[Suze had some victim balming going on inside that head of hers from time to time. She did balme everyone involved with the accident but also quite a lot the not even 14 y old girl in a coma. (hide spoiler)]

### **Jess says**

I got a little frustrated with Gina because it seemed like she spent a lot more time being there to flirt with Suze's brothers than being there to visit Suze, but she came through and I respect that.

The family dynamics in this series are FASCINATING. I kind of love Sleepy. Suze doesn't appreciate him enough.

The murders/ghosts in this one just made me sad.

### **Sabrina says**

The story starts with Suze's best friend from New York coming to visit her in Carmel, California. Suze's stepbrothers Brad and Jake (aka Dopey and Sleepy) suddenly start fighting over Gina's (Suze's friend from New York) attentions. Gina and Suze were hanging at the beach and decide to go get more drinks because it was warm. At the market, something catches Suze's attention, four people in formal wear. Upon further inspection, she notices something else, they are all dead or otherwise known as ghosts. Suze finds that they were called the RLS Angels because they were all brilliant and leaders.

Suze learns in one of her classes that it was Michael Meducci who had accidentally rammed the Angels. The Angels are furious at Michael for killing them so they will not stop at anything to kill him. One problem though is that Michael thinks Suze is in love with him so he tries to pursue a relationship with her. The Angels go after Michael but Suze is usually there.

Father Dominic and Suze investigate the scene of the accident. Jesse tags along while at home Gina is covering for Suze. Jesse is able to calm the Angels down so that Father Dominic and Suze can talk to them. Suze discovers the truth that Michael killed the RLS Angels on purpose to get revenge on them because his sister is in a coma after drinking too much and almost drowning at a party at one of the Angels' house. Suze tricks Michael and he confesses but realizes Suze is going to expose him for what he did and he tries to kill Suze. Suze summons the RLS Angels saying the okay to kill Michael but see's she made a mistake and tries to call it off but the Angels are furious. The Angels go after Jesse (who was watching the Angels) and Suze. When the ambulance came Suze is pretty beat up and taken to the hospital after finding out Michael confessed to the police and is going behind bars.

The day after Michael's arrest, her sister woke up from her coma. Everyone visited her except Jesse, which made her sad. Suze caught Jesse trying to dematerialize and felt hurt by that. Her grounding for going with Michael will not start until Gina leaves so it ends that her tests turned back to normal and she can leave the

hospital.

I normally don't like pop culture references in books but I love that I get all of the late 90s / early 2000s references this series makes. It definitely dates the books and I'm sure that new younger readers wouldn't enjoy it but I'm just having so much fun retreading these books. This installment had good moments but it definitely wasn't my favorite - the plot kind of felt recycled from the other two books? The concept was slightly more compelling than the last book but it also wasn't too new. These books definitely aren't earth shattering but they are so much fun!

### **Cyndi says**

These books are great! In this installment our heroine has taken her popularity to a new place—dating a nerd. I know. You would expect it to be a football player or some other popular guy. But those did not end well in the last two books so maybe the nerd will end better. Or we can just assume our heroine is not destined for your average love story.

This book was lots of fun and I'm still enjoying the series. On to the next one. ???

### **MY THOUGHTS**

This is a very fun series and I very much enjoy reading them! These books are beginning to get darker, but they still have the light-hearted moments.

At the store on day, Suze sees four ghosts of teenagers. It turns out that they were the RLS Angels, the most popular kids of RLS and died in a terrible accident the previous weekend. When the Angels keep trying to kill one of her classmates, the class geek by the name of Michael, Suze has to get close to Michael. As it turns out, Michael was the other driver in the accident and came out unscaved and the Angels want revenge, but what really happened that night?

Each book in this series focuses on a different ghostly encounter, which I very much like. The whole idea of a girl seeing ghosts isn't really something I haven't seen before, but I still like these books. The whole outlook in this series is more light-hearted, more for younger audiences, which is refreshing. Though, the mysteries in this books are getting more and more dark and I actually really like that!

I did like the mystery in this book involving the Angels. It was a bit predictable, at points, but I did like trying to figure it all out!

As for romance, there isn't really any \*frowns\*

But, ship ship ship ship SHIP!

I admit, that my favorite part of this series is just shipping Suze and Jesse. Though, there is some more development with them, so there's that.

### **IN CONCLUSION**

Overall, a great addition to the series! I am definitely planning on reading more, in fact, I just finished reading the next book! If you want a fun, ghostly series, this is a great series to read!

### **Sharon says**

This one perhaps had a more somber mood than the others. Less wacky and more oh, shit things are getting serious.

I love meeting Suze's best friend, Gina who seems very cool and distinctive. I seriously love how the characters in this series are so relatable and fleshed-out. They never once feel too 2-dimensional or undeveloped.

I also appreciate the fact that Suze's stepbrothers are becoming more and more like her family. Doc of course cares about her since the 1st book (I kinda miss him in this book because he's not present much.)

Sleepy/Jake in particular seems to actually care about her well-being. My heart warmed up to see him and Dopey/Brad call her mom their mom too. And she is low-key freaked out about them doing that, but she already seems to be so used to them as her family.

And Father Dominic is hilarious and fatherly as always. Love him. Also, it's interesting to see that he has a backstory, and I hope we get to find out more.

Anyway, I think this might be my least favorite of the 3 so far, but I still greatly enjoyed it. I'm going to give this **3.5 stars**. I just love Suze. Her character is just incredibly funny and relatable. I literally want to be her. Or want to be her best friend. She's just amazing!

Also, side-note but romance is underway but in slow-mo pace. I don't really mind though because I am focused on the adventures of Suze and the romance seems to be developing naturally.

**Thenia says**

I'm not much of a YA fan anymore and it's been years since I read the previous books of the series, so I was hesitant picking this one up, but I'm glad I finally did.

Suze, the teenage mediator, reluctantly gets involved with a group of ghosts that seem to be out for revenge. She is more of the hit now, get answers later kind of girl, but thankfully her allies, the principal of her school who is also a mediator, and Jesse, the ghost boy that shares her room, are there to provide alternative solutions.

Suze soon realizes that their target is one of her classmates, and she does her best to make sure they don't succeed in killing him, having him get attached to her for her efforts. In the end it turns out that the ghosts did not become so because of a car accident, as people believed, but were purposefully run off the street instead by the boy, who wanted to get revenge on them for his sister's coma after she nearly drowned in one of their parties.

A light story, despite the dark theme, that leaves Suze (view spoiler), but a little bit wiser than before. Her story continues in the short story Every Girl's Dream.

**3.5 stars**

Even though this is probably the most underwhelming part of the series, I would like to symbolically dedicate my **600th review** on Goodreads to Meg Cabot. Meg Cabot is the author who absolutely played a huge part of my elementary and high school days and even though her books may not be masterpieces, they made me overcome a lot of problems and made me feel good when I was down. The Mediator series is fast-paced, action-packed and swoon-worthy and I loved both Suze and Jesse. I've always been putting off writing reviews for this series as I don't know what to say except that I formed a huge bond with it and that I often gladly reread some parts of it.

Anyway, 600th review! Can't believe my little fingers wrote this many reviews on here.

Actual review rating: 2.5 stars

Mean Spirits, the third book in the Mediator series was extremely underwhelming.

We follow Suzie while she tries to control the spirits that are causing havoc in her new home. She also must keep her secret hidden from her best friend Gina who is visiting from New York.

While Gina was a spunky character I didn't feel like she added anything to this story. I felt like she was put in place to put a rift between the other characters in this story and Suzie. For example, she cannot see Jesse because Suzie and Gina are sharing a room and Suzie avoids her brothers because they are all over Gina.

I did like The Angels and thought it was interesting that they were so bitter by their deaths. When Suzie was nearly drowned by them it was highly entertaining and I was surprised by how far they took their fight.

The ending was a little abrupt and I wish Jesse and Suzie would just get together already! I need more of a romantic storyline in these books.

### **Chelsea ♥Peril Please♥ says**

One thing I have to admit about the ocean: it's very quiet down there. I mean, really. No more shrieking gulls, crashing of waves, shouts from the surfers. No, under the sea, it's just you and the water and the ghosts who are trying to kill you.

Okay, yeah, so. I wasn't supposed to read this (I am TRYING to save them, but oh boy it isn't working out) but when the holiday weekend is busy and you're doing amazing things like, say, cleaning out all your old clothes so your bedroom closet ceases to be a nightmare, it bodes well to read **a book that makes you giddy and that feels like coming home**. So, I'm not going to write a long-winded review because we all know I ADORE Jesse and Suze cracks me up. So here are some quotes that I loved from this story...

Gina let out a horrified shriek, threw back the comforter, and dove to the floor, trying to salvage what she could. I, meanwhile, threw Jesse a very dirty look.  
But all he said was, "Don't look at me like that, Susannah. You heard what she said about him." He sounded wounded. "She called him ugly."  
I growled, "*I* say he's ugly all the time, and you don't ever do that to *me*."  
He lifted the eyebrow with the scar in it, and then said, "Well, it's different when you say it."

"Let him go," I said, twisting the tiny hairs hard. This method of torture, I'd discovered recently, was much more effective than my former technique of punching Dopey in the gut. He had, over the past few weeks, greatly built up the muscles in his abdomen wall, undoubtedly as a defense against just this sort of occasion.  
The only way he could keep me from grabbing him by the short hairs, however, was to shave his head, and this had apparently not occurred to him.

This was very exciting. I'd never had two boys get into a fight over me before. The fact that one of the boys was my stepbrother, however, and held about as much romantic appeal for me as Max, the family dog, somewhat dampened my enthusiasm.  
And Michael wasn't much of a catch, either, when you actually thought about it, being a potential murderer, and all.

Seriously, I could go on and on and on about how much I love this series and just how happy it makes me...but then what would I have left to say when my favorite book shows up (COUGH book 5 COUGH). Running out of words before the pique of the series...We can't have that now can we?

You can also read this review on my blog.

This review applies to the entire Mediator Series.

The Mediator Series was my first series read of the year and let me tell you, it was a fantastically FUN way to start off my reading year. The series follows Suze Simon who has the ability to see, to talk to, and to beat up - whatever the occasion warrants - ghosts in order to send them on their way to the afterworld. The series was completed after six books in 2005, with an added novella and seventh novel set a decade later in 2016.

Suze Simon is definitely the best part of the series for me. I would want to be BFFs with her if not for the fact that I am convinced that she is WAY too cool for me. This girl has more personality in her pinkie finger than most protagonists have developed over the course of an entire book. Suze's singular sass, nerve, and fashion sense put her right up there with The Greats Buffy Summers and Veronica Mars, in my mind. In fact, the Mediator Series reads a lot like those teen serialized TV shows set in small town California that follow a new story each episode, in addition to being easy entertainment to take in.

This is my first Meg Cabot read - can you believe it? And if all of her protagonists are as fun as Suze Simon, then I am looking forward to reading more from her. I'm curious, which are the Meg Cabot books that I absolutely must read next? I would love recommendations!

I've begun to become really addicted to this series! I love how spunky the heroine is and, of course, Jesse is absolutely perfect. I liked the twist that this book had. Suze really has terrible luck when it comes to meeting new guys. Seriously though, either they're always getting hurt, they're dead, or they're complete psychopaths. I liked how I wasn't entirely sure who the true villain was. It made the final showdown all that much more exciting.

## **G says**

Meg Cabot redeemed herself with the third installment, *Reunion*, to *The Mediator* series. This book was really a lot better and way more interesting than the second book. I hardly even remember what the second book was about, to be quite honest!

Maybe I just liked this particular installment because it had that mystery section that the previous books lacked. The four ghosts in this story seemed very real, too. I mean, they acted like the teenagers that they used to be. The main characters in this particular installment seemed to be amazingly well-rounded, when compared to previous main characters in *The Mediator* series.

I liked Gina's character and the effect she had on Suze's friends. I do wish CeeCee and Adam were in this book more, though. I am interested in reading more about Father Dominic and how his love affair went with that mysterious girl. I was also quite happy to learn about Suze's fortune in regards of her love life. I haven't

particularly started shipping Jesse with Suze, but I wonder if the next books will change that feeling of mine.

I did not particularly like this book enough to give it 4 stars, but I did like it more than the other two books. I hope that the next book to the series gets even better.

### **REVIEW**

A triple decker review. This is what you end up with when a series is so good that you read the books one right after the other.

In Ninth Key, Suze spends a good part of her time trying to figure out if Tad Beaumont (aka Red) is responsible for a murder. While the interactions between Suze and Tad were nice, I was much more drawn to the scenes with Suze and Jesse. Remember Jesse, he's the ghost who lives in Suze's room. Less Red and more Jesse! There are some completely unexpected twists to the plot and I LOVED the way Meg Cabot worked them in. She is a genius at writing a mystery. GENIUS.

Reunion is my favorite Mediator book of the series so far. In this book, Suze is caught between the ghosts of four teens who died in a car accident (the RLS Angels) and Michael, the boy from her school who the ghosts are blaming for their deaths. It's an all-out war as the ghosts are trying to get revenge on Michael. There is no shortage of action and I liked that the car accident plot was so realistic. Even with ghosts being involved, the plot felt very REAL.

In Darkest Hour, Suze comes face-to-face with Maria, the ghost who was engaged to her beloved Jesse. Since I am so into the relationship between Suze and Jesse, I was really excited to read about Jesse's former fiancé. The most romantic of the series so far, Darkest Hour will tug at your heart. Be prepared for a little side-plot action with the little boy Suze is babysitting – his name is Jack and he's an eight-year-old mediator. I really enjoy how Meg Cabot put awesome little gems like this into her stories.

It's easy to see that I love the Mediator series. I can't wait to read Haunted (book 5) and Twilight (book 6).

Again, I really loved this book. I read it too fast - now I have to wait the weekend for the next one! Grrr. I'm going to do my quick comments:

1. More Jesse action! Yay! Though, I mean, I'm still waiting for some MAJOR stuff. At least she admits that she's in love with him, and he really cares about her. That's enough for me, for now.
2. Again, everything's not typical. I'm good with that - Michael being what he is. It adds the needed spice!
3. Gina is awesome! I loved the complications she causes with Sleepy and Dopey, and Suze's reaction to it. She's also an awesome friend, and she really took the whole mediator thing in stride (maybe a bit unnatural). Oh well - still fun anyway.
4. Father D.'s tragic love story is sad, but I'm most worried about what this spells for Suze and Jesse. I know everything's going to work out, though - Suze's true love will last for eternity! I mean, duh! And, yay!

### **Sara says**

The third book in the Mediator series, Reunion, was significantly weaker than the first two. After loving the second book in the series, Ninth Key, I was thoroughly disappointed by this one for two main reasons: the setting and the characters.

Cabot started out strong in the first two books, but she lost me on the setting in this one. Living in Northern California I can definitively state that nobody sane could wear a bikini on a beach in March. Yes, it might be over 70 degrees, but that wind is *cold*. Even in July the wind strongly encourages you to put on a sweatshirt. I'm also fairly certain there is no indoor mall in Carmel - and there is definitely not a Chick-Fil-A. So that scene would have taken place at an outdoor mall, which doesn't work so well because those don't really have ceilings from which to hang large decorative objects.

Secondly, the characters - the antagonist was not a believable character at all. I also felt that he perpetuated negative stereotypes of the 'geek' or 'nerd' which is really not a great thing for our society. This character is truly key to the plot, and so this weakness is what led to the book's failure. I was happy to see Suze and Father Dom bond more in this book, and she finally asked for his help! However, I feel that Cabot is still trying to figure out Father Dom's character which is a bit frustrating. The character development of Suze's brothers was fantastic, but left me wondering why the mom is rarely in the story.

I am very curious to see where Cabot goes with the rest of this series!
