Sorcery and Sin: The Complete Trilogy Justin DePaoli

Sorcery is a sin that has been purged. But now sin is the world's only hope.

This gripping collection includes all three novels of Sorcery and Sin, an epic fantasy about the return of vengeful dragons, a world annihilated by forbidden sorcery, and depraved gods on the verge of madness.

Book 1: The Dragon Thief

Sorcery is a sin that has been purged. But now sin is the world's only hope.

Lavery Opsillian would trade anything, even his ghostly friends in the city tombs who comfort him, to have his father back. Instead, he must face reality as Valios' new king.

But his kingship is short-lived. Seized by cutthroats and held for ransom, Lavery learns he possesses a gift he soon deems a curse, but one that may well douse the flames threatening to engulf his world.

Sorcery has returned, and dragons are coming.

Book 2: Reign of Gods

Oriana Gravendeer wants to change the world. But first, she must conquer it.

With a powerful kingdom as her ally, a brood of dragons at her disposal, and sorcery at her command, overthrowing the powers of Avestas should prove effortless.

But when an unsettling horror washes ashore and allies turn, Oriana's hopes begin to crumble. Worse, a malevolence has awoken in the North, and the world will know why sorcery is a sin.

Gods are coming. Gods will reign.

Book 3: Wrath of the Wraith

In a land where winter prevails eternally, Lavery Opsillian searches for a necromancer to save his world from the brink of calamity. But he instead confronts a chilling betrayal by those closest to him.

Worse, he learns that the baleful goddess who seized his world is hunting the same necromancer, for purposes far more sinister than he ever imagined.

But Lavery has a secret he hasn't yet revealed, and soon the world will know his wrath.

Cody Anne says

Rapid action, epic in scale.

If you think all sorcerers are all the same. This one will make you go what. Sorcery is very different in this world of Mr. DePaoli. Instead of no price exacted for your spell, this one takes something from somewhere far away it never comes back.

This book has the feel of stepping into the characters shoes, so to speak. It's like you are living the story as the characters are.

The story has a fast pace rhythm and swords,sorcery, dragons, and fiends. You'll travel to go continents. And learn of unspeakable atrocities committed in the minds of madness. You're going to love the characters and how they each on their own, view what is happening to the world and their immediate family and friends. I'd recommend the to anyone who loves fighting for what is right.

gordon says

Sorcery and Sins

Chose this series based on the title. It did not disappoint. Good story, great characters, well written yarn. Will recommend this author.

andy fossey says

Worth a read

Very good trilogy of bokks. just got a bit frustrated with bad spelling (this maybe when it was made an ebook)

Scott Sammons says

Solidly blah. Perhaps I have read too many books of this kind. It seems highly derivative. The long read has some value to reader who is was jaded than myself.

Najla Zalif says

Thrilling!

The twists and turns in this book were masterfully done. I've found my new favorite author of the month. Yay!

Tina says

An epic adventure all rolled into three books. Our main characters, Lavery, the child king, kidnapped shortly after taking his throne by Elaya. A wannabe mercenary trying to make a name for herself. Then there is Horace, a spymaster trying to protect the land and kingdom he loves. Oriana, a princess cheated out of her throne by her evil sister. And the necromancer destroying villages to build his army of the dead. There is evil coming and it's trying to destroy humanity. They are in for the fight of their lives. The characters each trying to find their way in a changing land. Sorcery, insane immortals, living dead, dragons and demon are all fighting to survive.

I loved this story. It inspired me to want to do better things. Reading about the life blood pulsing in the characters was exhilarating. Would recommend to anyone looking for adventure.

William Mayes says

YA

At times the characters sounded like teenage girls. Grumble rumble tummy... Etc. Way to much banter in groups. That being said the story line was decent, so i did read it all.

Louise says

Have this as a trilogy on my kindle. I am just over 65% of the way through the set and it is driving me mad. It is unnecessarily long winded. So many things happen that just do not need to. The story itself, is actually pretty cool, but wading through the constant nonsense of such a huge ensemble of characters is just soul destroying. I haven't picked up the kindle on 2 days, because reading this is starting to feel like a chore. I am curious as to what will happen, but I don't want to know that badly.
