Under Her Skin Aria Cole

Sienna Taylor walked into Aspen Ink looking for a temporary escape. Instead, she found River Madden, the gorgeously talented and impossibly moody owner of the shop. One look in her big, dark eyes makes him desperate to possess her, his need to mark her luscious skin a primal distraction.

One touch of his needle sends electricity rocketing between them, and by the time he's finished leaving his brand on her, he's doing the unthinkable and offering her a job, and possibly losing his sense of sanity.

Finding forever is the last thing on River's mind, but one taste of her sweet innocence has him consumed with claiming her.

She's too innocent, too sweet, too untouchable, and far too good for him. But she has a darkness that claws at her, a crack fracturing her heart that only makes him crave her more.

Warning: From the moment his tattoo gun touches her skin, River is utterly obsessed with his girl. If over-the-top, insta-love goodness with a moody, tattooed alpha is your cup of steam, look no further! River has a talent for pushing all the right buttons. ;)

River Madden is the hot sexy moody owner of Aspen Ink, he lives for tattooing and creating art. What he doesn't like is dealing with customers, he's not interested in life stories or the reason behind the tattoos he just wants to work.

Until the day Sienna Taylor walks into his shop wanting a tattoo and then everything changes, he wants her story and he wants her.

Sienna isn't at all what River was expecting, it soon becomes apparent that there's more to her, a darkness and spirit that calls to him.

I enjoyed this book, it's a short sweet sexy read, it's instant-love and comes with two lovely epilogues.

4 Fate filled stars.

A hot,quick Insta-love story with substance.

I loved these books from Aria Cole, yes I love getting lost in a book but sometimes you just want a quick read and these books always satisfy my reading appetite.

It's like Aria takes out all the good bits you normally love in a contemporary romance read and puts it all in one book giving the reader all they want.

Under Her Skin is about Sienna and River, Sienna goes to River for a tattoo and it's insta-love and Lust at first sight.

River isn't the one night stand type of guy, he puts all his time and effort into his tattoo shop.

Sienna is a sassy, troubled rebellious 19 year old with an unhappy home life with her dad.

River;

Something down deep and dark inside her pulled me, made me want to protect her, to claim her as mine, and to vow to cover her in kisses every fucking day for the rest of my days.

A short read, yes, but you gain all the info and the feels as you would in a book with more chapters, all the base's are covered.

A hot read with great characters and extended characters, told in dual pov's.

Another enjoyable read from Aria Cole.

This author is hit or miss with me (mostly miss lately) but I thought I would give this one a go. Alas, it was another miss for me. I just didn't connect with either character and spent most of the book bored out of my mind.

SIDE NOTE: It takes WAY longer than 24 hours for nipple piercings to heal. So piercing her nipples and then the next day "plucking" them during sex would most likely earn the person doing the plucking a good swift kick to the nutsack...just saying.

Elizabeth Neal says

River has owned Aspen Ink for years, and though he loves the creative aspect of his job, but social side requiring talking is not his favorite. That aversion extends to his employee, tattoo artist Jericho. River is unfortunately being forced, yet again, to listen as Jericho shares the story of another ONS. If it wasn't for the man's unparalleled talent with ink, he would've never been hired. Thankfully, River's next client arrives, surprisingly, as he's usually booked months in advance and has numerous repeat clients, she's new to his shop. He immediately pegs her wrong, assuming by her appearance that she's too young, innocent, a tattoo newbie, and untouched by real hardship. He would be wrong on so many levels, especially on the latter as evidenced by the reason for her current tattoo.

Sienna made an appointment with River based upon his designs online. She knew he would be the one to give her not only her next one, but the most valuable and personal, the way to take back control over the reason for the tattoo in the first place, a visible reminder of the night everything shattered. But now, face to face with him, all she can think of his hands being on her for a different reason. She knows it's a fantasy in more ways than one, men like him don't think of women such as her that way. She's the habitual little sister type for some reason. Oh, if only she knew the things River is actually thinking of in regards to her.

“No, I’m good. Keep going, I like it. It was painful getting the scar , it should be painful when I destroy it too.” - Sienna

For once, River wants to talk to a client, to learn more about them. When he discovers Sienna has been looking for a job, he doesn't hesitate to offer her one working the front. Yes, it's a ploy to have her close, but the need for the position is legitimate.

As River and Sienna begin working together, it doesn't take long for their connection to grow stronger, their attraction to becoming overwhelming, and no longer able to deny. Soon, they're together and enjoying every second of it, reveling in the happiness they've found with one another, looking forward to the future they'll have. But Sienna has secrets, a tragic past she doesn't like to talk about that tore her family apart. When she does share it with River, she learns a shocking truth about that night, and the history she shares with River because of it.

River may be ten-years-older, but Sienna helps him learn you can't judge anyone based upon their appearance or age. It's not the number of years someone has lived, but what and how they've had to live those years that counts.

What happens when Sienna reveals the reason for her pain? Will she blame River because of his innocent connection, unable to take out her grief on the person truly responsible? Or will she understand that River lost that night as well? Will their love survive when Sienna can no longer live with the consequences, the changes, that experience created? Can River protect her? Will they get their HEA?

On a purely personal note, I did not like Jericho. Manwhores are disgusting to me, and yet, I have a feeling his revolving bedmates are either a way to hide his true self, a cry for help, or both. Yes, everyone can be redeemed, and I wish for him to be, but if he were to ever get that chance in his own story, I'd have some conditions for him. Those aside, my greatest hope is that all of his exploits were in fact lies, a cover to hide the pain he was feeling over not having the one woman he truly wanted. Yes, those words would hurt her as she'd believe them to be true, but upon learning they weren't, that he hadn't stopped wanting her, and hadn't been with anyone since her, that could be the catalyst that reunites them. Everyone wins, manwhore claims were like Bigfoot...rumors only, no facts available to substantiate them because you can't prove something that never happened, ergo, Jericho has, in fact, been celibate since losing the woman he loved. *fingers crossed*

I was pulled right into this short story. The story has laughs, heat, and insta-love.

If you have not read the below I would recommend reading those books(s) first

Under Construction

Under Her Hood

Under Fire

Under Pressure

This is Sienna and River's story. Sienna walked into Aspen Ink and came across a moody hot artist. River is the owner of Aspen Ink and from the moment he touches Sienna he wants to claim her as his own. Can he get her to understand what he wants? She seems the opposite of her in every way. But is he only looking skin

deep? When he sees the heart of her will he understand she is a little broken and he might be just what she needs. He is about to leave a mark on her that goes beyond skin deep it reaches all the way to her soul.

I loved these characters and the side characters. I felt I could connect with the characters and the story was a great read.

I highly recommend this book.

Under Her Skin by Aria Cole is the latest by this author and it is another hot romance read. I found this story to be another home run by this author. Talk about smoking hot, sexy alphas, and sweet innocent heroines. Sienna Taylor and River Madden make this story because they instantly click and the chemistry is so right. River is a tattoo artist and Sienna comes into his shop to cover up a scar. From a tattoo to that forever romance. What a fabulous romance. There is this heat and this immediate connection that the story portrays. There is a great story that goes from strength to strength. I was sad when the story ended because I needed more of River and Sienna. From alpha male hotness and sexual heat to insta-love romance...Aria Cole does it again!

Not liking the nickname. It is worn out....
“Welcome, doll face.”

Alpha:

“I’m the only man you let touch you from here on. You got it, Sienna?”

“It’s taking everything in me not to drill you into the wall right now. You can’t wear this fucking stuff around me.” I snapped the elastic,

It is a short read full of **STEAM**. It is definitely a **Hot** short read.
I can't say too much without giving anything away. It is a little part of a sad touch added toward the end.
The female lead was a little weak, of course she **Begged**. In this novelette I am glad there wasn't no push in pull because of how short it is. I hate waiting to the end for togetherness.

I loved the Epilogues. I am such a sap.
If you like short reads I would recommend reading this one. I am not a fan of short reads, but I did enjoy this.
I would read more from this author. It is a short, rushed read, Certain situations that take place seem impossible.
