Beg

Eden Butler

Beg Eden Butler

I am a liar. My words were poison and everything I touched got filthy. Except Iris.

She was the best part of who I was. The only bright spark in my dull, gray world.

But denial made me stupid and a cruel insult destroyed everything I hoped to have with the girl of my dreams.

Now I will crawl on my knees and grovel because sometimes, even rock Gods have to beg.

This is an erotic romance novel not suitable for young audiences... or people with heart conditions.

4 “Let Go” Stars

This conclusion was a journey and I am so excited that the author did it justice. I was one of those wondering how in the world the author would make the end of book 1 okay and I’m glad to say she didn’t. Now that doesn’t mean there wasn’t resolution because there most certainly was. But what Ms. Butler did was tell a story about forgiveness and redemption. Life isn’t a fairytale and neither was this romance. The beginning of the book was a bit slow, but Beg was a fantastic follow up to Jamie and Iris years long journey.

I voluntarily read an ARC of this book. A is for Alpha B is for Books

Tracy *To the point Reviews* says

Meh!

And whats the deal with the cover? Looks like dude is trying to muffle her mouth and nose... Creepy!

The cover is one thing, the inside is another. This concluding part of the 2 part series is from the hero's POV. And if you know what asshole did in the first part, you were dying to see how he would redeem himself. I wanted a grovelfest, but what I got is the hero's journey to becoming a better man who makes better choices.

It was boring... Nuff said.

Wit & Wonder Books says

** ARC provided by the author for an honest review **

Will a groveling Rockstar be able to earn forgiveness? *Beg* by Eden Butler is the conclusion to Iris and Dash's story and what an emotional ride this was.

You need to read the first book *Kneel* before diving into this book. *Beg* takes off from where we were left hanging and questioning at the end of book one.

Dash realizes his mistakes and actions are what caused Iris to vanish. He is desperate to get her back but when it starts to seem like that will be impossible he turns to his old destructive habits.

I am so happy that this was from Dash/Jamie's POV. Getting the perspective of Dash allowed for a better understanding of everything that has happened so far. That doesn't make his actions right, but it does give insight to how he feels about Iris and why he justified doing the things he did.

This duet is a perfect blend of two of my favorite tropes, Rockstar and second chance. This was a well

written emotionally driven story with an ending that is exactly what you expect.

Eden Butler has found the way to my heart and that is through a stubborn Rockstar and his true love. Four stars.

Guilty Pleasures Book Reviews says

I enjoyed Beg, the continuation of Kneel (Gods of Rock). While the first book focused on Jamie and Iris's past and their damaged present, Beg focused on Jamie.

As readers we're given a look into his past. It's evident that Jamie has issues with his mother and father. He had a troubled upbringing and because of this he's struggling in adulthood. He's learned to depend on alcohol and being a douche. He definitely hits rock bottom and know must beg for redemption.

I thought the author does a good job showing the reader a different side of Jamie. Behind his makeup and onstage persona the walls are dropdown and were able to see the sweet and good in him.

I liked watching him with his parents. How they continued to all grow and become a more stable family unit.

While I enjoyed reading this and would recommend it , it lack the romance that I was hoping for. On one hand I'm glad Iris didn't give up so easily but I would have loved seeing these two as more of a couple .

4 ★'s

“The only magic I ever really made was the love I had with you.”

I was sooo looking forward to this book especially with how the first one ended so it really kills me to say that the first third (approximately) of the book really dragged for me. But...there is a reason.

Jamie's Dad is in the picture and the two of them really needed a chance to get to know each other. And since this book is ALL from Jamie's POV, we get to find out a lot.

I did enjoy seeing how their relationship developed, how they each fit into the other's life and how they were there for each other.

And then there's Iris...things definitely picked up when she comes back into the picture. And I realized I really missed her POV. Don't get me wrong, I loved getting in Jamie's head but he had a lot to make up for and I'm just not sure he did.

Jamie's Mom also shows up and we get to find out about their relationship. It wasn't my favorite part of the book but her interactions with Jamie's Dad were intriguing.

I did love how everything worked out especially how much Jamie grew as a person.

Sarah says

Dear Eden,

I love a book that can tear me apart, spin me around and around, and put me back together again. Thank you for giving me a hot rocker full of angst and a badass leading lady that won't take any shit. You delivered another hit! You are the queen of redemption and second chance romance. Your bad boys are some of my favorite characters I've ever read. Keep em comin!!

Carmen Aquino says

2.5 stars

Durante la lettura ma anche alla fine ho riletto il finale di Kneel e la trama di Beg e posso confermare che questo non era il romanzo che mi aspettavo.

Beg totalmente raccontato dal POV di Jamie è la sua storia, di come si pente e dice di voler fare ammenda per gli sbagli commessi.

La sua vita non è mai stata semplice con la quella famiglia disastrata e in questo libro i vari rapporti incasinati della sua vita vengono riparati.

Iris era la sua gioia e le scelte infelici fatte hanno provocato un profondo distacco tra di loro a cui lui cerca di rimediare.

Ci sono un paio di cose nei libri che non mi fanno impazzire ma che se incontrate singolarmente non influenzano negativamente la lettura, ma in questo caso erano tutte presenti: i protagonisti sono separati per la maggior parte del libro, con qualche interazione saltuaria e un finale alla "vissero felice e contenti" sbrigativo.

Capisco il profondo legame e l'amore che li univa nonostante il passar degli anni ma non sono proprio riuscita a comprendere la rappacificazione visto che non c'è un minimo di dialogo.

La troppa narrazione e il continuo rimuginare sui proprio errori non hanno aiutato... Fatti e non parole ragazzo mio!!!

Il primo libro mi era piaciuto e con quel finale avevo gradi aspettative su questo ma ho davvero faticato ad arrivare all'ultima pagina, sorry but not my cup of tea.

Snow says

A predictable redeeming journey for the main character...and absolutely annoying and boring and non-credible.

He's finally found his true self! Yaaay!!!

But a little bit too late and the way she 'forgave him' was just meh...

Yeah, good for you...but fuck it, in real life, you would be eviscerated for the fucked up behavior...and I couldnt care less about all your 'I m sorry' cries...

flipping him off

Good riddance!!!

Jennifer Kyle says

4.5 'Floreccita' Stars

Eden Butler delivers a fantastic conclusion to this duet by not only unmasking our rock star but redeeming him as well.

"If saying sorry was enough, it'd be the first thing I'd utter every time I opened my mouth."

I truly settled into reading this story and tried not to rush to finish. I savored the feeling of being with these unique characters every step of the way!

Ruthie Taylor says

~~I received a free copy of this book to read and review for Wicked Reads ~~

4.5*s of revelation, re-evaluation and romance

This is the second book of the series, and you absolutely need to read Kneel to understand what is happening here. We were left on a terrible ending, with Jamie (as Dash) having shared a video in a concert, mirroring the nightmare at the beginning of Kneel. He really does need to air his grievances in private!

This book revolves around the fallout from his stupid act - his public life, his career, his private life, and his family - everything is in turmoil, and once again Jamie has fallen into the bottle, and trying to find where Iris has vanished. We find him finally emerging from his stupor, and working on what his future may contain. I

really don't want to say anything, as it is revealed in such a perfect way, that I could give you the wrong steer. Let me assure you that it is dark, gritty, sad, moving, hopeful, and sad again! Love features, but not always as you might expect, but always with meaning.

This book does a wonderful job of closing the story, and of giving us the closure that we needed, even if not what we expected. Thank you Ms Butler.

Rose says

What a perfect conclusion to this duet! I loved everything about it. I loved that Jamie was finally coming to terms with who and what he had become. There were some really big, "Come to Jesus" moments in this book that blew me away, and some things that totally shredded me. I could go on and on, explaining the different things I love about this book, but that would ruin it for all those readers who haven't read it and I won't do that! Kneel and Beg (Gods of Rock) were FANTASTIC!!!!

Crystal B says

3.5*..i liked the ending way better than the start!

Libby Harrison says

Me waiting for the begging to happen...

Kathleen R. says

I read Kneel by Eden Butler before i got my hands on Beg. I even got my author's completely mixed up and thought that Eden Butler was someone else. But what i haven't forgotten since reading Kneel, was Iris and Jamie's story. It was impactful - how one single decision can severely alter your life. Sometimes for the best and sometimes for the worst. For Jamie, his decision to embarrass Iris in front of his fans was a little bit of both.

This was the pivotal moment in both their lives - where they had to find out if their childhood love would be able to live up to the damage that fame, fortune and arrogance can ultimately do, especially when it comes to

these two's history together. Boy did Eden Butler make this bad boy question his whole existence more times than i can count and it was totally worth it. Without it, this boy couldn't become a better man.

As much as i would have wanted Iris to break down and finally forgive Jamie for what he did after 7 months' worth of phone messages of his begging, i have to hand it to her - she stuck to her guns and didn't. Trust me, i was confused. I mean, how could you not believe his words. But she did say it perfectly at one point: *words come easily to Jamie, they are just that, words. But actions are unmistakable. You can't cheat actions* (or something along those lines... i don't have the exact words, but i think you get what i mean).

I loved this book. I loved how it evolved. I loved how it made you think on what is important in your life. And i loved how these characters, no matter how broken they are, are family.
