Nothing's ever easy when Sherlock Holmes is involved. Joanna Watson needs sports and academic scholarships if she is going to make it all the way to med school. That means keeping out of trouble, and her school record squeaky clean. But upon befriending the mysterious New Girl, Joanna has her perfect record ruined, skips school for the first time in her life, and finds a blackmailer aiming a gun in her direction. All she knows is that she's going to get grounded... if they get out of this alive.

**Cori says**

**First line:** My world crumbled hyperbolically before me on a misty November morning, the week before Thanksgiving.

**Summary:** A new girl shows up at Watson's school and ends up as her lab partner. Sherlock Holmes is not so easy for Joana Watson to stomach, although through some small adventures, a sort-of friendship begins to develop. As much as anyone named Sherlock Holmes is capable of developing a friendship, that is.

**Highlights:** The storyline is appealing, even if it does require a significant suspension of disbelief. It is after all, a story about high school students. It feels like a book that would be good for middle school readers.

**Lowlights (or what could have been better):** I felt like the writing was a little simplistic at times, and there were way too many typos. A few instances of words-that-are-not-words (alright) and the wrong word used (depreciated rather than deprecated for instance), especially closer to the end of the books, made me feel like the writer could have used a better editor.

**FYI:** A tiny bit of swearing, but that's about it.
