Immunology

Thomas J. Kindt , Richard A. Goldsby , Barbara A. Osborne

Immunology Thomas J. Kindt , Richard A. Goldsby , Barbara A. Osborne

Originally authored by the award winning author Janis Kuby, Immunology remains the best selling textbook for the undergraduate course. The first and only true textbook written by professors who teach the undergraduate course, it presents the most current concepts in an experimental context with clinical advances highlighted in boxes, supported by the kind of helpful pedagogical tools that other books do not provide.

Mary Siegel says

wordy

Jon says

It was a text book.

Ahmed Atta says

How can I read the book?

Nisha says

And overall great book, but fails when trying to give detail, without actually explaining what is going on. The pictures and descriptions make it easy to understand. The text is terrible at explaining experiments. Thank God for colored pictures.

Aathavan says

Not the best of narratives, but is pretty detailed.

Priyanka Kumari says

good book

Rohit says

Good immunology basics. Images, Language, experimental data, references etc are well organized and easily understandable. But not much details are given on concepts. Hence excellent book for undergraduate studies.

Jordan Matz says

I did not like the way the book was set up, it made it difficult to follow along if the professor did not stick to the exact set-up of the book.

Mohammadreza Nasiri says

?? ?????? ?? ?????? ????

Naira Shabir says

it was helpful
