Locke and Key

Sandrine Gasq-Dion

Locke and Key Sandrine Gasq-Dion

Werewolf Locke Renfro has spent most of his life hunting and killing rogue werewolves — vicious murderers who take pleasure in causing misery and destroying lives. Including his own when they slaughtered his parents. After a rogue bites his lover, it triggers the process of turning him into a rogue also and Locke must kill the only man he ever thought he'd love. Years later, the fates have finally given him a mate — smart, funny and sexy Mitch Devan. Locke is afraid to seal their bond, though, terrified that it will make Mitch a target of rogues who despise him — who would love nothing better than to murder his soulmate.

Mitch Devan has spent so long waiting for Locke Renfro to claim him as his own that he's not sure everything will work properly if the time finally arrives. But Locke has slain more than his share of rogues; he is convinced that mating with Mitch will put the human at the top of the rogues' revenge hit list. Mitch isn't sure that would be any worse than his platonic existence with the man he adores. When a simple business trip lands him in grave danger, Mitch finds out exactly how far Locke will go to retrieve the key to his heart.

Loyalties are tested and enemies are revealed, as the Skull Blaster team comes together to rescue their own.

Leaundra says

4.5 stars...

Suzy says

Not my favourite in the series - story was a little all over the place and hard to follow at times.

Lily says

3.5 stars

A nice addition to the series.

TracyG. says

Reread before reading the new book in the series.

I didn't like this book first time around but after reading it a second time I found I enjoyed the book much more.

Teal Ladybug says

Very bad book

I understand when a book is recommended as not a stand-alone, but reading this book was more like reading cliff notes. That or the author just cut and pasted parts of different stories to make this one. Then just changed th point of view.

V says

I must confess that when the story reached 40 % I was getting a bit frustrated, this couple is definitely not my favorite.

I'm so glad the sequel have so many other great qualities to make this story very enjoyable.

All the secondary characters are amazing as always, the battles and the background plot for sure was a winner.

If I have to rate this book based only on Locke and Mitch, my rating would have been very different, but I took those guys out of the equation and it was terrific.

Locke and Mitch 1 Star

Rest of the story 5 stars

Candice says

Holy sheep! The tears. Loved this one.

Makhda says

3.5 stars

The plot is a bit silly. Mitch is an immortal. Why the hell Locke keeps denying his mate??

This was sloooww buuurrrnn. Have I learnt my lesson? Apparently not. 'Reluctant mate' are not my favorite plot. It's frustrating, annoying, and so on. But I admit I do love them together.

What I disliked :

- My goodness, I do not need to be reminded about other character's story. I've read it all.
 - I feel like Mitch and Locke are not the MC's. Because there's so much going on in here.
 - I thought Mitch is dead for sure. So I just jump to the ending to make sure Mitch is alive. I'm really bad at taking character's death. Dang it.
-

Pati says

For once I am glad for at least some of the reminders that Ms Gasq-Dion adds. I honestly hadn't really remembered much about either Mitch or Locke.

I laughed, I cried and sat on the edge of my seat at times. And I was thrilled to find out so much more about the bad guys. I'll be waiting impatiently for Wraith's story.

Lila Hunter says

3.5 out of 5

As always, the author didn't disappoint her readers. This book worked well in relation to the others in the series and followed their formula.

Personally, I wasn't too invested in this two MCs to start with. They were more secondary characters for me, even in their own book.

Plus, I skipped all the references and explanations about what had happened in other books/relationships. I think the series is too far along to treat each volume as a stand-alone. Especially with the crossing reference within the three series.

It was nice seen a nice love story and the whole Skull Blaster's troop. Looking forward to the next books in this series (and the other two as well).

Centoria Coffil says

Emotional Rollercoaster

This book has taking me up, down, round & round, upside down and back again. I mean it was laughter, tears, anger, fear, anticipation, passion, romance, and most of all love with a healthy dose of action & mystery thrown in for good measure.

Federica Lemme says

Review to follow.

lady_knight says

I liked this books, but personally, I feel that there are too many characters in this series to keep up with at this point. In fact I don't recall Locke or Mitch from any of Gasq-Dion's previous books. There are just so many details, plots, and subplots to keep up with. I'm surprised that the author can keep everything straight.

Maggie says

Brilliant!

Another amazing story in this series! Not only did Mitch and Locke get their story and happy happy, we got to see most of the guys as well. Some questions were answered, more questions still to be answered, as the mystery deepens. Lucas showing up was great, Derek, Josh and Mark were turned. And the Titans are showing themselves more and more. This series is hang on to your hats, and fly by the seat of your pants excitement and danger all rolled into one. I love it more and more!!

Caroline Brand says

REVIEWED FOR PRISM BOOK ALLIANCE

This is a little bit different for a couple in the Skull Blasters world. Locke and Mitch are fully aware that they are mates, they are best friends and spend a lot of time together but Locke won't complete the mating until he feels Mitch is safe and the rogues have been disbanded. There is a lot of frustration in this story!

There was a previous lover in Locke's life and although Locke knew he wasn't his mate he had loved him deeply. EJ wanted to be bitten and turned by Locke and when Locke refused him he turned to another wolf. Unfortunately that wolf was a rogue and Locke had the heart breaking task of having to kill his lover. The past still haunts him which is why he is so determined to keep Mitch safe.

Mitch is understanding and frustrated in equal measures. He knows most of the why and as much as he tries to support Locke in his decision small doubts spring up in his mind every now and again. All he wants is for the man he loves, the man he knows he shall spend the rest of his life with, to claim him and show the world they are together.

There is a slightly scary feel to the rogues in this book as they seem to be getting the upper hand. All of Locke's actions count for nothing when Mitch is kidnapped. Grab your tissues as Sandrine writes a scary couple of scenes that will have you hanging off the edge of your seat!

If you are new to this series, and it is a hell of long and intricate series, don't be put off by the number of books. Honestly, once you have read the first one you will not be able to step away. Every single one of them brings something to the world Sandrine has built but I would almost insist you start at the beginning as you need to know the friendships, the fights and the love that these guys have lived through and are still living through.
