Rhonda says

The King and Maxwell series is great - from book one to book six. If you like mystery and intrigue, I highly recommend this series.

David Shrauger says

King and Maxwell is a worthy effort by Baldacci, but given its name I was hoping that there would be more development in the relationship between the titular characters. The last book had Michelle nearly die, which was treated as a profound moment in their relationship, and yet it seemed that in this book their relationship regressed back to just being buddies that solve crime. It is clear that this book was titled as it was just to coincide with the release of the (now cancelled) TV series based on the characters. It was an enjoyable read but I can only give it four stars because of the lack of character development betrays the lack of sophistication that can befall series characters. The status quo can be boring.

9/15

Lauren says

I wasn't a big fan. I listened to it as an audio book. This is the second or third I has listened to from this series but I'm probably not going to continue it. They seem to be too conspiracy(ish) for me. You know who the bad guy is (at least in this one) as some of the story is told from their point of view and it wasn't really a mystery that way. I like puzzle solving and mystery and this was really none of that for me. The characters are likable enough but I'm not sure this is my type of read.

enjoyed it much! Saw there were six in this series---need to check the others

David Riegler says

This story was consistent with the rest of the series, but I have a hard time with some of the extraordinary events that the two are able to walk away from. I do enjoy the methodology of their investigations and the twists that the author throws at the reader. There are shining moments of David Baldacci's magic, but nothing compared to the riveting writing in his first novel, Absolute Power.

Carol Heiss says

I enjoyed this book once I got into it and kept at it to find out what happened to the characters. Will I read another in the series. Not sure
