Riley's Downfall Lynn Hagen

[Siren Everlasting Classic ManLove: Erotic Alternative Paranormal Romance, M/M, shape-shifters, HEA]

Riley is one confused bear. He is quiet, moody, and aloof. He isn't even mischievous like his six younger brothers. So why on earth is his mate a peculiar man that is Riley's polar opposite?

Sterling loves the Lakeland ranch. He is especially enamored with one big bear shifter named Riley. The problem is, Riley won't give Sterling the time of day. The man ducks and dodges Sterling every step of the way.

But when Maverick calls in a favor for Riley to be the temporary leader of the fey, Sterling finds himself in an elven village far from the ranch, and Riley isn't too happy that Sterling stowed away in the back of his truck to get there.

Riley has been handed a huge responsibility. Maverick even called in a favor and had Max, Eagle, and Chey come to help Riley out. But his concerns aren't with the fey. It's with one slim human that just might be Riley's downfall.

Note: Each book in Lynn Hagen's Brac Pack collection focuses on a different romantic couple. To enjoy the overall story arc and crossover characters, we recommend reading the series in sequential order.

3rd Reading 1-6-15

I really do love Sterling, but this time around I was hoping for more from Riley. I think I wanted him to be more gruff or something. I wanted him to hold out a little longer. I don't know. Guess I wanted more of a conflict between the two since they are SO different.

Somehow I rated this at 4 Stars, but to me it's really 3 Stars so I will be lowering my rating. I truly feel like the 4 Star was an accident and I meant to put 3 from the beginning.

This was book 29 in the "**Brac Pack**" series. This was one of my favorite books in this series. Riley Lakeland has met his mate and his downfall Riley who is moody and quiet mate that likes to talk and is a lively person. Sterling came to Brac Village with his brother Darcy he sees the world in a different way. Sterling chases after Riley who continues to push him away. Riley doesn't know why fate has given him Sterling as a mate he is older than Sterling and a lot quieter and set in his ways. When Riley is asked to help with the wood elf's he agrees but before he goes Sterling ask if he can have a piglet and he agrees this was so funny because he names the pig Bacon I laughed through this whole book about that and he treated her like it was his baby even getting her nails done. The wood elf's have a lot of problems and that don't want outsiders coming into their village telling them what to do. When Riley gets there he finds out that Sterling has tagged along in the bed of his truck. Sterling thinks that Riley doesn't want him but he does and he has stopped denying it. When rogue vampires attack one of the elf's Riley and some grey wolfs from the **Pride Valley Pack** the also find out that some of the elf's have made a deal with some hell hounds to give them a young elf as a sacrifice once a month. In this book we also find out who Bryce's mate is and that he has been hiding the fact. Sterling has a fit when Kenway the large buffalo shifter told him he was weird because he was treating Bacon like baby and had her nails done it was funny Riley thought that his mate was being attacked. We also meet a young vampire that looks like will be Kenway's mate. This was a really good book this book was well written although I did find two errors in spelling, but I still loved this book.

Is there a SIX star rating? This is the best in the series HANDS DOWN! It is longer than the rest so there is more character development and the story is savored instead of rushed through like most of her books. Sterling is adorable and hilarious as expected BUT it is actually little Bacon who steals the show. Riley's transition from anal retentive, loner and perfectionist to a loving mate with a sense of humor was so perfect and naturally done. We revisit my favorites Heaven, Chauncey, Chance, Chey, Eagle and Max as well. We also get insights into Maverick's sentimental side.

This just exceeded my expectations. My verdict: Riley's long awaited love story is worth the wait and higher price tag. Had they added Johnny and Hawk in this mix I would have passed out in sheer joy.

Been a while since I looked at this tangle of series. I have to admit, coming back is better than I'd expected. Oh, this volume was not great, but apparently I've been reading mostly short books lately so a little more meat to the bones of the story made for a nice change.

Here's the thing. Sterling is sweet, which I like. Riley, though, is a jerk. And he has as little reason for his

jerkishness as he has for his sudden turnaround, so this is not in the least satisfying. Honestly? Sterling would deserve much better. Alas, fate is a bitch.

Sure, by the end they're blissfully happy together, so that's all right, I suppose.

Maybe this is the wrong author when it comes to holding out for a *pair* of heroes to really love.

Meanwhile the overall story continues. More future pairings appear and the dire general situation becomes increasingly tense. Meh. Makes me crave cotton candy fluffy lightness.

Now Sterling is an acquired taste and not many people like him but in the previous book he was the hottest thing on two legs that ever walked this earth and no one could resist him. Make up your mind.

What is up with characters thinking mundane and completely irrelevant things during fights? I have a feeling like their thinking takes too long and then I'm thinking "why is the bad guy just standing there waiting for the good guy to finish his thoughts?".

At least I had a laugh.

OMG!!! the funniest story of this series, it was great.

This Author doesn't disappointing me, I'm always waiting impatiently for the next sequel.

In my humble opinion, this is not a stand alone book, too many things are happening and I'm afraid you will need to read the previous stories to get the plot right.

Finally Riley's story! He's been the serious brother the entire time and we kind of figured Sterling was his mate in the last book. And Sterling, oh Lawd, that man. He's like a ray of spastic sunshine. And an annoying one (to Riley). He talks to all the farm animals and decides to take one of the piglets as a pet. That was my favorite part of the story. Getting the piggy's nails done etc.. too funny. I felt so bad for Sterling because

Riley was such a giant ass but he eventually makes up for it...kind of. Another sweet, action packed story in the series.

I am a great fan of Lynn Hagen's paranormal universe and have good fun following all the different story arcs. I love the way the different groups of paranormals cross into each others storylines. It makes for a really interesting series, possibly confusing for the uninitiated but fascinating for fans. Out of all the different packs/groups of paranormals the Lakeland bear shifters are the best, followed by Maverick's wolf pack.

I really enjoyed this story and liked this pairing between Riley and Sterling, seeing the contrasts in their characters. It's a great story with an amusing pig who could rival Babe. This is the best story so far. One would think that with this huge array of characters and families, packs and worlds that Lynn Hagen would run out of steam, but she hasn't and I for one am very happy about this!
