Cases and Concepts in Comparative Politics: An Integrated Approach Patrick H O'Neil

"Based on O'Neil, Fields, and Share's market-leading textbook and casebook, Cases and Concepts in Comparative Politics: An Integrated Approach integrates concepts and cases in one volume. Students get all of the materials in a straightforward, easy-to-use, and cost-effective way. Every conceptual chapter of the text adds robust examples from cases and connects them with just-learned concepts. The authors also integrate 13 minicases, all drawn from O'Neil, Fields, and Share's #1 selling casebook, Cases in Comparative Politics. These cases have been abridged to focus students on key concepts and thus foster better comparison between countries. This approach to integration proves seamless, logical, and easy to use" --
