## **The Fallon Legacy** Robert Jordan , Reagan O'Neal

Well past his prime, Robert Fallon now fights the battles of politics to save the country he cherishes from civil war. It is 1832, and the high tariffs that protect northern industry are crippling the South. President Andrew Jackson thinks force is the answer to the South's threats of secession. Robert must pay a final-hour visit to Washington, as an appeal to Jackson and Congress to pass a compromise tariff before the country is torn apart. Like his father and grandfather before him, James Fallon is a man of vision and iron will, determined to succeed. But where his forebears were men of the sea, he is a man of the land, the vast land of northern Mexico - a land called Texas. James sets out for Stephen Austin's colony of Americans with dreams of a horse-breeding empire. The land is harsh enough, but he soon learns the Fallon past harbors deadly shadows - Cordelia Applegate and Gerard Fourrier. With political influence, hired pistoleros, and Comanches, they seek to destroy all Fallons.

## **The Fallon Legacy Details**

# From Reader Review The Fallon Legacy for online ebook

## Chip Hunter says

In the Fallon Legacy, the story concentrates mostly on James Fallon, Robert Fallon's long lost son. The story takes you through James' adventures in the Texas frontier. Amidst much excitement and adventure, Robert Jordan is able to provide the reader with an extraordinary amount of history and culture from the Mexico/Texas region. The characters in this book are awesome. Some of the most loveable and hateable people I have ever read about. The Fourrier family continues to haunt the Fallons all the way up to the last chapter of the trilogy, but the Fallons are once again able to persevere, although with some heart-wrenching losses.

.  
While the adventure and romance of this novel were very entertaining and fun to read, the best thing about the book, and indeed the whole trilogy, is the fresh perspective that it provides on the history and the culture of America 200 years ago. Books like this help to preserve our heritage.

## Mat says

A great historical and very American trilogy. It starts before the Revolution and ends about 30 years before the Civil War, which is a pity: I wonder what might have become of this saga if Jordan had continued it instead of starting to write that little thing called The Wheel of Time...
