## **Silver Dolphins: The Emblem of the Enlisted Submariner** Richard Hansher

This hilarious book is the only book that tells the story of the Enlisted Submariner. The author doesn't pull any punches describing the good, the bad, the funny and the just plain ridiculous of the Submarine Service. Besides a wealth of information about what it's like to serve on a submarine, you'll meet real life characters like Tongue, Snake and Button Butt John. Did submarines make them rude, crude, and crazy. Or does the Submarine Service act as a magnet for every nut in the Navy? One thing is sure, after two months underwater, and with their back pay in their back pocket, Sub Sailors are as wild as cowboys after a cattle drive. Bar the doors and hide your daughters. Every reader owes it to themselves to use Amazons "Look In" feature to take a peek inside this unique and entertaining book.

## **From Reader Review Silver Dolphins: The Emblem of the Enlisted Submariner for online ebook**

### **Larry says**

GREAT BOOK! Plus more than a few laughs with more than a little insight into enlisted life in any of the services. Best book I've read lately, and I've read more than a few!

---

### **Russell Howen says**

"Silver Dolphins: The Emblem of the Enlisted Submariner" provided interesting tidbits in the life in a submarine. Filled with details, Richard Hansher provided lots of humor which made this life palatable.

---

### **Glen says**

I won this book in a goodreads drawing.

A funny, nostalgic look back on the submarine corps. during the the Cold War. Very episodic, but in a good way. Told from the viewpoint of an enlisted man.

Completely different than all of the submarine movies.

I really enjoyed this one, but I'm glad I never joined the submarine corps.

---

### **B Page says**

This book brings to reality the dangers and hilarity of being on a submarine or just being in the Navy. I don't think I've ever laughed as hard as I did when I read this book. It's about the Navy and submarines, but all Armed Forces, and regular folks too, can relate to this enjoyable read.

### **M.L. Carr says**

He was in a bit before my husband's time so it's interesting to get a read on the diesel boats. The book is amusing and sometimes downright laugh out loud. A must for the guys who do or have done it deeper.
