## Run Away with Me Taylor Holloway

**Our small town wasn't enough for Jason, so he left to conquer the music world. Now he's come back to conquer me.**

Jason and I both dreamed of escaping our tiny town, and those dreams brought us together. I was the wholesome cheerleader and Jason was the hot, older bad boy I couldn't resist.

Everyone but me thought Jason would never leave the junkyard where he'd been born.

Everyone was wrong.

Now I'm a waitress trying to avoid marrying the guy my conservative parents picked out for me and he's a real-life rock star.

There may be no place in Jason's life for the girl my parents want me to be. But he's always had an exceptional talent for convincing me to break the rules...

***Run Away with Me* is a standalone second chance, rock star romance featuring a bold alpha hero and his sweet and sexy heroine.**

## From Reader Review Run Away with Me for online ebook

### MJM says

Jason's life was not easy. He lived on the family junkyard with his mum, some animals and that was that. No father. They lived a very sparse life and were often the subjects of spiteful comments by people in the small town in which they lived. His first day at school, all but one child was mean to him. That person was little, gorgeous Wendy. Now Wendy was a few years younger than him but he was put in her reading group as he couldn't read at all {no he wasn't illiterate but to find out you need ...more

Nov 25, 2018 Ashley Hall rated it it was amazing

I absolutely love this series. I started out of order, but as soon as I have a chance I'm going to go back to the beginning and start over. Reading out of order doesn't necessarily hurt the book's story lines in any way. But reading them from the beginning of the series and in order gives you a more in depth look at each of the characters. The characters all bleed into each other's books. It enhances each book going into the next with each character's personal story blending them together. These ...more

ONE DELIGHTFUL TALE!!!

Talk about keeping the home fires burning. Wow! This gives long distance relationships a whole new meaning. A whirlwind of emotions and events that really draws you in and holds your attention until the last word. All the twists and turns, unexpected circumstances and unpredictable surprises around every corner make for incredible experience. The drama, excitement, action, heart pounding, pulse racing, smooth flowing, page turning, heart melting adventure is such a sweet an

Nov 25, 2018 Debra Richardson rated it it was amazing

The book is an amazing heartfelt and exciting second chance romance with a grabbing well-developed plot. It is an engaging page turner that is well-written and moves along at a brisk pace. The storyline is great and emotionally deep; the characters are realistic, funny and interesting. Jason and Wendy get a second chance at love and happiness, and even though there were a number of obstacles to overcome, got their HEA. This book is a part of the 'Lone Star Lovers' series and can be read as a sta

Nov 25, 2018 Carol rated it it was amazing

What a wonderful book. That poor child being mistreated by teacher because he was dyslexic. That made me so mad. Then Wendy befriended him and they became inseparable through Wendy's high school years. When Jason decided to leave town, it broke her heart, but he did it for her. That he became a famous rock star was a surprise, but she was very proud of him. They met up again 10 years later and started seeing each other again. I liked how the story talked out their issues and gave his perspective

Oh this one is just too good! Wendy is Willie's granddaughter and she's trying to find her place in life. But when her childhood sweetheart Jason walks into the bar her world is thrown upside down. I loved all of this book, every single word. It's the kind of love story that gives you the good feels and the ending will make

Falling in love with the outcast she befriended when they were kids was the best thing in Wendy's life until the day Jason told her he was leaving their small town and that she would be better off without him. It killed him but knew it was for the best. Cut to years later and they bump into each other in Austin where she works and he has turned his life around and become a famous rockstar. Hotter than when she last saw him (if that was possible) she realizes he still has a pull on her. Soon she

Nov 26, 2018 McKeesha Stevens rated it it was amazing

I thoroughly enjoyed this next book in the series. Wendy and Jason were destined to be together they just took a detour along the way. It really brought home the point that if you just communicate how you feel so much time would not be wasted. This book kept you waiting to see what would happen and I enjoyed seeing some different sides to some characters from past books who I didnt like. Now I am interested to see what happens next with them.

This can be read alone, but I loved this picks up where Taylor's last story ended! Wendy and Jason were high school sweethearts, but she ended it so he could realize his dreams. Jason always assumed she never loved him, but know that he is a famous rock star who can have anything he wants, he realizes all he wants is Wendy. Wendy left her small town and overbearing parents and wants to live life on her own terms. The last person she ever thought she would see is Jason. Their chemistry is still t ...more

This was a enjoyable second chance romance. Wendy and Jason were high school sweethearts until he left town breaking Wendy's heart. Years later, Jason now a rockstar has come back to town wanting to get back with Wendy. Will Wendy give Jason a second chance? I really enjoyed this book it was well written with great characters and an entertaining storyline. If you like second chance romance you will love this book.

Love the title for this book. He really ran away to do the right thing at that time. She didn't seem too down about it until he popped back in her life. She did what women would normally do, ask questions that needed answers. He was honest with her so they could move forward in their relationship. She was always for long term with him. Even after he left. First loves are always harder to forget. Glad they made it work. Liked the story line, just enough drama and all around good read.

Wendy and Jason grew up together in a small town in Texas and Jason was determined to leave as soon as he could. When he turned twenty he packed up and left Wendy behind heartbroken as he was the first everything and the man she wanted to spend her life with. Years later she moved to Austin working at a bar when Jason walks in because his world famous rock band is on break. They start up where they left off but Wendy knows he's not the sticking around type and Jason doesn't feel like he's good en

Shelves: arc, ebook, christmas

I really liked this story, it was sweet, sexy, funny and lots of feeling. The characters were well developed. and likeable. Both didn't feel worthy of the other, both were in love with each other since grade 2 and both were afraid to tell the other that they loved each other. This entertaining story was a pleasure to read and I'm looking forward to more in the series. \*I received an ARC of this book and this is my voluntary and honest review.

Everybody deserves a second chance...

When Jason left town, he felt it was what was best for Wendy. Was it? What will happen when he finally returns? This was a wonderful read. The story-line flowed and the characters were believable. With each new book Ms. Holloway continues to capture and keep my attention.

Nov 27, 2018 Marilyn Smith rated it it was amazing

Jason and Wendy were high school sweethearts even though everyone thought they were wrong for each other. He was the bad boy from the wrong side of town and she came from wealth and was a good girl. When he turned twenty he left town as he thought he wasn't good enough either for her. He becomes a rockstar in a band and is famous. He comes back to town eight years later and runs into her in a bar where she's a waitress. They start talking and find that the old feelings are still there but she kn

Great second chance romance.

Witty characters and engaging storyline,it was definitely good book.

She was only person who believe in him even all town had different opinions.

He love her since he was child. He let her go because he believes,he doesn't deserve her.

After few years been separated they trying again . They have better chance now

This reader became totally addicted to this novel. It was total immersion from the beginning of the story right through to the end. This story portrayed the romance of the two main male and female characters, interwoven between many a blip on the horizon. The characters grew up together and have known each other since early grade school. They went their own way after high school graduation. Their paths intersected a number of years later and the spark between them began to flicker with life. The

## AD says

### Not the best of the series

I really wanted to like this book. I haven followed the series and read the other books. I had read the teaser and thought I would be ok with their past relationship. After reading the story I couldn't get past one major thing. The hero had supposedly loved her his entire life and basically martyred him himself for her when he left. Yet, he never looked back and turned into a rockstar cliche (and of course he was a super slut, because we couldn't have one of these books without the author reassure us of a mans virility via his inability to keep it in his pants). Hell he never even checked in on her to see if she was living her dreams even though he was in one of the most famous bands on the planet and would have been able to help her, their relationship didn't end for some profound reason. This wasn't a miscommunication situation or man scorned etc. No he left the girl who was his other half (and he hers) since the third grade, because he had to get out of that town. He left her with tears streaming and begging him not to go, basically because she wasn't enough for him. So she gets to go through the next 8 years seeing him in the media with woman after woman etc. It didn't bother him at all to know that he know that he broke her heart and then via the media rubbed her nose in how much better off without her he was. This girl who had loved him her whole life who given him everything. Then he accidentally runs into her 8 years later and decides instantly that he wants her back... WTF?!?! Sorry he doesn't deserve another shot. He used her to have someone who gave a crap about him when he was young and tossed her aside when he felt like it. If he hadn't went out and became a slutty d-bag and had actually come back to deliberately seek her out, I could have believed that he truly had just wanted better for her and had really loved her. The way it played out just showed he was an obvious narcissist and she deserved better. But of course she gave in way too easily and he was able to have this pretty amazing life with everything that he could have ever wanted, while her story is one of heartbreak. This wasn't romantic... How do they explain it to the kids "well sweetie, I was in love with your dad my whole life and begged him not to leave me, but he broke my heart so that he could spend 8 years whoring around and making his dreams come true. Don't worry he found me working my butt off in a bar one day, when those young fun years were over, and decided I was worth settling with"... No thanks. This story is more like a mans ideal love story than a woman's.

---

## Paula says

Yet another one of those reads where H & h are childhood sweethearts & in love but Douchebag hero has no problem leaving her behind in pursuit of his career and becoming a Manho - all while he returns years later (7 or 8 in this case) claiming that heroine was always the one. Yada, Yada....

Yeah,no thanks.

---
