### **Aldana says**

\* #MaratónRavenClub: cuarto libro :D \*

¡Me encantó! Lo malo es que la historia se puso genial justo ahora que tengo que ir a dormir DDD:  
Quiero el siguiente tomo ya! D:

### **Lauren says**

This was such a dramatic and heartfelt series. I felt so bad for the characters. the author did a really great job pulling at the readers. the series was emotionally charged and action packed.

### **Ricardo EMG says**

Great plot twists. It might be my favourite volume so far.

### **Jessica says**

This volume was really frustrating because partway through I think they changed the translator. The sounds that were usually explained or translated in the margins just stopped, some of the characters names changed enough to confuse me for a bit, and the translation was just not right. A lot of the dialogue started coming off

as broken English from a person who didn't quite understand the language... just... awkward. Enough to take off a star.

Other than that, great story still! Looking forward to the rest!

### **Sara Witte says**

The translator switch in the middle of this volume was a little annoying, but overall I liked this volume. So far I like this volume much better than the last few. Elfen Lied is a weird one, I have accepted that, but sometimes it gets a little much.

### **Michelle (In Libris Veritas) says**

I think I'm beyond the point where I'm sort of hoping the world implodes and everyone in this story will disappear forever. I'm going to rewatch the anime when this is all over so I can hopefully replace this dumpster fire with the story that doesn't suck so badly.
