*Sometimes two wrongs can make a right...*

Bad boy wrangler Archer Kane lives fast and loose. Words like *responsibility* and *commitment* send him running in the opposite direction. Eden has never understood the big attraction to cowboys. Give her a guy in a tailored suit any day of the week. But now all she can think about is Mr. Rugged Handsome, six-feet of sinfully sexy country charm with a pair of green eyes that keeps her tossing and turning.

Archer might be the wrong guy for a woman like her, but she's not right in thinking he'll walk away without fighting for her heart. And maybe, just maybe, two wrongs can make a right.

## From Reader Review Right Wrong Guy for online ebook

### Rhea Dsouza says

There are your typical man-whores, and then there is Archer Kane.

Confession time: I don't buy the whole womaniser turning into a one-woman-man because he takes one look at *the girl* and changes/mends/feels guilty about his ways. And if the writing in this overdone plot is anything less than fantastic, you can be assured of my frosty, if civil response to said book.

But like I said, there's every other man-whore on the God's green earth, and then standing on the other side, with his hands in his jeans pocket, smirking, is Archer Kane.

Archer meets New York hotshot Eden Bankcroft-Kew in Vegas and there are these little sparks. The most wonderful kind, the sweet, kind that land on your skin and are gone before you can react. They are these two complete strangers who have sparks between them and heaven help me, that is the closest I will ever get to admit in believing in the concept of love at first sight.

Eden, who is running from her idiot fiancé on her wedding day, happens to find Archer, who is also escaping. Except, he's escaping from his ladies from the previous night. And after a really cute, *fluffy* meet and greet, Eden decides to accompany Archer to Brightwater. Which, okay, is stupid because I would *never*, *EVER*, do that. Warning: Readers, never hitch a ride with a stranger, no matter how cute he is. Stranger danger, okay?

Anyway, throughout their journey, it becomes clear that Archer *sees* Eden. He sees her beauty and her (s)ass, but he also sees that she genuinely needs a friend. And that's how this starts, you guys. No immediate nookie. Just friendship. And that is what made me feel all the things, because Archer Kane made an amazing friend. He was kind and helpful and gah, that made me Eden want him even more.

If I were to give you one character that took the book away for me, it would be Edie. Obviously, there was a lot of growing up for Archer to do, and he did that, but Edie just stole the show. She was rich, but she was also lonely and I could immediately that Brightwater was home to her. And there were so many things that happened with her—obviously small towns are naturally suspicious of new arrivals. She had to make completely new friends in a town full of people who wouldn't trust her. And opening a bakery is no child's play—she had to work her ass off to make sure *everyone* in town accepted it (rivalries, yo). And of course, there's the whole thing with her falling for a guy who is apparently always chasing skirt around town.

Archer did his own growing up in his own way—all thanks to his need of wanting to be someone Edie would consider, and Grandma Kane's incessant badgering. Mostly the badgering. Whatever the reason, Archer became responsible and when you'll read you'll see exactly how *hot* men on ranches are. And in true Lia Riley fashion, the dialogues, the inner monologues, the disasters were all hilarious! There was this one scene with a *leech on a cock* and you just have to read it to believe it! The Kane brothers are something else *entirely* and that is seen in this particular book. I was never very comfortable with siblings being jealous or rivals of each other but that's been brought into a whole new light here.

It was so, so good to see Sawyer and Annie again because, *obviously*, and again, no sign of Wilder. WHERE in the fuck is this guy? All in all, I'd say Right Wrong Guy was funnier and sexier than Last First Kiss, simply because of Archer and Edie's sweet, kind of flirty banter and their kisses that were ASDFLKJHFG.

### ***The Hero***

Archer Kane, is the one brother that his grandmother is gearing up to take over the ranch, if Archer will stop avoiding his responsibilities to himself and the family. Archer and his two brothers lost their parents when they were young, and they were raised by their grandmother. His grandmother took over running the ranch after losing her husband after five years of marriage. She takes control and has had to be the leader since she was in her twenties. Archer is a bit wild and untamed, enjoys a life of drinking and too many women. When he wakes up with three women in his bed and not remembering a thing. Archer realizes this is not what he wants in his life. His plan is to head back home, and back to his duties to the ranch and to his grandmother. Archer is charismatic, fun and is pretty sexual. But he also wants more in his life and goes after it. He mans up to his past. It was interesting seeing Archer turn his life around and we that certain qualities have always been in Archer, he just hides it real well. Love how sweet he is with Eden.

### ***The Heroine***

Eden made a promise to her dying mother, that she would marry and carry on the prestige of the family name. So she agrees to marry a man her mother picked out for her. She puts her heart and soul into the relationship but then when she learns the truth about her fiancee and how he has been playing her, she takes a new course on life. Eden, upon meeting Archer, moves to Brightwater. A small town in California, but is just right for what Eden needs. But Eden needs to decide what to do. She has quite a fortune but she wants to do something fun and meaningful and help the community. So she decides to open up a coffee and bakery shop. Baking is her passion and she wants to share that with these small town folks who live a simple life. Eden is sweet and kind, stands on her own feet. I really liked her character because of how easy I could relate with her.

### ***Plot and Story Line***

Right Wrong Guy is a story that takes us from the big city to a small rural town where we discover love and commitment in ways we don't expect. When we first meet these two, we see their lives before they "meet up" and boy both of them are wanting to make changes in life. Then they bump into each other at a coffee shop. We see how right they are for each other. They have chemistry and hit it off in their personalities pretty quick---in just one interaction. But both Eden and Archer know it's the wrong time for them. But then Eden takes a leap of faith and asks Archer for a ride to Brightwater. She has a friend that lives there and it seems like the perfect place to lay low for a while until she decides what to do after fleeing her wedding. Archer is intrigued and spell bound by Eden, he wants her but he is also consumed by her. He just can't get enough and wants more. But Eden wants time, she has heard plenty of stories about Archer's sexual adventures and after being hurt, she doesn't want to jump into the fire of another failed relationship. But Archer is determined to prove to Eden he will wait for however long it takes to show that he truly cares for her in a real and long term way.

I'm into you, okay? YOU. Only you. I'm all up to my ears with the idea of you.

This is a story that I fell instantly for. Now I bought this book months ago and I thank Quinn @ Quinn's Book Nook for getting this book. But then this week I realized I really wanted to read this. Especially with the third book just becoming released, I wanted to see what I thought of this author before I read her. And boy was I blown away. Before I realized it the book was over, I just was so consumed by this story I didn't even realize how fast I was turning the pages. This was a sweet and passionate love story that swept me away into the heart of it.

The emotions that this book conveys was so real and what a fantastic story teller this author is. She pulls the reader right into it, and you get locked away into the plot with the emotions vivid and the story that comes alive. This is a romance that is developed with two people who may seem wrong at first but end up being perfectly right. It's about taking that leap of faith and hitting the treasure chest. I love the development of the plot and seeing what holds these two together when conflict erupts. LOVED EVERY MOMENT!!

#### ***The Cover***

What a gorgeous cover....one of my favorites of the year. Its sweet and romantic and you can get lost in it. Love the kiss and the pose here, as if these two can't get enough of each other.

#### ***Overall View***

Right Wrong Guy is a stimulating romance that is lighthearted, fun and tender----one of the best romances this year!! You can't go wrong with Lia Riley as the story teller. A Love story that is packed with growth, passion and a love worth fighting for.

This review was originally posted on Latte Nights ReviewsEver since I read Last First Kiss, I needed more Archer Kane in my life. When I read about him and later on Edie, I wanted those two to get together ASAP. I had no idea they had met quite that way so it was nice to have the author write that story, even before Last

First Kiss happened. They had chemistry right from the start and I was so rooting for them!

Edie overheard her fiance talking shit behind her back to someone else. Apparently, he was only interested in the money. When she meets Archer, she's captivated by him but brushes it off. Long story short, they end up on their way to Brightwater, where Edie is looking to stay and make it her new home. Reading about these two going back and forth was interesting and hot at the same time. You could cut the sexual tension with a knife! They obviously wanted each other but Edie was scared to take the plunge, which lead Archer a bit heartbroken. I mean, the only woman he has his eyes on and she rejects him. But he really wants Edie and he decides to give her all the time she needs to find herself and then make the decision. Edie has heard the rumors of Archer being the man-whore of the town and it bothers her at first but then, she decides to forget it. The past is the past and both are ready to start anew.

Archer grew a lot in this book. I found him to be a bit immature in the first book and not quite there. But in his own story, he grows out of it and tries to be more of a gentleman and even takes over a big responsibility given to him by Grandma Kane. Both her and Edie kept Archer on his toes for the better. He is so charmingly hot! His story as well as Edie's were a great addition to this series.

This book was very flirty, with witty banter and a cute and hot romance. This review was originally posted on Latte Nights Reviews

### ? Kimberly says

**First Date:** We met both Eden and Archer in the first book so this was interesting because it takes us back to the point where these two first met. While this is the second book in the Brightwater series, the timeline overlaps with *Last First Kiss* and it worked wonderfully. Archer Kane put the swoon in cowboy. He has been busy sowing his oats and has quite the reputation as a ladies man. Eden Bankcroft-Kew is experiencing one of the worst days of her life or perhaps the best. Eden is on the run from her fiancé and as luck would have it, she has an Uncle in Brightwater and fate just provided her a ride. I liked both characters when I met them in *First Kiss* and together they have this terrific spark.

**Second date:** Eden likes Archer, and finds him sweet, but upon arriving in Brightwater his reputation comes to light and she has not intention of being another notch in his belt. She has an internal battle going on between her sensible side that warns "wrong guy" and her feminine side that wants to rub up against him and purr like a kitten. I loved watching the struggle. We interact with the characters from *Last First Kiss*, and Grandma already hates Eden. Just wait until you see why. I laughed so hard I had tears. I love being back in Brightwater. Small-town folks are such fun. Eden has made an enemy already and I'm waiting for the showdown. I do not care about Archer's reputation I want him to get the girl.

**Third date:** The author weaved in a little suspense/drama with the ex-fiancé and it created just enough tension. While I never had, any doubt we would get our HEA it made the ride interesting. Toss in an old legend, an interfering, outspoken Grandma and some growing pains and we are partying on this last date. The last date delivered charm, heat, humor mixed with some small-town events and a swoon-worthy ending.

Utterly cute and absolutely endearing, *Right Wrong Guy* is that perfect contemporary romance you long to find.

Archer and Eden have a chance encounter after what can only be considered hitting the emotional rock bottom. Archer has to return home to take the reins of his family's ranch, after another unfulfilling one night stand. Eden discovers that her finance is only marrying her for her money and becomes the run away heiress in her wedding gown.

When the runaway bride hitches a ride to Archer's home town the carefully laid plans both have made for their lives get blown out of the water. This is the story of them rediscovering what truly makes them happy.

*Right Wrong Guy* was one of those stories that captures you fully. The characters jump to life off the pages. The story worms its way into your heart and you find yourself delightfully engulfed in Archer's and Eden's lives. Making *Right Wrong Guy* is a splendid escape.

THis is my first read by Lia Riley, definitely WON'T be my last.

I received this ARC copy of *Right Wrong Guy* from Avon Impulse in exchange for a honest review. This book is set for publication August 4, 2015.

## **Jo says**

Another wonderfully romantic romance by Lia Riley!

Archer Kane is infamously known in his home town as a manwhore. He prefers to make people laugh and to have fun over responsibility and commitment. But after a wild night in Vegas, he wakes up feeling hollow

and alone, and decides that he wants and needs a change in his lifestyle. And right after making this decision, he meets Eden Bankcroft-Kew, and he thinks that it must be kismet before he notices her wedding dress.

Eden, a New York heiress, just found out hours before her wedding, that her fiancé is a cheating scumbag. And then she meets Archer, a cowboy, who is on his way home to Brightwater, where her cousin lives. And makes a decision that will change her life, hopefully for the better.

Back at Brightwater, both Archer and Eden are given opportunities to change their lives for the better, and Archer sets out to prove to Eden that she is the only woman for him.

My favorite part of this book was Archer. I just adored him. Yes, he used to be quite the ladies man, but as soon as he saw Eden, he was instantly smitten, and there was no other woman for him. He pursued her relentlessly, and he waited patiently for her to give him the chance to show that he was the right guy for her. He was such a sexy charmer, but when things got tough for Eden and for his grandmother, he was right there to support and help them.

I liked Eden, although I got very frustrated with her at times because of the way she pushed Archer away, and because in the beginning she kept throwing his past in his face. Luckily she came around, and saw how lucky she was to have found him.

This is my second book by this author, and in this series, and I just loved the romance. It was so very sweet, and the sexy times were quite scorching ;-)

I just love small-town romances, and the sweetness they usually have. Yes, some might find the sweetness too sugary, but I loved it. I was smiling and laughing throughout the book, and quite content when I read the final page.

For fans of Jill Shalvis, Marie Force, Lori Wilde and Candis Terry, you will love Lia Riley.

### **nick says**

There is just something about **small town romances** that draws me into books and **leaves me in a bubble of happiness** for days. Having enjoyed Lia Riley's *Last First Kiss* and liking the snippets of Archer and Edie that the reader saw, I was looking forward to reading *Right Wrong Guy*. I started the book with much excitement and by the time I finished, I was **grinning and smiling and my heart was singing** because this is the kind of romance that I love love love reading about.

When we first meet Archer, he has just woken up after a threesome in Vegas with two strangers. I was sure that I would have a hard time warming up to his character because **manwhores are not my preferred book boyfriends**. In fact, I usually avoid them. But **boy was I wrong!** As soon as Archer started to open up to readers, **I was in love**. This man may have had issues with commitment and slept through his small town of Brightwater, but he realized that his behavior with women wasn't normal. All his sleeping around was an outlet for him for not living up to his brothers. However, he was a man who was **willing to change** and Edie was the perfect woman to propel that change in him. The fact that he took the steps to change his ways made him so much more **attractive**. Add to that, he was a **sexy, kind hearted, caring and supportive cowboy** who was secretly a big huggable bear behind that playboy surface, I was guaranteed to love him.

More than I loved Archer, I loved Edie. This was **a girl who was after my own heart**. After finding out that her fiance was marrying her for money, she took a leap and decided to run away from her high society life with Archer to Brightwater on her wedding day. I was **proud** of Edie for the way she handled her situation. I loved watching her settle down in Brightwater and opening up her cafe, despite some wariness and obstacles from the town people. Edie was an **independent woman** and I love that she **didn't wallow in her loss**, but instead picked up the pieces of her life and built herself a successful career. She was such a role-model and an **inspiration** to readers, in my opinion. The secondary characters were also great fun in *Right Wrong Guy*. I especially enjoyed Grandma Kane and her grouchy antics.

The romance in *Right Wrong Guy* was just so lovely. To say that I loved it would be quite the understatement. This was the **perfect kind of romance** for me. It started off slow, but with lots of **sexual tension** between Archer and Edie. We slowly watched as this romance blossomed from friendship into something more. What made this romance so strong was how much Archer was willing to work to make it work. He **pushed through** her to show her that he was a man worthy of her love and affection and to show her that he was a changed man. What ensued was some great **wooing** on Archer's part and **lots of swooning** on mine. This was a romance that was sweet and passionate and so completely beautiful. More than anything, I loved how Edie and Archer were a couple that **communicated** and were open about their feelings with each other.

Besides the romance, *Right Wrong Guy* also explored the theme of **revenge porn**. I studied the topic in a media class last year for a paper I had to write, and it's something I'm very passionate about. I thought Lia Riley showed it in an authentic way, showing how the people you think are close to you can destroy your life within a few seconds and how the internet is forever. **My heart broke** for Edie when it happened and I was **angry** for her. I was glad to finally see the perpetrator get what he deserved. The small town setting was also quite wonderful and I felt myself being transported to the mountains and ranches of Brightwater.

Lia Riley's *Right Wrong Guy* was an **even stronger** novel than *Last First Kiss*. This is a series that I can't recommend enough to all of you **readers who believe in happily ever afters** and the swooniest of swooniest romances. Now, I cannot wait to read Wilder's book because I have no doubt it will be just as amazing!

## **1-Click Addict Support Group says**

Like Cupid's arrow through the heart, I've fallen for an archer. Well, a cowboy by the name of Archer. Archer Kane, manwhore, bad boy and big ol' softie, to be exact. Sigh. These Kane men, they're killing me with swooniness.

Heiress Eden Bankcroft-Kew has never really understood the appeal of cowboys...until she meets one fine example the morning of her aborted Vegas wedding. She needs an escape, and the handsome, friendly stranger is headed in the right direction. Brightwater, California.

Archer Kane has never been the responsible type. Women, wrangling and wild nights, that's been the sum total of his twenty-seven years. But there's something different about Edie, and suddenly the only woman Archer wants to wrangle is the sweet, sexy redhead in his passenger seat.

He's not the right guy for Edie, and this is definitely the wrong time for them...right?

Swoon! This book was a load of fun; so easy, so charming, so sexy and so right. I loved this most everything

about this book, especially the gentle, playful way it flowed through the story, making even the craziest moments seem...kinda adorable. Much like Archer Kane.

That man, I swear. I really enjoyed *Last First Kiss*, the first book in the delightful small town series, and Archer's big brother, Sawyer was delish. But, um, Archer blew him out of the water in the 'be still my beating heart' stakes. Good grief. Sure, getting a girl in bed might have been is M.O., but the man had all the right moves and all the right words, and he made a believer out of me. Gah, why don't men like this exist in real life?

Edie, so lucky... She can cook, she's got the punniest café name of all time (take that, *The Daily Grind*), and she's being pursued by a six foot tall man in a cowboy hat. I want that. Can I have that, pretty please? I felt for her situation, but couldn't help but face-palm a little at her reasons for marrying the bastard fiancé that she (rightfully) ditched on D-Day. Or, wait, that should be W-Day. Wedding Day. But hey, we all make mistakes, right?

This was a pretty simple story. Boy meets girl. Boy falls for girl. Girl finds out that boy has slept with every single woman in a 100 mile radius (more or less), but still, it had a lot of appeal. Grandma Kane, for example. That crotchety old cow is quite amusing. Sawyer and Annie, there was just enough of them to make it good. Throw in a little small town intrigue and a solid foundation for the next book in this series, and you've got a winner.

I love Lia Riley's genial, easy-going style of writing, and *Right Wrong Guy* was another book that won me over from the start and made me fall in love. Surprisingly, not just with Archer, but with *Brightwater* in general. ~ Beth, 4.5 stars

~~~

I have this special place in my heart for reformed bad boys. Watching a callous womanizer have his life turned upside down by love is one of the headiest romantic journeys an author can take me on. I would argue that there are few things sexier than the soft, insecure underbelly of the cocky, overconfident ladies' man. Archer Kane is no exception – Lord Almighty, this man set my heart to racing.

Archer Kane has a well-deserved reputation. He's spent his life avoiding commitment, out for nothing more than a good time. Eden Bankcroft-Kew has spent her life stiffly in the confines of the society into which she was born. When Archer meets Edie, she's just left her awful, miserable fiancée on the day of their wedding and she's looking for a fresh start. Something about Edie makes Archer want a fresh start too.

This couple is adorable. Edie makes Archer want to be a better man, and watching that happen is – well, like I said, it's one of my favorite book storylines. Edie has some of her own issues to sort through and while Archer may have decided to turn in his manwhore card, Edie isn't such a sure thing. Archer kicks things into overdrive to win her over and the results are adorable, funny, sweet and swoony.

This is a quick, simple, swoony read. My only complaint (and it is minor) is that the connection between Archer and Edie felt a little like instalove. I would maybe have liked a little more push/pull and smart, witty banter. Like I said – minor, because the fact remains that this is the perfect kind of book to sweep you off your feet for the time your nose is stuck in it.

If you read *Last First Kiss*, you'll recognize some familiar faces and take comfort in the fact that Grandma Kane is just as hilarious and crotchety as ever. I am loving this series – *Brightwater* is peaceful and quirky,

and apparently, chock full of sexy cowboys. I'll definitely be back for more! ~ Shelly, 4 stars

It's no secret that I love everything Lia Riley writes. She is a master at creating stories which paint a picture that could easily rival reality. This book was no different! There was compassion, anger, love, humor and good ol' Grandma Kane. She seriously needs a book for herself!

While this book lack a bit of a zing factor regarding plot twists, there was so much love and determination that it plainly just didn't matter. I had a feeling how the book was going to play out and I was so glad when it did! I can't wait to dive into the last Kane brother's story. ~ Kelly, 4 stars

### **Danielle (Love at First Page) says**

#### **3-3.5 stars**

Another sweet romance by Lia Riley!

Three things I love about this series --

1. The men go after their women wholeheartedly. Archer and Sawyer have a single-minded devotion to proving that they are playing for keeps. It's so refreshing and swoony!
2. There is a serious lack of drama that has made these books so pleasurable to read. The characters aren't too stuck in their own heads, making the situation angstier than it needs to be. Instead the rough patches are handled with maturity and not stretched thin. It makes room for so many more sweet moments!
3. Small town country settings do it for me. Every single time. Add in cowboy brothers, one brooding and serious, the other a sweet talker and charmer, and then another who's potentially grumpy? Dead.

*I did* prefer Last First Kiss; I think I connected better to that second chance love story than to the nearly love at first sight between Archer and Eden. But while feelings do develop quickly, their relationship never feels rushed. There's definitely a steady build there. Plus, I love that bad boy Archer saw something in Eden right away and wanted to be a better man for her. That's so irresistible.

I'm holding out hope that Wilder's book will be my favorite!

Archer Kane is my ultimate book boyfriend now. /waves to Archer/ Even the name is super sexy and I just can't believe Lia Riley keeps making me fall in love with every single character she makes. (I totally believe it) ( Lia is an amazing writer).

Kane brothers are just what everyone needs.

## **Review time:**

The Brightwater series keeps getting better with every book release. In Right Wrong Guy, you can see Lia at her best, writing funny dialogue and cute relationships between her characters. She does it in a way that you find yourself transported to Edie's bakery or Archer's ranch. You are just there with them.

### Note: Kane brothers are just what everyone needs.

This time, Archer Kane is front and center. On a Vegas trip, he meets heiress Edie – whose wedding was supposed to happen that same day. She runs to Brightwater with Archer – and let me tell you, those two together spark so many flames, everything is super cute and you can't help but smile at their interactions.

What I like about a lot on RWG is that the timeline is before Last First Kiss (Brightwater #1) AND during it. It also has some scenes that happen after but if you read Last First Kiss you can definitely say, "Oh! I remember that!" "I can't believe that was also happening backstage." Lia, as always, does a fantastic job giving life to all of it.

You will want to meet Archer Kane, guys. He's sweet like a cinnamon bun and the greatest cowboy in Brightwater. There's blackmail and desserts, one true loves and life. Right Wrong Guy is just perfect for summer because it's hot and it's yummy.

### **My Thoughts:**

I was excited to return to the small town of Brightwater, California. I adore the Kane family, and their significant others. I was pleasantly surprised to discover that book 1 and book 2 in this series run concurrently in time. It was great to get reacquainted with Sawyer Kane, Annie Carson, Kit Kane, and my favorite character of all, Grandma Kane.

Eden "Edie" Bancroft-Kew is a well-to-do Manhattan socialite. It's Eden's Mother's dying wish for her to marry long time family friend, Reginald "Reggie" Winter. On her wedding day, Edie, discovers that Reggie is using her for her inheritance.

After Edie meets a handsome cowboy, by the name of Archer Kane, her life is transformed. She discovers that Archer is from the small town of Brightwater California, which is where her first cousin, Quincy, currently resides. On a whim, Edie hitches a ride with Archer, and decides to take control of her life's happiness. She will open her own high quality coffee and pastry shop.

As far as romance is concerned, Edie is extremely attracted to Archer, but she is hearing rumors about his womanizing ways. She doesn't think that she can trust her gut after being betrayed by her ex-fiancee. Another conundrum arises when Reggie begins blackmailing Eddie. Can she find peace and happiness in Brightwater?

Right Wrong Guy was a sweet, warm, charming, and romantic love story. I enjoyed the characters, and love

the sense of humor that Ms. Riley has created in *Grandma Kane*. I loved this small town romance, and it was a great read to savor on a cold night, under the covers. These characters warmed my heart, and brought many smiles to my face. My only critique of this story would be that it was difficult to buy in to the way Archer Kane went from a philanderer to a one-woman kind of man so quickly. However, he does tell us that he is tired of his fast-paced lifestyle, and wants a more meaningful relationship with a woman. Then again, this is the day after he has a threesome in Las Vegas.

If you enjoy small town romance, the Brightwater Series is wonderful. All of these characters are warm, fun, have colorful personalities, and give us readers great romance! These stories give off a meaningful sense of family, close friendships, and community.

My Rating:

I give, *Right Wrong Guy*, by Lia Riley, 3.5 Heartwarming, Seductive Sexy Times, and Fun Filled Stars!

Brightwater how I've missed you! From your beautiful landscapes to your grouchy grandmas, I've fallen in so deep for you it's not even funny. I mean, seriously, how can one fictional town make me want to pick up and move? I don't even like rural small towns and I want to live in Brightwater! Maybe it's all the hot guys and awesome coffee shops? Who knows? But I do know that Lia Riley has captured my heart with this series and there's no going back.

We first met Archer and Edie in *Last First Kiss* and I immediately took a liking to them. Archer is the town's Lothario and Edie is an out-of-towner who has decided to make Brightwater her new home. The two had definite chemistry and it was killing me to not have their story at the same time I was getting Sawyer and Annie's. But now that *Right Wrong Guy* is here, I can have them all to myself! Archer was everything I hoped he'd be and Edie was so much more than I thought she was.

I really wanted to believe *Right Wrong Guy* was more Archer's story than Edie's mostly because I love a good reformed manwhore but this story was all about Edie to me. And that's completely fine! She had a lot of growing to do and boy did she grow. Edie has never really had much. Sure, she grew up rich and never wanted for anything, but she was lonely. The man she thought she should marry ended up being someone she didn't even know. She even admitted that she was only marrying him because she didn't want to be alone. She's also always seen herself as the ugly duckling so to hear that someone likes her is startling. She just doesn't see it in herself.

But as the book goes along Edie starts standing up for herself. She starts to see the person she wants to be, not the person who she thought she always was. She begins a new life in Brightwater and quickly assumes her new role. She'll never forget who she is or where she came from, but she finally becomes happy with herself. And then there's her relationship with Archer. Sure, she's heard all about his philandering ways and she does hold it against him. I mean, I get it, I do. You don't really want to feel like you're just another notch

on someone's bed post. As time goes on though we see how much she really does care for him and him for her. It's sweet. She finally opens up to him and it's just perfect how well they are for each other.

I really enjoyed Archer. He had his own character growth during *Right Wrong Guy* but like I said before, this book was more about Edie than it was for him. Yes, he finally settled down. Yes, he finally found responsibility, but it was always inside himself to do it. He just needed to find the reason to actually mature in the way he needed. Eden was definitely that reason, as well as a kick in the butt from Grandma Kane. Archer was everything I needed him to be. He was hot, funny, and oh-my-god-charming. Just like Grandma Kane said, he could "charm the habit off a nun." He's a wonderful addition to the Kane family and just as wonderful as his brother Sawyer.

Overall *Right Wrong Guy* was a fun and flirty romance full of relatable characters and interesting situations. Lia Riley knows how to write a great story and this one is no different. I loved it and Brightwater so much. I cannot wait for Wilder now.

I received a copy in exchange for an honest review. This does not influence my opinion in any shape or form.

I've been in this reading funk where I'm just not in the mood to read or if I start reading I can put the book down and go about my business. But *Right Wrong Guy* definitely was my exception. It's that perfect light contemporary romance that can get you out of any reading funk you maybe in. AND DID I MENTION A HOT COWBOY? No, well there you go. What better reason to read *Right Wrong Guy*?

*Right Wrong Guy* is the second book in the Bridgewater Series by Lia Riley and can be read as a standalone. But honestly you can kind of read *Right Wrong Guy* first then *Last First Kiss* because events overlap and you get the bigger picture.

It is written in third person. It is rare these days that I read third person but I really enjoyed Lia's approach. I personally would have loved to have been inside both Archer's and Eden's mind but I was really happy with what I got.

Eden at times was hard to connect with. She often made it difficult for me to like her simply because she was a bit weak and that really annoyed me. I wanted her to be as fierce as she was trying to be but sometimes that was lacking. She really pulled off the pamper princess thing and I was really afraid I'd hate her throughout the entire book but she turned out better than okay.

Archer, well he's a hot cowboy what more can I say? I'm kidding. But he's also sweet, incredibly loyal and one hell of a man.

What I loved most about *Right Wrong Guy* was the fact that both characters took a chance. They wanted to right the wrongs they've made in their lives. I personally loved how the title played out in the story.

Seriously, I swooned so many times through out the book. Grandma Kane had my heart melting. Archer definitely had me melting to a puddle. And at the end of the morning (it's three am as I type this) I can

honestly say I have a huge smile on my face and my heart is pretty content with this book.

I do plan on continuing this series especially because book three sounds AMAZING. I personally thought it was about Kit but hopefully a book about him is in the works because I'd love to read it and Grandma Kane's love story would be a perfect novella for this series. I'm just doing wishful thinking but really I'm really enjoying this series and look forward to whatever Lia Riley writes next.

4.5 out of 5

Right Wrong Guy is Archer Kane's book. He's the youngest brother and is quite the player. He's almost famous in Brightwater for his horn dog ways. But he's so adorable it's hard to dislike him. This book opens when he's just waking up from a wild night in Vegas, spent with a couple of, well, showgirls I guess, showgirls with aspirations to be ventriloquists. The whole scene is hilarious in a Hangover movie kind of way.

Eden Bancroft-Kew is the heroine. She is about to marry in Vegas when she overhears her jerk of a fiancé on the phone with his girlfriend. Of course she realizes that she can't marry him and hightails it out of the hotel before he notices she is gone. She's sitting in a restaurant trying to figure out what to do when Archer comes and sits down with her. Through the conversation, she discovers he comes from the same town that her cousin recently purchased a house in and decides to hitch a ride with him. She's a city girl from New York and he's a good old country boy and they seem to have nothing in common, but Archer is smitten with her and realizes right from the beginning that she is different and the feelings he has for her are different.

But Eden, or Edie as she now wants to be called has serious issues. She'd been bullied most of her life and that's left her feeling pretty insecure about herself even though she appears to be self-confident. She decides to open a bakery in Brightwater and Archer will do all he can to help her.

Normally I'm not very fond of the "playboy" type of hero but Archer is just too cute and funny not to like him. He realizes how shallow his life had been before he met Edie and he really wants to change for her. But with his reputation, combined with Edie's insecurities, he has quite the battle to fight to prove he's worthy. Factor in Edie's ex who turns out to be a real jerk and her reluctance to confide in Archer and it makes for believable conflict.

As with Last First Kiss, I really liked the story. It happens about the same time as Last First Kiss so a few scenes are in both books. Sawyer and Annie play a role in this book but not in an overwhelming way.

I liked this one just a teeny weeny bit better than the first and was surprised at this as I usually turn my nose up at this kind of hero

### **Books and Spoons says**

A well written romance story, perfectly mixing the steamy passion between the characters, with the tender adoration they feel for each other. Written with humor, adding a bit danger and family drama, the author

delivers an entertaining and enticing tale.

In the small town, where everyone knows each other, where family values are appreciated, and possibilities are endless, Eden wants to start a new chapter in her life. After the last minute rescue from a miserable future in Vegas, by the hot cowboy Archer, Eden feels it was a destiny, that Archer comes from the same small town where her cousin recently located.

Archer is tired of the old playboy ways, he is ready for a change, and when his grandmother requests his presence at the family farm, as the new manager, he is ready and willing to take the step.

The romance is well built and timed, I liked how Archer gave Eden time and space to get her footing in the new town, to find her place. The courting of Eden doesn't go quite like Archer planned, thanks to the rumors of his wild past, and the ex who is blackmailing Eden. Still the feelings they have for each other are clear, and getting deeper. Archer's devotion to Eden is so sweet, the way he stands up to her in front of his family, the way he takes her breath away, with the things he says to her. It is like for the first time Eden truly sees herself through Archer's eyes, and starts to bloom.

Witty, enjoyable, cheerful small town tale, that left me smiling
