The Fabled

S.L. Gavyn

The Fabled S.L. Gavyn

A vision of their destruction from the strongest Oracle to have ever lived forced them to become the Fabled.

An immortality elixir given without concern caused her to lose the love of her life.

Now, Sunny Dubois has become an agent of the Council of Elders enforcing their laws and keeping their secret.

Bodies of Vamps have been showing up in Dallas, and Sunny is called in to find out who killed them. She figures out quickly that these are no ordinary deaths. Someone is targeting new Vamps and there is only one similarity, a club called Eternal Darkness. The only problem for Sunny is that this club is owned by an old lover. One she has never forgotten and never will.

Roman Alexander has wandered this world far longer than he would care to remember. He was used to getting what he wanted either by coercion or force, but there was one thing he wanted and couldn't have. The woman who stole his heart and crushed it.

Now, Sunny and Roman are forced to work together to find a killer before it's too late. If they can manage not to kill each other along the way, they might actually succeed.

From Reader Review The Fabled for online ebook

Gwen E says

Good sub plot

Ok so the story obviously is about the creatures of myth and fables. This book the main story is actually a love story with a sub plot of world domination. I enjoyed the secondary plot that I thought was the main ploy and could have done with a little less romance. The characters had their moments but could use a little more fleshing out. Overall a decent read for an afternoon.

allison says

Pretty good

I read tons, probably a book every 2 days, so if a book can keep me interested the whole way and make me want to read the sequel it is a pretty good book. The Fabled had entertaining characters and good plot development. I am not going crazy to find out what happens next, but I Will most likely get the next book in the series because I like the characters. The author tied up the romantic interest half way through the book, so that aspect is no longer a drawing point. I mean yes everyone loves to find that special someone, but isn't so much more fun to drag out the sexual tension and offer various outcomes to the romance angle rather than tie it all up in true love found in the first book of the series. But as I said the characters and the story development is good enough to have me get the next book, even if the author got rid of any possibility of sexual tension with the Hermione.

Charles Andrulis says

Popcorn book. Like popcorn, enjoyable but not a meal, not something that will stay with you.

Kreela says

Wow. just wow. There are few well written stories out now, and this one was worth three nights of my time. Sunny is a created Fabled. That descriptive word alone reminds me of a wonderful comic series I read, so I was intrigued enough to pick up the ePub. I was not disappointed. She is a superhero, a strong woman whose duty is to kill Criminal Fabled. The story revolves around missing Vampires, but it is thankfully not a police procedural. The plot is strong, the characters are well-designed, and the romance makes me flush with giddiness. You might like this if you like vampires, suspense, action, plot twists, and kick-ass heroines with a shot glass of romance.

Nazbit91 says

Urgh. I really want this book to be good! But it's so frustrating. The endless and endless back and forth unrealistic conversation is killing me. The world building is ok, but I still feel like there's something missing. I think the main character is ok. I like the fact she's an older woman - but something's about her are just dropped in, no context, no info, no hint that you'll find out more about it later. So it's a bit likeoh....ok. But I'm apparently only 17% of the way (I'm reading on an iPhone with the kindle app and I'm 854 pages out of 4815 pages) so maybe I just haven't got to the juicy bits yet?

I'll just keep swimming ...and will update the review when I get further.

Update.

Sorry I stopped at 35% it was too much. Awful conversation, dead description of the world and no proper world building now. I thought it would get better. I'm wondering if this was one of the authors first books? Cos I've read some of her other stuff and it's not this bad? But I just couldn't deal with it anymore. Three whole pages of back and forth conversation between characters like:

“Or perhaps I would have died of starvation alone in a hotel room with a dead woman.”

“That wouldn’t have happened.”

“Do you really think my life would have been better without you?”

“No. I guess we will never know what could have been.”

On and on and on and onrather than something like:

He looked at me, a scowl on his face, "Or perhaps I would have died of starvation alone in a hotel room with a dead woman."

I shook my head adamantly, "That wouldn’t have happened."

Tristan tilted his head to the side, eyes wide staring at me in disbelief "Do you really think my life would have been better without you?"

I sighed, not really wanting to continue this conversation any further.

“No. I guess we will never know what could have been.”

BUT ..who am I? I am no author, just a disgruntled reader who was disappointed with a potentially great book

Kathyef says

Great fantasy read that is not YA! Sunny was human until a Vampere fell for her. This is a great read about Sunny and her job for the council. She is an enforcer and hunts down the fable who break the law and kill humans. I really enjoyed that this was a mature read about adults and not young teens. I loved Roman and how he was so over the top in love with Sunny. If you like fantasy definitely read this one.

Joanne Pilkiw says

The Fabled

Another great book by SLGavyn, can't wait to read the second on book of the series. Once again the English and Grammer were not very good, but getting better.

Patricia says

This book captures the imagination. The Fabled live among us. They are what stories are based on so that humans will have a way to explain away the unexplained and the fabled will be able to live without fear. The character of Sun is a very strong woman who kills those of the fable who kill humans. She was born human but became so much more. In order to save the innocent in the fabled she must work with Roman, a vampire from her past.

I found myself dreading the times I had to stop reading to go to work or sleep, and even then I still finished this book in two days.

The author managed to prepare us for the next book in this series with a surprise ending and I for one will be following this series.

The blurb and my review can not explain in enough depth this wonderful world you are about to enter. In all fairness I need to reveal that I was lucky enough to win this book here on goodreads.....yet this in no way influenced my review.
