A sick sick SICK-in a good way- novel :D:D:D...

In this novel, Eissa basically messes w/ our minds using words, his imagination hits a total new level in this novel, I'm not used to reading novels in this Genre-thriller- and I bet that not many novels r as messy-also in a good way- as Eissa's Asba7 watanya...

Read this novel couple of years ago, immediately after "Maktal Alragol AlKabeer",and it left me like hypnotized or sthing dunno, but also in a very good way, totally loved it..

If u r an adventurer, u better give it a try, highly recommended ;-)
