Catherine Coulter's FBI series "twists at every turn" (*San Diego Union-Tribune*). In two of her most gripping books-*Riptide* and *Hemlock Bay*- FBI agents Dillon Savich and Lacey Sherlock face dangerous threats in both their professional and personal lives.

In *Riptide*, trouble follows an intrepid reporter to the quiet coastal Maine community, and Savich and Sherlock must face down a KGB agent to find the truth.

In *Hemlock Bay*, the two travel to Maryland to take down the satanic child-killing Tuttle twins.

Catherine Coulter never disappoints .

### **Donald says**

The first story, Riptide, could have been a very engaging tale. It certainly was a novel length manuscript. But at some points it felt like an abridgment with just the facts and none of the feel. This reader got the sense of a skipping stone touching down on the surface for the very briefest moment without getting wet.

Sometimes the language got in the way of good storytelling. One does not streak their fingers through their hair; for instance. Streak is a word reserved for things moving at the speed of lightning. And even if one could streak their fingers through their hair, such an occurrence could only be performed by a super-hero, or a psych patient hopped up on a case of Red Bull. This is only one example of poor word choices acting as speed bumps to an otherwise good read.

Occasionally, the characters appear to do or say things cardboard cutouts do or say to further the plot rather than what would normally transpire based on their personalities.

Read the second story, Hemlock Bay. It was better than the first one in that it read like a more complete story. Still, there was the issue of poor word choices—a problem with the language. For instance, I was taken out of the story when I read that someone was as bald as a Q-tip. It struck me as totally wrong and so I was disengaged from the story. The phrase is, as everyone knows, as bald as a cue ball. It's those poor word choices which act as speed bumps to a good read—one which flows from the page to the brain smoothly.

### **Shannon Miller says**

Riptide - Annoying lead character, very dense.

Hemlock Bay - Brother/Sister relationship borders on creepy. The Tuttle story line is unbelievable.

### **Tina says**

Riptide was actually a rip off. The characters were professional one minute, then inept and stupid the next. The romance was awkward and unbelievable. And the plot was all over the place. Tyler and Sam were really unnecessary to the story, as was the skeleton in the basement.

Hemlock Bay was better, but all of Coulter's characters seem to be witty smart asses.

### **Dorothy Ottinger says**

Two books in one; the first book being good, and the second one, not so enjoyable

### **Deejay Gardner says**

This FBI series is fun and exciting. Read them all. You won't be disappointed and you'll be waiting for the next one to come out.

### **Pamela says**

I got this book as a gift and read it again. I had read both the stories as individual books a long time ago. This was fun to re-read this book, but I wish it had been a new story. That is confusing when some people know you like an author, and it is a new title....that being said..If you have not read either of the books listed at the bottom..read this one..good reading, and two for the price of one.....She is one of my favorite authors.....

### **Gevera Bert says**

The writing just wasn't that good. Everything having to do with Sean felt tacked on. And the dialogue was really clunky and bad. The story was okay. Stories.

### **Stephen Hinkle says**

Another great thriller by Coulter! I love the sub-plots.

### **Aletha says**

Catherine Coulter keeps you on your toes in both Riptide & Hemlock Bay. Great mysteries, full of suspense with a bit of romance thrown in for good measure.

### **Karen says**

I lost a lot of sleep over this book. I just could not put it down!

### **Mary Ann says**

This is actually two FBI stories in a single book. She is a skillful writer overall, but I especially appreciated her descriptions of people and places. She gives enough detail to let me imagine them clearly in my mind, but without ever being intrusive or slowing the pace.
