kept me totally hooked until the very last page! I enjoyed this book so much that I read it in one sitting! This book was short but it was for sure steamy. I couldn't put it down.

Such a fun couple! Josie and her best friend Reagan are in a slump (when it comes to their love life) and went to a festival where they come upon a fortune teller. The fortune teller tells Josie that she won't find her true love until she's 35 unless she drinks a "magic love potion". Then she meets Lawson Andrews, a sexy auto mechanic and Thor look-a-like!

At first, I was a bit skeptical if I would be able to get into the story. But after the hilarious scene where Josie threw up, my interest really picked up. I can't wait to read the next book in this series!

Lane Hart has done it again. This is a quick easy read that is super sexy. I completely and totally recommend reading this book.

What happens when you have your heart broken and you don't believe in love? You visit a gypsy and get a love potion that gives you 7 days to find your one true love.

This was the first book i've had the chance read by Ms Hart, and i absolutely loved it! It was brilliant and you can't help but fall for the main characters, who are literally perfect for each other!!!

Josie and her best friend Reagan are at a 'fair' when they come across a psychic. Reagan buys a 'love potion' from her, when she gets Josie to drink some... Josie's life changes forever!!!

Lawson owns the garage where Josie takes her car after the 'accident'... When he sets his eyes on her, his life also changes forever!!!

It was a brilliant little story that i couldn't put down once i started. The attraction these two have is off the charts scorching but the humour is brilliant and will have you laughing at their banter. I for one am now a fan of Lane and i intend to find out what book she has planned next, and i can't wait!!!

Damn that was one seriously hot book. Just a sec while I change my panties.

“Kaboommm,” Josie mutters softly from behind me. “Sorry, my ovaries just exploded.”

It’s funny, I saw this book about a month ago and added it to my TBR list then I forgot about it. But every few days I would remember it, check the release date and then promptly forget about it again. Then this morning as I was setting up the release blitz for it I just had to one click it.

Ms. Hart does it again! She has written an incredible and sexy-as-hell story that is a fantasy/fairy tale, which in the past has been my least favorite type of book, and has definitely aided in changing my preferences! She has shown me that the previous fantasy/fairy tale/paranormal books that I have read and not cared for, was because they were actually less than stellar books. This is my second book from Ms. Hart like this and while reading then both, instead of thinking the end was never going to get there, I found myself not wanting the book to end. I guess what I enjoyed so much about Tainted Love was that it is a story of every little girls dreams! Growing up almost all little girls want to find the love of their lives and wants him to love them just as much. And they want to live the almighty, happily ever after! All of us women and little girls would love to have something "magical" to ensure that they all get just that! Well Ms. Hart does just that, but does it in a way that makes all of us "big girls" think that there might be a way to find our prince charming and then puts a sexy twist on it. After the female main character, Josie, drinks this love potion, she has 7 days to find her true love and consummate their relationship! So prepare yourself for some steamy, hot reading!

[ I hated how much Lawson called his ex a whore, bitch and slut. I get that she cheated on him but his constant name calling was a huge turn off. Also, when he and Josie are about to have sex and he doesn't have a condom, he says he can't have sex with her unprotected until he gets tested because he had been having unprote
