[Siren Everlasting Classic ManLove: Erotic Alternative Paranormal Romance, M/M, shape-shifters, sex in shifted form, HEA]

He feared the one thing he needed most...

Dreadfully lonely veterinarian Douglas “Dooley” Rae wants a mate, but what he finds is a coyote in desperate need of his help. Starving, dehydrated, and suffering violent seizures, the poor beast probably won’t survive the night. But Dooley has to do everything he can because he knows he isn’t dealing with an ordinary coyote but a human shifter.

Tristan Hart decided long ago to never burden anyone with the demands of his disease, but when he finds himself stuck in a coyote body, he has no choice but to accept Dooley’s help.

As they struggle to free Tristan from his animal form, the two men find themselves drawn to one another despite their differences. When nothing they try works, Dooley comes up with a dangerous plan and Tristan has to decide if becoming human again is worth risking his life.

Now that the Shadows are gone for good from this series, it is amazing how much I'm enjoying the sequels.

## CB says

A fun series. Very unique characters and stories. The author takes great advantage of the fact that these are fiction and comes up with some entertaining theories on shifters and mating.

I've read all 13 that are currently out and they've gone through all kinds of things including amnesia, shadows, knots to dark/light compounds and even male pregnancy with all kinds of hot, sexy men. So much going on and I only touched on the tip of the topics - all mixed in with hot sex - what's not to enjoy!!

Lots of peril and angst, perfect for me. (BTW, lots of coyotes live in cities. In Seattle, they live down by the docks and keep the rat populations down. They only come out at night if at all.

Weird that they assume any other shifters are also gay.

Dooley FINALLY gets his happy ending!

I empathize with Tristan who pushes ppl away because of his illness. It was wonderful to watch them fight through their issues to get to the heart of it, their Love.

[Is it the poison that they talked about before? Who planted it? The Sheriff? Ooo.. I hate that gasbag. (hide spoiler)]

[I'm actually glad that the pairs have to 'work at it' to finally get that mating scent signaling a match. The previous book set up the fact that a match is definitely affected by mental stand point, which makes them actually have to work harder and for me makes the payoff that much more sweeter since they don't have that 'guarantee' right away that this person is meant for them

### **Jess says**

i liked it, different from the others, which is good. Some series can get so repetitive.

It's not really there. it's like barely mentioned on the last page -.- (hide spoiler)]

### **Tara Mcmillan says**

A true romance that starts off with emotion before the physical attraction. I love it when a book makes me cry at the pure feelings and ends with an HEA.
