Cheat Sheet Nancy E. Krulik

Bestselling author Nancy Krulik delves into the mind of a twelve-year-old who is trying to survive middle school.

It's the annual statewide history test challenge, and Joyce Kilmer Middle School has never had a finalist--until now! This year, there are two finalists, and they're both Jenny's friends. But one finalist isn't known for finishing at the top of the class, and The Pops figure someone must have cheated. The next day, the word is out all over the school! Could it be true? Is one of Jenny's friends a cheater?

Katelyn says

I liked this book because it was fun and it had this suspense that made me want to read it, it is a small book. At the end you realize that everything that happened has a different reason of what the characters thought. it's kind of complicated but it's nice.

Susan707 says

i think this is a good book for people who like short stories and also that they are in middle school because as you can see the title says " how i survived middle school". this book is good because this book relates to conflicts in real life like friendship, tests, enemies , and bullies. some examples in this book is like that Jennifer's friend is smart but doesn't express it so the bullies think that she cheated and that's how the subject is brought up . "Cheat Sheet".

Grace H says

In this book, students are doubting Jenny's friend that she cheat while she taking the test so he's in problem and some dispute in Jenny's friend. I think if you like to read realistic fiction, you might like it and it's descriptive and I think middle school girls will like this book.

Lola says

I love the How I Survived Middle School series for its delightful mix of realistic middle school depictions and purely ridiculous cattiness. How dare Lisa do well on a history test no one is even graded on anyway even though she struggles in school! *insert eye roll here* Do people really care this hard in middle school? Did I care that hard? Probably, but whatever. I wish I still had these books just to take the quizzes throughout. Those were great quizzes. Why didn't I have a website to help me through middle school? Nancy E. Krulik should have written my adolescent.

vampire (dipita) grul says

it so cool. it about her friends. there is a boy name josh he is so smart there is a girl named liza she isn't smart. but liza won something could she really cheat?

Amber710 says

I didn't think this was a very good book. To me I thought it really didn't capture the main idea. The only reason I did like this book is that because it really shows what kids go through in middle school.

Jenna says

A huge academic completion is under way and no one from Jenny's school has ever became a finalist. This year, two of them made it. The popular kids think that they cheated and they make posters and spread the word all over the school. Can Jenny convince everyone that they aren't cheaters, or will they all be made fun of?

Beyonce King says

Jenny is an honest person, according to the middleschoolsurvival.com quiz, but she doesn't know how truthful her best friends are. It's the national history test challenge and her middle school has never been one of the finalist until now. This year, there are two finalists and they are both Jenny's best friends. Jenny hears a rumor that one of her best friends could be a cheater in this competition.

I like this book because it shows how main character learns who her best friends are and who are not. I also like the book because I can relate to it. Do you think her friend cheated? Is she a good friend?

Mia Amhal says

I was pleasantly surprised by this story " How I survived Middle School #5 Cheat Sheet" written by Nancy Krulik. Which is about how a twelve year old girl is trying to navigate through Middle School with all the social groups and there is always that dredged group of "the mean girls" also known as the Pops. Jenny, the main character was not part of the pops but she had her own group of friends. Every year Joyce Kilmer Middle School participates in an annual statewide history test. Joyce Kilmer Middle School has never had one of their students advance to the finals. But this year two students made it through, both of which were Jenny's friends. The pops smelled something fishy right away because one of the finalists isn't the smartest banana in the bunch. The pops being so "popular" the word got out fast that maybe there was some cheating going on. As one can see, at first I wasn't very interested about this book, but towards the ending I got more and more attached to the story and I look forward to read the rest of the "How I Survived Middle School" series.

Christine (KizzieReads) says

Jenny and her friends have to take a State wide History test and someone gets accused of cheating.

I liked it, but I thought it could have been a bit longer. The other books in the series are longer, and with the subject matter, I thought it was a little rushed.

Elizabeth says

This is a really well-written book. It is about friendships and helping each other. When Liza and Josh get 100% on this big history test, the Pops lie about Liza cheating and get everyone to turn on her, but really she just had a learning disability and did get 100% on the test. A MUST READ!!

Jennifer Wardrip says

Reviewed by Elly for TeensReadToo.com

When Jenny McAfee's friend is accused of cheating on a history test, she doesn't know what to do.

By using middleschoolsurvival.com's online quizzes, she learns more about herself and her friends. The answers to the quizzes give Jenny the courage she needs to survive middle school. Her friends have funny personalities and give her good advice and their opinions on how they would handle certain situations.

This is a good story about the rumors, hierarchy, and games that are played in middle school, and ways to end or avoid them. I suggest this book for anyone entering middle school who doesn't know what to expect. This book gives a pretty realistic setting of what actually happens and will help prepare you.

By reading this series, you will have the confidence you need to survive and be successful in middle school.

Asma StylesHoranMalikPayneTomlinsonCrepeauGaliciaMango says

THis book was really great and really wanting to read after chapter 5.

Saharrah says

I gave this book 3 stars because it was really thrilling that two of Jenny's friends made the highest score in the school. I think that this book is great for teaching kids what happens if you were caught cheating. But is one of her friends a cheater?

Tina says

short, easy and cute to read.
