Meghan's Dragon E.M. Foner , Keith Draws (Cover Artist)

Seventeen-year old Meghan doesn't remember her childhood and practices magic in secret. Her sole ambition is to bring a warrior's soul from Dark Earth to become her dragon and protect her while she develops into a mage. When her interpretation of a Dark Earth death vision goes awry, Meghan gets both more and less than she bargained for.

Jennifer Linsky says

[
I did not. It wasn't horrible, mind you, but it wasn't as excellent as I expected. A great deal of the reason is the male protagonist, Bryan. I understand that the passage from our world ("Dark Earth") to

Jeffrey Schmieder says

Not as much fun as the author's Union Station series, but still an entertaining read. A very odd couple as Meghan is matched up with a young man she plucked away from his humdrum Earth life in order to make him into a dragon. Funny book, with some tense moments as they collect the magic items to complete the spell. Also like the rowdy band of theater people they travel with. Did not like the ending, came together a little too preordained, but still worth the time.

Jac says

Good book

That about sums up my opinion. The Author took the time to develop a world, characters, and interesting circumstances.

This would be a book I would highly recommend for even preteens.

I liked that there was a relationship that grew over the course of time. It was enjoyable to see the couple work through personality conflicts.

And there was plenty of action.

Lc says

Love the Union Station series but am having trouble getting through this one. The premise sounded fun but the characters are not engaging me. I might keep reading to see if it improves. If so, will update rating.

Amy says

I couldn't continue to read. I didn't appreciate the writing style. The story seemed so surface-level and clunky. I could feel my brains leaking out of my head while I read it and I am not the sort of person who enjoys an overly-cerebral story. I normally love YA fantasy. I just didn't dig it.

Coyora Dokusho says

I liked it a ton! It was funny and interesting and very realistic emotionally. Also, the funny!!!

Joy Woodford says

A funny, sweet highly readable stand alone fantasy

Megan's Dragon is a funny, sweet story that is surprisingly satisfying read. The hero and heroine (Meghan & Bryan) are easily likeable who are surrounded with interesting secondary characters. Overall I would have liked the story to have a little more flesh in that sometimes the jump from scene to scene left me thinking I had missed a few pages. I'm hoping for a sequel to this story. Definitely recommend.

Charles van Buren says

An interesting approach to dragon lore, December 15, 2016

This review is from: Meghan's Dragon (Kindle Edition)

A fine fantasy novel from the author of the Earthcent series which began with the very funny novel, Date Night on Union Station. There is adventure and intrigue in this volume but an E.M. Foner novel just wouldn't be right without his humor. This one is right. Meghan's summoning of her dragon reminds me of a short story which I read some years ago. In that story the sorceress got a U.S. Army tank with full battle load instead of the living dragon she expected. Magic is tricky. The novel is for adults but should entertain mature young adults as well.

Clare Peacock says

Fun, fun, fun

I was really getting bored reading the same storylines rehashed when I came across this book. From the start it caught my interest and wouldn't let go. New ideas, great sense of humor and well written to boot! Will look for more from this author for sure.

Cherylwow says

Men are babies needing constant Service and women are there to service them

ugh. I quit at 74%. The male was a grouchy pouty misbehaving man-baby who had to be constantly fed and rescued and taken care of and convinced to listen to the female who actually knows what's going on in this world. Worse than an actual child. So unappealing. If you're into women as servants and caretakers of men,

then this book is definitely for you . But wait, since this woman has a lot of power via her magic, I guess this wouldn't appeal to you after all. I tried this book because I just finished all 14 of the Union Station books . However the immaturity of the male protagonist was just too much for me as was the flashback to 1950s gender dynamics. Try the Union Station books. The author doesn't seem to have so much difficulty with gender and power dynamics in those books.

mariah lynn odneal howard says

What fun!

This book and the whole Union Station series delight me. No long, bloody battles. No plots to destroy or save the universe. Just great characters and delightful, inventive stories. Humor and good fun abound with people you'd like to meet. Read them all, as I have and wait for more. I'm hooked.

Lynnie says

This was a cute book. I enjoyed a lot of things about the book, but unfortunately it's another story in which I didn't connect with the main characters. There was a surprise or two along the way, but for the most part it was easy to see where the plot was going. It's a cute, easy read, but not something I would seek out again.

DJay says

This was a nice story. It was about a guy who gets pulled from our world to become a freaking dragon in another world. What's bad about that? What else do you need to know? Dude goes from dying to mouthing freaking fire breathing burn your punk az up don't mess with sleeping dragon. It's a win right?

Anyway, the story does go kinda fast. It could have been pulled apart into two books, but it was cool that it wasn't one of those end of the world type deals. It was two people coming of age trying to figure out how to live life.

Steve Anderson says

Lots of fun!

A very enjoyable read. Some mystery, a pinch of romance, a blending of magic and swordplay, all stewed in a warm bath of humor. Delicious!

Timothy L Espinoza says

I liked it!

No one that gets a solid four star rating should go home without a fifth star. The story is fun, the setting is comfortable and I will miss the characters now that I am done. This is a good book and I liked it very much.
