Buckle Up - Episode 1 Karen Botha

Fast cars, testosterone and money. What can go wrong?

Elliott Judd has a lot to be thankful for. A lot! Men and women alike fall at his feet, and who is he to turn them away. A red hot racing driver, he's out for as much as he can get his hands on. And he gets his hands on a lot. Elliott isn't choosy, men or women, his motto is, if it's fun, run with it.

Until Kyle Beaumont. A mechanic with a dream, he's wanted to be the top of his game his entire life. And he won't let a woman turn his head. Being straight, he hasn't prepared for the advances of Elliott Judd. But Elliott prepared for him, and Kyle had better watch out; Elliott always gets what he wants.

With passion, testosterone and way more grease than is proper, all mixed with a healthy dose of fast cars and racetracks, you'd better buckle your seat belts for the ride of your life.

Karen Botha is also the author of the Naked Series of erotic romances. Buckle Up is her second series of erotic romances which are written and launched in short form.

From Reader Review Buckle Up - Episode 1 for online ebook

Carrie says

Read like the a rush job. Sloppy editing (commas galore) and cliches. Elliott seemed like an irredeemable rogue (and I won't be reading to find out if he is redeemed) and Kyle seemed like a doormat (or maybe floormat if we're talking about cars).

The Celtic Rebel (Richard) says

Buckle Up is a very interesting book. I am usually not a big fan of the alternate point of view type writing, but here I enjoyed it. I think one of the biggest positives of the novella/episode is that I really liked both characters. Elliot could be arrogant at times, but not so arrogant that he unlikable.

I loved the setting in the racing world, and I am loving the story so far.

I classify this novella as another of my "guilty pleasures". It is not an award-winning book, but Botha weaves a very enjoyable story and the attraction between the two characters is very evident. I look forward to reading the rest of the series and see if it holds up to the enjoyment of episode 1.

Teal says

Wow. There's bad, there's dreadful, and then there's... *this*. Words fail me. Atrocious? Execrable? Hmm, maybe let's just go with "appallingly bad."

It's a m/m romance that starts out with a graphic m/f sex scene. Who's the intended audience for *that*?

But initial misstep aside, what about the rest of the story? I'll let it speak for itself:

"his abs pull taught with his every movement"

"I'll have to reign that in"

"that will get me no-where"

And the author must have heard that commas are good, because they've been sprinkled throughout the text

with inept and apparently random abandon.

I tried this because it was free, but the rest of the series is offered for sale -- ! Which is frankly preposterous. Books like this are why self-publishing has a bad name.

Trinita Gonzalez says

Was something new for me, was definitely disappointed by the cliffhanger and length, but was good nonetheless

JenMcJ says

DNF.

I started this one but didn't get very far. Not for me.
