## Garfield Takes His Licks Jim Davis

Just as the day becomes night, summer becomes fall, and breakfast becomes lunch (with ample time for snacks in between!), Garfield becomes plumper and funnier with every meal he devours, and every practical joke he performs. So whether he's nudging Odie off the coffee table or "doing" lunch with Jon's goldfish, Garfield is in it for the fun--and so are we!

I remember getting the Garfield books as Christmas and birthday presents as a child and laughing like crazy at the antics of this crazy cat and his friends.

Our girls have also discovered this lasagna-loving feline and I love that they enjoy reading these books, too.

I have to admit that the same jokes don't amuse me as much as they used to, but it's still a quick, humorous read.

Funny

This book is funny. I don't remember everything that happened. When I read this book it was with a lot of other Garfield books. I love these comic type books because they are easy to read, and quite funny. I think everyone should read these books. So read them now!

Saya merasa... sebagian besar hidup saya... terangkum dalam kelakuan Garfield di buku ini. Eh, tidak. Mungkin di semua bukunya, saya hanya belum baca saja.

Garfield Takes His Licks chronicles the life of America's favorite grouchy kitty, Garfield. This lasagna-loving cat only wants to sleep, eat, and cause problems for his owner, Jon, and the dog in the house, Odie. He thinks he is smarter than everyone else, but sometimes outthinks himself and ends up on the short end of the stick.

Jim Davis has created a funny cat that millions of newspaper readers love to read about every day. You don't have to be a cat lover to enjoy this comic strip. I don't like cats very much and I always enjoy reading a Garfield comic strip. Like most of the books, the humor is very dry and I don't find myself laughing out loud, but there are always five to ten strips in a book that may make me smile.

Overall, Garfield Takes His Licks is another entertaining book filled with Garfield comic strips that is worth reading. I'm not sure how Jim Davis continues to create a comic strip with only three main characters, but it is working. As I have said before, I would love to see some changes, like adding another character or making Odie also have thought bubbles, but he doesn't seem to be listening to me. Oh well, the book is still enjoyable, so pick up a copy to today.

Garfield, that lasagna eating orange cat, is a classic comic character and is still a hit with kids today.
