Amy ~ Love At 1st Read says

I love the retelling of fairy tales and Cinderella has always been my absolute favorite. Who can resist the tale of a girl who escapes a nightmare situation to see all her dreams come true with the help of her friends? In Enticed by Lady Elianna, Amanda Mariel writes an entrancing, empowering, romantic version of this classic tale.

At 17, Lady Elianna, daughter of the Earl of Berkly, had dreams of her first season, being treated as a lady of prestige, finding a husband, and having a family of her own. But then her father died and a distant cousin assumed the title. Now Lady Elianna no longer existed. She was but a servant to the new 7th Earl of Berkly and his family.

On a trip to London to take Lord Berkly's daughter, Caroline, shopping for gowns for her coming out, Elianna meets Garrett Tumbly, Viscount Sinclair. They are immediately charmed by one another. But Garrett doesn't believe in love after his parent's disaster of a marriage, and Elianna knows she cannot reveal who she really is or it could harm her future. Garrett, a sucker for damsels in distress, is certain that Elianna is not what she appears and needs his help. He attends the Berkly house party and ball, dodging Lady Caroline and her match-making mama, in hopes of learning more about the intriguing Elianna. With the help of her friends, Elianna, who is desperate to at least have one dance with the handsome Lord Sinclair, makes plans to attend the masked ball. But she must leave before midnight or the Berklys may discover her ruse.

This story has all the classic Cinderella elements- the wicked mother, the fairy godmother (or in this case fairy godsisters), an epic makeover, and a Prince Charming. But this retelling is unique. I loved that, unlike in the original story, Garrett met Elianna first as a servant rather than all decked out in princess attire. He didn't care about her social status but saw beyond that. He knew there was more to her and he was determined to learn all he could about her. I also loved that Elianna was no push over. She stood up to Lady Berkly when she wanted to attend the ball and took matters into her own hands. Rather than her dress being created with a "bippity boppity boo", she created it herself. And I loved that their attraction wasn't just love at first sight. Sure, the attraction was immediate but the rest developed as a result of stolen moments talking and flirting, and being themselves.

Ms. Mariel takes a timeless story and writes a perfect, well-orchestrated, and unique retelling. Though part of a series, it can be read as a stand-alone. I, however, am definitely going to be reading the earlier books in the series. I really want to know Rose's story. I can't wait to see what's next in this Fabled Love series. I'm

hoping Eli's friend Anna gets her happily ever after. If you, like me, are a fan of fairy tales and historical romance, this series will be a dream come true.

Marie Bourgery says

This was a Cinderella story. Lady Elianna's father dies, her cousin inherits the Earldom and tells her she has been left with nothing and can either become an unpaid servant to his family or be sent to a convent. She doesn't want to eliminate her chance to marry and have a family someday so she chooses servitude. They treat her horribly for 5 years, rubbing her nose in the situation, when she meets Viscount Sinclair. Garrett is attracted to her and knows there is more to her situation since she acts like a lady, but her cousin Caroline keeps claiming she is nobody and tries to trap Garrett for herself. Her fellow servant Anna arranges for Elianna to go to the mask ball remaking one of her mother's old gowns so she can dance with Garrett. Her cousin's wife finds out afterwards locks her in the attic just like Cinderella's stepmother. Despite all they do, they cannot keep Elianna and Garrett apart. Their romance developed a little too quickly. But I was happy her cousin and his family get what they deserved in the end.

Patricia Schuette says

Read as part of the Anthology Mid Summer Kiss. A young lady whose father the Earl passed at an early age without leaving arrangements for her. His cousin upon taking over the Title brings his family who proceeds to treat her as a servant to earn her keep.

InD'tale Magazine says

3.5/5.0

A blue silk dress, slippers, a curfew of midnight, a charming Lord, and insufferable younger cousin, this clean Regency romance is a sweet retelling of the classic Cinderella story!

Bobbie Sue says

Elliana has lost her father and her future is now dependent on the new Lord. Upon his arrival, she is given the choice to move to a convent or remain in her home as a servant to the new Lord's family.

Five years of serving her cousin's family and the only person who remembers she is a lady is her dear friend Anna, a maid in the house. While escorting her cousin to London, while walking in the park she meets Lord Sinclair. He is invited to a house party at the family estate.

Being intrigued by Elliana - even though she appears to be nothing but a chaperone - he is sure she is hiding a secret he plans to unravel, he accepts. And from there, Amanda Mariel leads on a dance of love and secrets. While trying to avoid Lady Caroline and find out what he can about Elliana, the party begins.

Ivy H says

3.5 stars.

Enjoyable but too short ! I felt that there were so many possibilities that were left unexplored. I know this is a novella but parts of it were too rushed and the conflict was sorted out in an extremely hasty manner. Nevertheless, I did enjoy this Cinderella-esque novella with a smitten H and an unbelievably nice and selfless heroine. The villains got their punishment and it was fantastic. The heroine's evil uncle had to repay all the money he'd defrauded from her and he was sent to debtor's prison. His wicked wife and ugly daughter Caroline were forced to hand in their expensive gowns and start working as scullery maids, while the MC's enjoyed a lovely epilogue with their newborn baby. I'm probably rating this a little too high, but I do love it when villains suffer. And it was awesome to see the H tell off the wannabe OW Caroline, who'd been following him, stalking him and harassing him. It was also great to see Rose (the wife of the H's best friend) slap Caroline when they found out that she and her nasty evil mother had locked the heroine in a dark attic. All of Caroline's dreams to be a rich countess came to nothing and since she ended up being a scullery maid, she'll be lucky (with her lack of good looks, as is always the case with the ugly "sisters" in these Cinderella adaptations) if a footman deigns to notice her...

Angie says

Elianna knew a fool when she saw one.... If she could peer into a looking glass at this very moment, a fool would be staring back at her.

Every now and again, I like to clean my book palate by reading something that I know will be a nice, sweet, HEA book/novella just to recenter myself and be ready to dive into heavier reads. Historical novellas--especially fairytale retellings--tend to accomplish that seamlessly, which is why I picked this one up.

This novella was a pretty classic retelling of Cinderella--complete with an absent father and mother for our heroine, an EVIL STEPMOTHER, a wretched step-sister, fairy godmothers in the form of really good friends, and of course a dashing viscount. Yes, the relationship between Elianna and Garrett was full of instalove, but with these novellas I expect (and want) that so it didn't bother me. The final twist we find out in the end concerning Elianna's dowry was *really* surprising for me and made all the dramatics at the end more plausible/acceptable. Overall, a great fluff read with surprising heart. Read it!
