I've read this book or listened to the audio about 10 times now. If you're interested at all in direct response copywriting, you owe it to yourself to get this book. People more interested in brand centered ad campaigns may or may not find this book helpful as he distrusts branding as a method for sales. Carlton is interested in results that can be measured easily because he recommends trying to make deals where you're paid something like 5% of gross sales return or increase in profits.

This is one of the best books on copywriting available. Carlton covers the basics of what you need to know and offers some incredible hints on how to write a great ad. I like it much more than Tested Advertising Methods That Sell or Scientific Advertising, etc. Carlton and Halbert (another you should read if you like/are interested in this book) write with a punchy, fun to read or listen to style.

?τι χρει?ζεται να ξ?ρει κ?ποιος για το Copywriting, γραμμ?νο σε ?να βιβλ?ο, απ? ?ναν απ? τους καλ?τεροους Copywriters αντ? την στιγμ?.

Πολ? μαζεμ?νο, to the point, σ?γχρονο (σε αντ?θεση με ?λλα βιβλ?α περ? C.W.) και με αρκετ? παραδε?γματα. Τα κλασσικ? σ?γουρα ?χουν κ?ποια α?γλη αλλ? ε?ναι πολ? ευχ?ριστο που κ?ποιος ?κανε μια προσπ?θεια να μαζ?ψει ?λη την γ?ση σε ?να σ?γχρονο βιβλιαρ?κι.

For those of you who are interested in how to market effectively. You'll probably like this book. The way John Carlton explains his concept is a simple yet powerful way of understanding direct response marketing and advertising. He'll explain to you human psychology and salesmanship (why people buy). He'll show you how to write kickass headlines that'll turn heads.
