That package includes ISBN-10: 0321984242/ISBN-13: 9780321984241 and ISBN-10: 0321984706/ISBN-13: 9780321984708 .

For courses in Human Geography. A distinctly modern look at human geography Described as "fresh, innovative, and intelligent," **Human Geography: Places and Regions in Global Context** is acclaimed for its global approach, conceptual rigor, engaging real-world applications, and outstanding visual program. Knox and Marston foster awareness of current issues and developing trends from a geographic perspective, and provide a solid foundation in the fundamentals of human geography.

The authors integrate compelling local, regional, and global viewpoints to give meaning to people and places. By providing access to the latest ideas, concepts, and theories, the text deepens students' understanding of the interdependence of places and regions in a globalizing world. The **Seventh Edition** extends Knox/Marston's modern approach, integrating new technology as well as new visual and thematic features relevant to human geography today.

Also available with MasteringGeography (TM) MasteringGeography is an online homework, tutorial, and assessment program designed to work with **Human Geography** to engage students and improve results. Interactive, self-paced activities provide individualized coaching to keep students on track. With a wide range of activities available, students can actively learn, understand, and retain even the most difficult concepts.

From Reader Review Human Geography: Places and Regions in Global Context for online ebook

Mark Anderson says

This is a college-level textbook introducing the academic discipline of human geography. It encompasses the spatial relations of people to the places and regions they live in and makes use of sociology, anthropology, physical geography, demography, and history. The subject is truly global in scope, which was refreshing for me since as a working historian I consistently have to think locally in order to research in-depth. The prose is accessible and engaging and I hope to incorporate more geographical perspectives into my own historical analysis. If you have ever read any Jared Diamond (Guns, Germs, and Steel or Collapse), this book will help you understand the discipline from which he is writing. The most important thing I will take away from this book is a clearer understanding of the structural inequalities of the global economy that allow and even encourage need and starvation at a time when advancing technology and hard work have produced enough food for all people and more.

Haytham Badawey says

I like this book, it's kind of informative and eye opener. The data, charts, statistics give you an indication of how well developed or undeveloped the different nations of the world are. There are new terms and concepts that I've probably never heard of before reading this book. It's boring, but helpful.
