She's convinced he's guilty. He knows he's not. Can they survive long enough to prove who's right?

Former Slye Temp agent Ryder Van Dyke is stuck in an Atlanta penitentiary facing the death penalty after being framed for murder. When his last hope for freedom disintegrates, Ryder is offered a commuted sentence – if he helps the FBI nail a deadly criminal ... his father. But Ryder has his own plan to use this opportunity to prove his innocence, or tap his Special Forces skills to disappear because he is not going back in that cage. FBI analyst Bianca Brady spent two long years substantiating that the head of Van Dyke Enterprises is guilty of funneling weapons to terrorists. Now all she needs is the proof. When her research leads to a potential murder conviction for Ryder Van Dyke, Bianca sees a clear path to take down Ryder's father and to gain justice for her best friend who died at the hands of a terrorist..

Bianca's the last person Ryder will trust after she led the charge to put him in prison, but when Ryder accepts the FBI offer there's only one way to get an agent inside his father's high-security family compound – as Ryder's legal wife. The unlikely pair must navigate a minefield of deadly secrets, threats to national security, and a killer with a vendetta, to stay alive until they uncover the truth. But when Bianca becomes the killer's next target, Ryder is forced to make a choice - give up his freedom or risk the life of the woman who's stolen his heart.

This was my favorite so far of the Slye Temp series. Sometimes I read a romance and I admittedly fall in love with the hero. But sometimes I read one and I fall in love with the couple. That definitely is the case with Bianca and Ryder and I think it's a true testament to Dianna Love's ability to write such wonderful characters in these amazing situations and somehow keep them down to earth and relatable. And incredibly charming. Loved it!

Honeymoon to Die For by Dianna Love.

Loved it, loved it, loved it! The book was fast paced, not a dull moment, Dianna kept you on the edge constantly wondering what was going to happen next. I totally fell in love with the Ryder and Bianca and can't wait for the next book.

Keep them coming Dianna!

This was an awesome, adrenaline ride. This was one of the hardest books to put down. You know the characters are well written, when you put the book down, and can not stop thinking about it. I am a HUGE Dianna Love fan!!! When reading her books, they pull at every one of your emotions.

When a man is convicted of a crime he says he did not commit the FBI step in with a plan of their own. When Ryder puts a twist on it, and will only do it with Bianca as his wife. With her working for the FBI and Ryder working with Slye Temp can they ever work together?

If I could give this book more than 5 stars I would.

LOVED this book! It's the 3rd in the Slye Temp Agency series, full of suspense, intrigue and a great romance between an incarcerated former special ops soldier and an FBI agent. Ryder Van Dyke and Bianca Brady are thrown together to go undercover in Ryders family's company to find out if they're selling weapons to terrorists. The pasts of these to drive them for the truth. I definitely recommend this book and the entire series!

Honeymoon to Die For by Dianna Love

This is the third (and best to date) of the Slye Temp action thriller series by Dianna Love.

I connected with these characters. I felt their pain, their anxiety and their angst. I was immediately drawn into the story and kept riveted until the end. Action, adventure, guns, shooting, running, family arguments, humor, spying, sex, deception, sacrifice, and getting it all right in the end.

I recommend this book highly for a action packed afternoon of reading.

I received this book from the author.

If you haven't read dianna loves books .... You are missing out. They get better and better. The characters are great and I love how no matter what I can always expect a laugh or 2. That makes it even better. Can't wait for the next one in the series.

I really didn't like the first book of this series but this one was so much better. The hero Ryder has been in prison for months, accused of a crime he didn't commit and then the FBI comes calling, they need to infiltrate the family he walked away from. The heroine is an analyst who has been working on the hero's family and their connection to her friend's death. The hero's deal is that the only way in is as his wife. I enjoyed the book, the whole subterfuge. The heroine comes to believe that the hero is being set up but she also has a duty to fulfill to the FBI. Even the whole Orion Legacy thing was better.

## **Lucy (why do I bother to read chicklit) says**

The book has a steady pace and the characters do have chemistry. He is in jail for a crime he didn't commit and she is the FBI analyst who is used to working behind the scenes who is designated to keep an eye on him to make sure they catch the bad guy: his dad! I quite enjoyed it and will definitely read the next one of the series.

## **Laz the Sailor says**

This may be the best of the bunch so far (1-4). Once you get past the initial "Wait, what?" the story moves smoothly. The H and h are strong and honest, and only get a bit angsty when clues are revealed out of order. I've been reading a lot in this sub-genre, and I may like this series the best, along with the I-Team.

## **Heather says**

This series keeps getting better and better. Ryder and Bianca are two damaged individuals thrown together to work on a case, and the story is just non-stop excitement! One of the things I love most about this book, and the series, is how each story adds to this sort of logic puzzle that keeps building. Sure, each book has its own puzzles and dilemmas, but something big is building. With each book you learn more about the Czarion and Chatton. So, not only are you sucked in by the book itself, but you have the mystery building throughout the series pulling you into the book as well. Getting more information about the other Slye Temp members really adds to the story as well. I, personally, can't wait to learn more about Gage after reading the following.

"Nothing about that face was magazine worthy, but put him in a room full of alphas and his sheer force of presence would mark him as the top of the pack."

Dianna Love is doing a fantastic job of weaving everything together! I don't know how she does it, but it is amazing! If you are looking for something full of excitement and secret missions, this book is for you!

## **Lauren Clarke says**

Really, really liked this book. Loved seeing what happened to Ryder from the Slye Temp #2 book. The "villain" was a little predictable but there were definitely surprises. Dianna Love is becoming one of my favorite authors.

## **Sally says**

After reading these three, I must say I'm going through withdrawl waiting for the next one to be published! I miss Ryder. But most of all, I miss the suspense and constant twists and turns and not being able to figure out who the bad guys are. Just when you think you've got it figured out, nope, not that one. There are lots of players but Ms. Love sets it up where there is no confusion and she has you wanting more. I couldn't put this one down and the only consolation to finishing it was that I finally got some sleep.

Slye Temp Book Three

When Ryder is given a chance to find the ones who framed him for the murder of a family business rival, he jumps at the chance. Bianca only wants to figure out who was responsible for the death of her friend in a foreign country. The two of them begin on opposite sides of the line, but when lives are at stake lines blur.

If you're looking for a fantastic story about two people with personal stakes in the lives of others, this is the book for you.

Honeymoon to Die For is the 3rd book in Dianna Love's wonderful Slye Temp series. It seems with each book, this series gets better. The minute I started this book, I could not put it down. It was so exciting, with wonderful characters; something that Dianna is known for. If you have not read any of Dianna's books, she has an uncanny ability of always creating wonderful characters that you care about, as well as the secondary characters.

Ryder Van Dyke is our hero in Honeymoon To Die For, and what a hero he is. It didn't take me long to fall for Ryder, and I think our heroine, Bianca Brady started to fall for him quickly too. The only difference is she thought he was the enemy, and fought hard to fight her attraction. Not me, I fell for him hook, line and sinker all the way.

The story starts with Ryder in prison for a crime he did not commit, and he has been there for 4 months. He knows he has been framed, and Sabrina and the Slye Temp team has tried to help him to no avail. Ryder's father is a billionaire business man, and Ryder suspects his father had a hand in framing him. The FBI wants Ryder father badly, and he is offered a deal to help them get the information they need. Enter Bianca, who is an FBI agent, who had a hand in sending Ryder to prison. Bianca is an expert analyst, with special computer skills. It is Ryder who insists that Bianca go with him back home to his father, to help find the information the FBI needs, as well as hoping to find out who framed him.

I will not give spoilers, but to tell you that this was such an exciting story from start to finish; another wonderful trademark for Dianna Love's storytelling. Honeymoon To Die For is a romance suspense thriller all the way. As Ryder and Bianca worked together as a married couple, there were so many tense dangerous moments where both of them had their lives on the line, and us on the edge of our seat. But the best of part of this book, was the buildup of their romance. I loved Ryder from the start, and how he falls hard for Bianca, giving him something he has never had....love. It was a treasure to watch Bianca fight off her attraction to Ryder, as she has not had good experiences with men, only to fall hard. This was such a beautiful romance, one of the best I have read this year. I so enjoyed watching this unlikely couple fall in love, despite the dangers surrounding them. The sexual chemistry between them was hot and steamy, and written so well by Dianna. totally awesome.

Honeymoon to Die For is a great book, that blew me away. If you like romance and suspense thrillers, you must read this book. Dianna Love is a wonderful writer, and I have become such a big fan of her work. I suggest you read this series from the beginning, but Honeymoon To Die For is one not to be missed.

## **Leanne says**

I have to start off with "This was such a great book!"

I enjoyed reading this book from beginning to finish, it sucked me in right away and never let go. Another reason why I liked it so much is because there was at no point in this book a time when I got uninterested.

It's often that I read books that I have to push myself to read through until the next good part, with this book I

didn't have that problem. It was good all the way through.

Ryder Van Dyke is a well rounded character and yummy to boot. Bad boy image but with a heart of gold. I could see myself going gaga for this guy.

Bianca Brady is another character with a tough exterior but inside she needs compassion and passion to make her come alive.

Dianna Love wove a great story that played out with twist and turns that could rival any multimillion dollar movie out there. I feel very lucky to have had it play out in my head ;)

If your looking for a great suspenseful, action packed thriller be sure to read this book!
