Give Me Desire Zoey Derrick

VIVIENNE CALLAHAN, discharged from the hospital after surviving a near-fatal attack from Riley, her abusive ex-boyfriend, has come to the safety of Mikah's protection. As she continues to heal physically and mentally from her ordeal, she begins to have strange dreams...dreams that follow her into waking life and hint at a fate she never could've foreseen and dangers far greater than Riley.

Meanwhile, MIKAH BLAKE has some ideas about her future, too, and the more she considers his proposals, the weaker her resistance to him becomes. His recent actions have taught her to respect and trust him, but soon her feelings for him threaten to deepen into something more, something she may not be ready for.

In the third book of the Reason series, Vivienne will discover who and what she and the people around her really are.

My Rant: Give Me Desire was such a beautiful story. You being to see Mikah and Viv's relationship develop but what was surprising the most is the shift of the plot which changes in a good way but it brings more evil to the forefront. But with those challenges comes an extremely heart pounding love story. These two soulmates take there love to the next level and beyond because they are destined to be special. In this book we learn a lot about Mikah and Vivienas as they learn more about themselves and there abilities. It was refreshing to see that although the evil one is trying hard to succeed at his plan there are others there to help Mikah and Vivienne get through the trials that they must face together.

Viv's courage is astounding and Mikah's love for her is without limits. As the romance blooms there is so much tension in the intimacy between the two characters. They feel the same way about each other but they are sincere enough to take there time with each other so they are not pushing each other over the limit. Zoey is brilliant and each book in this series is better than the last. Her writing style captures you and the characters are mesmerizing while the plot keeps you hooked. Zoey has a knack for writing awesome angel and demon stories. Mikahs and Vivienne's story is one of my favorites and has left a lasting impression on me. I look forward to reading the next installment to see where are characters end up.

My Recommendation:

I rated this book 5 out of 5 Purple Rant Hearts and would recommend this beautiful story to anyone that is a sucker for a good innocent and honest romance.

FTC Disclosure: I received this book for free from the author, editor, publisher, or Promo Host. This is my honest opinion about this book and I did not receive any monetary compensation for writing this review nor was I obligated to write a positive one.

5 Mikah LOVING stars!!

I tried to be strong. I tried to be everything I thought I needed to be for myself, and all that did was nearly get me killed. Again. Mikah was there to rescue me and nothing I can ever do in life will repay him for that. His generosity knows no bounds.

As he snuggles deeper into the bed, I realize that something is changing between us.

I LOVE this series so much & I am so grateful that Zoey sends them to me to review :).

Okay so it shouldn't be that hard to guess that I LOVE Mikah :). He is everything a man should be; strong, passionate, manly, caring, & understanding. I'm still waiting to meet my own Mikah ;). This book started off right where the second book left off. Vivienne is in the hospital after getting attacked by Riley. Mikah has been there with her the whole time and during that time he found out, truly, that he is an angel.

When Vivienne gets to leave the hospital she ends up staying in Mikah's building. He set up her own apartment, just for her, with security 24/7 so she'll always feel safe. Vivienne is still really scared around people she doesn't know, so it takes some getting used to, but she finds out that her security is more than that. They are also like Vivienne (and Mikah), in a way. Vivienne and Mikah have been having the same dreams, of them being in Elysium, a place for angels. Vivienne finds out she is a princess and Mikah is her guardian....ROMANTIC, right??!

There is so much that happens in this book, many new characters to love. I'm sad to hear that the next book in the series *might* be the last one. I wish it could go on forever! Vivienne and Mikah are so perfect together and I CAN'T wait to find out what's in store for them next! :)

Series: Reason, #3

Category /Genre: Paranormal Romance, Fantasy

This is book three in the Reason Series. These books definitely need to be read in order.

Upon finally being allowed to leave the hospital, Viv accepts Mikah's hospitality, while also learning more about who and what she is during her dream visits to Elysium. Mikah has more than he wants to provide for her. Will she accept all that he offers?

This is a nice, light read. It left me feeling very relaxed and happy. I am captivated by the world that Ms. Derrick has created for Viv and Mikah. I love when you become so immersed in the story being told that you lose touch with the world around you. I read this in one sitting, only lifting my head to call for refills on my drink. Mikah is a modern-day Prince Charming. He rescues his lady, Viv, from the evil clutches of the villain, Riley. He whiskers her away to his beautiful castle, and he showers her with all of the attention and gifts that any princess could dream. Be still my fluttering heart! Oh, but, it's not over yet. Riley isn't the only evil to be tracing the angels. Who, or what, still needs to be defeated. Then there is the matter of little baby bump. We find out in this book if it's a boy or a girl (I'm not telling!), but this story isn't going to be complete until Mikah holds that child in his hands.

If you are reading this review, I can only assume that you have already read Give Me Reason and Give Me Hope, so you already know you want this one. Read it and you can chant along with me, "Oh please, please, please, don't let the wait for the final book be too long!"

I received an ARC from the author in exchange for an honest review.

Let me first say I am devouring this series. Zoey is one of my favorite authors. She doesn't fail to deliver with the latest book in the Reason series. That being said, I am frustrated, with yet another cliffhanger. Every time I think we are getting to the good stuff, I realize, nope. No good stuff for me. She's teasing me again, IN THE BEST WAY!!! The sexual tension between Micah and Vivienne, has now reached critical mass, and we are in for an epic explosion. The characters are evolving learning their true paths. Evil is lurking around every corner and danger is knocking on the door. I cannot wait for the next book, Micha and Vivenne, had better be getting their HEA after all of this! The writing is clear and beautiful. The pacing is perfect, yet I am always greedy, and want more. If you haven't started this series yet, now is the time. If you enjoy paranormal romance, this is a great series. It is very unique and has a ton of heart. It also has a sexy, rich, caring and sensitive alpha male. Do yourself a favour and one-click :-)

5 out of 5

Zoey has done it again! Her Reason series is so damn good! The story and romance between Mikah and Vivienne continues to unfold beautifully in this third novella and I am desperate for more, more, more! There's at least one more installment to come in the series and while I am excited for Give Me Love to be released, I am a little sad too! I don't ever want this to end. Zoey's writing is a perfect blend of sweet and erotic and honest. This installment had more revelations about supporting characters and some sweet changes in the dynamic between Mikah and Viv. I soaked up every word and kept checking my progress on my Kindle because I knew that it would end and I would be bereft and in need of more. If you have not had the pleasure of reading Zoey's work- rectify this immediately!

From the moment she discovered she was pregnant, Vivienne Callahan knew her life would change. Used to living a difficult life, she's accepted the fact that there's a new life growing inside of her. Though she knows things are difficult, her mind and heart want the baby with every fiber of her being. It's an extension of who and what she is, even if part of the child belongs to her ex.

Recovering from her ex's vicious beating, Vivienne comes to the realization that he's never going to let her be. She knows he doesn't want the child. He never did. He just wants to eliminate the one thing that ties them together. Why? She doesn't know. Nor does she want to. All she craves is for him to let her go, to let her live her life as she sees fit. Sadly, that's something that will never happen.

Determined to make sense of the new turn of events, Vivienne begins to wonder as to what will happen now. Her dreams are growing stranger by the second, and she's soon privy to several secrets of her past. Though she can't quite understand as to why her mother kept them from her, she knows there's a good reason for it.

Still, it's hard to come to terms with who and what she is when she hasn't had enough time to process everything.

As she grows ever closer to Mikah, Vivienne does her best to make do with her new life. She knows this is just a temporary reprieve, though Mikah makes it known that he'd like things to be more between them. Unsure of what she truly wants, her insecurities and indecisions soon rise. Danger still lurks around the corner. If she's to overcome it all, she'll need to trust in herself and the love Mikah has for her. The question is, how can she do that if she's not ready for what's coming her way?

Another awesome book in the Reason series, Give Me Desire is sure to make you want more. We're immersed in Vivienne's current plight as she deals with recovering from her ordeal and the feelings Mikah evokes in her. They know dark forces hover on the horizon, though they're not quite sure as to why. They also have to deal with the angelic aspects of who and what they are now? Will they eventually find what they're looking for, I wonder? It's definitely hard to say, but I look forward to what the next book has to bring for the series itself.

I started this book earlier today and could not put it down. I love stories with angels in them and when you get Mikah and Vivienne together it is heavenly. I have loved every single word through all three books but I hate when they end. And the waiting is the hardest part. I am glad that Vivienne is learning to trust Mikah and that he is only trying to help her. I looked at my kindle and was at 63% and before I knew it, it was at the end and I was screaming NO you can't end it now. Another perfect addition to Mikah and Vivienne's story. If you like a great series then I would tell you to get the Reason Series (Give me Reason, Give Me Hope & Give Me Desire) by Zoey Derrick because you will not be disappointed, you will love it just as I have.

Finally Viv and Mikah are together, but they still aren't "together together". In book 3 of the Give Me Reason series. Viv comes home from the hospital after being beaten to death by her ex-boyfriend. She's accepted Mikah's offer of a safe place to stay, and conflicting emotions enter her about being in her own apartment. This book has Mikah and Viv truly falling in love, they come to accept their feelings for each other. One warning! Book 3 ends on a cliffhanger again.

I received this as an ARC, so first I'd like to say thank you to Madam Zoey Derrick! So without giving a lot of the story away I'll just say this book was a bit more slowed down, not as much action. It was nice seeing from Viv's point of view, but I am a true Mikah fan so I missed his voice. All in all it was a lovely book just like the previous ones. GIVE ME MORE!

** I received this book in exchange for an honest review. ** With that being said what another winning book by Zoey Derrick! She has quickly made the Reason Series one of my favorites! I have not read a series that has hooked me this quick in a long time!!! I love the dynamic between Viv and Mikah as well as the evolution of the plot. The relationship between the two of them has gone through so much and I feel like I have been in the story with them! The writing of the plot, development of characters and the on your toes twists make this series so much more! I feel like this series needs to go on forever (hint, hint)....there is so much that can be done with the characters as well as the plot and even a spin off of some of the non-main characters since they are such an important part of the story. If you are looking for a love story with non-traditional parts as well as a bit of mystery, drama and fun, then this is the series for you! I highly recommend that you get your copy of the first book and have the second and third ready because you will not want to wait! I am already wondering when the next one is coming out!!

I was asked to read the first two novellas in Zoey Derrick's Reason series to get caught up in order to read the third and give my RAW review. And I have to be honest, I was not really looking forward to reading 3 books in a week and doing a review when I was already sucked into another book. I do have to say now, however, that I am ever so glad I put that other book down and gave Zoey a chance. I devoured all three books in no time, and I am ever so happy about it!

I did not read the synopsis of what this book or series was about and went in blind. Within the first couple of pages, I was hooked. Vivienne's internal struggle with allowing Mikah to help her is refreshing to read and the kindness and understanding Mikah gives her leaves me in awe. The evolution of their feelings throughout the series is inspiring and beautiful. I love seeing Vivienne come to trust, not only her feelings for Mikah, but also to start seeing herself as others see her. The acceptance she shows as her knowledge grows shows how far she has come in believing in herself and trusting others. This growth allows for Vivienne and Mikah to truly start falling in love. Warning- this is where the book ends, with another cliffhanger, but one that leaves you anxiously looking forward to reading how their love will grow and their destiny will be challenged

4.5 stars

Hmm, what to say about Give Me Desire...how about GIVE ME MORE!!! This is like one of the sweetest freaking stories I've ever read. If you have not checked out this series, go read Give Me Reason and Give Me Hope right now! Those are phenomenal and Give me Desire continues Vivienne and Mikah's story beautifully. This is back in Vivienne's POV and I felt myself falling for Mikah right along with her. I've got the warm fuzzies just thinking about it now. I don't even know what to say, simply because if you have read the first two, you are probably dying to read this as much as I was, and it definitely lived up to the first two. My only complaint is that we have to wait for the next installment, Give Me Love. This may or may not be the last in the series and I have mixed feelings about this. While I am anxious for the completion of the story,

I also don't want it to be over. This entire series is going into my favorites pile, and I will read it over and over.

With Vivienne still recovering from the brutal attack, she has agreed to accepting Micah's help. Micah has done everything he can think of to bring comfort to Vivienne and help her with her pregnancy. Both are learning to adjust to one another and Vivienne is finding her feelings are growing for Micah, she knows he feels the same way but has not acted on it. With a threat still out there and Vivienne learning how truly special she is, she begins to realize that she is Micah's anchor just as much as he is hers.

The third in the Reason series. This was the one I had been waiting for, the emotions were rampant and I loved the pacing in this story. Micah is such a sweetheart, so tender in his care for Vivienne. This was my favorite in the series thus far, anxious for the next book.

I read this book without first reading the first two books. Since they are only .99 cents and \$2.99 on Amazon, I might need to go ahead and pick them up. The writing is really good and I didn't feel like I was completely lost starting a book in the middle of a series. Vivienne is pregnant and learning who she is, also she was recently badly beaten and left for dead by her boyfriend. Mikah is her friend who is in love with her. I liked these characters a lot. The writing and pacing are good. This is a story about angels and I really liked it. I am curious how this story will end. This one ends with a cliffhanger. 4 stars.
