### **Laura says**

Boring, I know, I used this as a study guide, read it through 3 times, very applicable! I would not reccomebd this book unless preparing for the NCIDQ or as a college course. Good book none the less, was my companion for months

---

### **Cristina Mazilu says**

Bought this book for my college Interior Construction class. It's big, only text and a few drawings here and there, but it's a very informative book. It's packed with useful information and it's a must have for any ID student or a professional for that matter. Recommend!

---

### **Thasasi\_honey says**

it's so good
