Join Howard Moon, Vince Noir, Naboo, Bollo, Bob Fossil, Old Gregg, the Moon, and all your other favorite characters on a unique and graphically stunning journey into the world of *The Mighty Boosh*

Incredibly funny, visually dynamic, surreal, musical, and wildly creative, *The Mighty Boosh* is unlike anything else on television, and this beautifully illustrated humor book promises to be the same. *Boosh* art director Dave Brown—aka Bollo the gorilla—has designed countless graphics based on *Boosh* jokes, including a poster for the Howard vs. kangaroo boxing match and a vintage Penguin-looking book cover for *Howard Moon's Trumpet Full of Memories*. Other artists have illustrated such essentials of the *Boosh*-iverse as the a cappella songs known as crimps and the eclectic hairstyles. Every *Boosh* fan will love Old Gregg's Baileys-fueled watercolors, Vince's Excuses for Being Late, and Bob Fossil's Guide to Dance.

Come with us now on a journey through time and space...

A must-read for any Boosh fan: the holy grail of The Mighty Boosh, including excerpts from Vince, Howard, Naboo, Bollo, Bob Fossil, Saboo, Tony Harrison, Ol' Gregg, the Moon (aka the chalky white ball bag hanging in the sky) among many others.

From the tales of Charlie's encounter with a black and white rainbow, to the crimp lyrics, to the tiny details like the page numbers, this is an absolute gem of a book. And we mustn't forget the masterpiece that is Howard TJ Moon's first detective novel: A Trumpet Full of Memories.

This is my friends, AN OUTRAAAAAAGE!

Jenny says

Oh My Mighty Boosh!

The book is beautiful. The pictures are beautiful. The illustrations are wonderful. Some pieces plucked from the screen, plenty of new fodder as well.

I found when starting the book, that I had to read the WHOLE thing in the voice of whichever character was narrating. Both in silence, and aloud. Turns out, Im a good Bollo.

Anyways, its super-great. I only gave it 4 stars right now, as I feel that it needs another read-through before getting the 5th. Just as the first time I watched the show, I was intrigued, but hadn't yet settled into the land of the boosh. By the 2nd episode, I saw the genius it held.

Oh, and the kitties liked the ribbon book-mark.

Jacob Shelton says

This book was filmed with sashimi, good stuff too.

Sophie says

When I was 16, I was a huuuge fan of The Mighty Boosh - I watched all the series, was part of the fanclub, went to the tours, and actively sought out other work that the cast had done previously. I enjoyed the chemistry of Julian and Noel, the creativity of the worlds they created, and the crazyness of the stories.

Being *ahem* 10 *ahem* years later, I was intrigued to read this book, knowing so much about the show and having been such a big fan previously. The book brought back lots of nostalgia, and offered lots of behind the scenes photos etc. However, a lot of the content is regurgitated from the series - though beautifully done.

I wonder if perhaps I have outgrown the Boosh. I still enjoy it, but not at the fantatical level I used to, and because of that I think that part of the charm of this book was lost on me.

Lochlan Ashton says

If you love the boosh this is for you.

Therese says

Best coffee table book ever! Being a huge Boosh fan, I was delighted when I saw how much care and effort went into this book. It's not just a cheap ploy to get die hard fans to shell out cash on crappy merchandise.

Open it to any page and you will be assaulted by the visual spectacle of life in the Zooniverse or the Nabootique via photos, stories, and illustrations from all of the main and recurring characters of the tv series. Best of all is an excerpt from Howard Moon's truly awful jazz novel, and the email correspondence between Saboo, Tony Harrison and Dennis entitled "An Outrage at the Shaman Lodge".

Robert Monk says

I don't know if this would be the place to enter into the weird world of the Boosh, but if you're already conversant in crimping, this book is worth checking out.

Maddy says

LOVE the Mighty Boosh? **Imagine!** having all of their wonders written down for you to read at any moment you like..

...exactly.

Lindsay says

It's the Boosh, so of course it's brilliant! Plush, with fantastic Zappa-esque artwork. Lots of new material and some recaps.

My favourite part had to be Julian's Jazz-Noir masterpiece, 'A Trumpet Full of Memories' by 'Howard Moon,

Jazz Detective'.

Much as I appreciate Noel, Julian has always been my favourite of the pair with his surreal, satirical take on various forms of long-suffering, driven, fanatical, unfashionable and slightly tragic artists such as the under-appreciated jazz maverick, the reclusive and controversial film-maker who insists all his writing be buried in forests to avoid human contamination, the self-aggrandizing solitary ':' explorer who dreams of being remembered in centuries to come, the ridiculed 'cream-poet', the elbow-patch connoisseur, the Santana-esque priest Rudy ("I go by many names...")... the list goes on.

Other highlights include:

Bob Fossil's guide to dancing,

Bruno Mindhorn's psychedelic interludes,

Noel's graphic novella 'Charlie and the Black and White Rainbow', rather like Yellow Submarine meets Warren Ellis,

Old Gregg's romance with the GNR guitarist Slash.

Stephanie Griffin says

THE MIGHTY BOOK OF BOOSH is an oversize, full-color collection of mostly the same subject matter as the British comedy television show, 'The Mighty Boosh'. The show was on between 2004-2007 and featured Julian Barratt as 'Howard Moon' and Noel Fielding as 'Vince Noir'. Theirs was an hallucinatory world, where gorillas and other beasts talked, strange characters lurked in the forests, and conversations were often mind-spinning. There was singing, dancing, and all kinds of antics. They really went all-out on the book – the hardcover is glossy and embossed. They included a detailed list of contents as well as an index and an inserted 16-page comic called THE MIGHTY BOOSH IN BONGO NIHONGO.

Although the show was broadcast on television, this is very much an adult book with much swearing and sexual references.

If you love the show (as I do!) then you will really enjoy this romp through sketches, behind the scenes photos, and those great 'crimps'!

The book is a hodge-podge of colorful drawings, photos, handwritten lists, and preliminary sketching of designs incorporated into the show. There are a few new stories too. I think every character that was ever on the show is represented in some form, even my favorite: Tony "This Is An Outrage!" Harrison. Besides Howard and Vince of course, there's Bob Fossil, Naboo the Enigma, Bollo, Ol Gregg, Dixon Bainbridge and his Mutants, etc.

Not all of it works: some of the sizing made a couple of journal pages unreadable (you could use a magnifying glass!) and a small amount of ideas aren't really interesting, but for 95% of the book I was greatly amused and happy that so much of the show was recalled to mind.

If you consider yourself a fan you should NOT be without this book!

Mary Bernard says

Check it. It's sheer liquid wonderment.

Tara says

Well I read the pocket version but it basically the same. Except the pocket version has more stuff.

Atherly Jane says

A mix match of craziness that one would come to expect from travelling on a journey through time and space... all the favourites making an appearance, crimps and stories... all conveniently located in one book!

Payge Rustad says

Love the Mighty Boosh

Lee Thompson says

I love the Boosh. Easily one of my favorite comedy shows. For those who have never heard of them this book will seem like the scribblings of either a mad hatter or a retard, but to those who enjoy creative, surreal, and slightly raunchy humor, this is fun stuff! Lots of great stuff that isn't in the show, too.
